In this connection he said that re cently a life membership in th Chicago Athletic club was trans ferred for a consideration of \$9.70 and that there are 2,800 men on th waiting list of that club. New York, Nov. 2 -- President, Wilson's Receipts of grain were liberal for wheat address before congress was the one outmoderate for corn and light for oats. Arrivals were 140 cars of wheat, 63 cars of corn, 11 cars of oats, 9 cars of rye and 8 to the publication of the message on the news tickers.

Corn prices ranged from unchanged to the publication of the message on the news tickers.

Interest centered mainly in the president's earnest plea for a modification of number of offerings reported in did not show up on the tables and as a consequence sales were light.

Oats were 1/2 to 1c up. Rye prices

early period of hesitation.

Wall Street chose to interpret this and other features of the president's message as a strong indication that the administra iton is in no degree committed to government owenrship of transportation and utilities. Bankers expressed themselves in complete accord with the chief executive's views regarding the importance of deter-mining without delay the amount of the tax levies for the next two years so as to facilitate the country's domestic foreign Apart from the rails, the market regis-

tered few changes of interest. United States Steel and kindred issues were steady to firm, motors and oils denoted conflicting speculative sentiment and coppers, leathers and specialties ended at mixed gains and losses. Shippings were active and strong at the beginning, but lost ground later to the accompaniment of reports that the proposed sale of Mercantile Marine tonnage to this government might encounter serious opposition from British interests. Sales amounted to 475,000 shares.

The only feature to bonds was the ac-

tivity of a few industrial issues, the general list easing. Liberty fourth 4½s continued to sag, breaking to 96.60. Total sales (par value) aggregated \$11.950,000. United States bonds were unchanged on

NOT ALARMING, SAYS MANNING

Care to Cover Coughs and Sneezes by Individuals Expected to Prevent Placing Another Ban.

"Most of the cases of influenza now being reported are nothing more than bad colds," said Health Commissioner Manning. "Everybody is thinking of the 'flu' and the minute they get a headache or a little fever they decide they have the 'flu.' This is the season of the year when colds are most prevalent. People shouldn't get scared as soon as they get a cold and imagine they have the 'flu.' Of course, it is wise to take care even of a cold.'

Reports of a number of cases of influenza at several of the Omaha schools are being canvassed under

Dr. Manning notes a "flare-up" of the "flu" in Omaha and says that the same condition prevails over a large part of the state. He has great hopes of the efficacy of the individuai campaign by which an effort is being made to get each person to be his own preventative-by covering up coughs and sneezes and by keeping in the open air and keeping houses well ventilated.
