

# M'KELVIE HAS ANNOUNCED HIS APPOINTMENTS

## Governor-Elect Names the Men Who Will Aid in Carrying on Affairs of State.

From a Staff Correspondent.  
Lincoln, Dec. 8 (Special).—Governor McKelvie confirmed the announcement of appointments as already published in The Bee and made the official statements as to the men he would name as follows:

Private secretary, Philip H. Brown, Wahon.  
Chief clerk, Arthur B. Cole, Aurora.  
Recorder, J. H. Presson, Omaha.  
Board of Control—Commissioner, A. E. Allyn, Hastings.

Fish and Game Commission—Superintendent of hatcheries, W. J. O'Brien, South Bend; chief game warden, George E. Koster, Niobrara; assistant deputies, F. E. Mockett, Pine Camp, Ed. V. Varner, Adams, Owen Jones, North Platte.

Food, Drug and Dairy Commission—Leo Stuhr, Grand Island; assistant food commissioner, William M. Widener.

Fire commissioner, E. D. Beach, Lincoln; assistant, W. D. Fisher, York; secretary, Eva V. Anderson, Havelock.

Prohibition Enforcement—Chief state agent, Gus Hyers, Lincoln.  
Irrigation and Highways—State engineer, George E. Johnson, Falls City.

Governor McKelvie says:  
"Bross, Nebraska, Prof. C. W. Bross, secretary of the governor's office, I have appointed Philip F. Bross of Wahon. He was born in Nebraska, graduated from the State University in 1903. For the past eight years he has been private secretary to Congressman Sloan of Geneva. His father, Rev. H. Bross, is well known in the state, and has always been identified with the activities of the G. A. R.

"Arthur B. Cole, Aurora, receives the appointment of chief clerk in the governor's office. He was born in Hamilton county and has always lived there. His father, Harvey Cole, was a banker in that county. Mr. Cole has been engaged in farming, real estate and insurance.

"J. H. Presson is reappointed to the position which he has held for so many years, recording clerk in the governor's office.

Interested in Education.  
For the very important appointment as member of Board of Control of state institutions, I recognize the need for a man of exceptional ability, and I shall submit to the senate for confirmation A. E. Allyn, Hastings. He was educated in Pennsylvania, and came to Hastings in 1882, and engaged in school work. He served as county superintendent of Adams county for six years.

Farmer Says It Beats Anything He Has Ever Seen  
Says Tanlac Is Just the Thing to Rid Folks of Rheumatism and Build Them Up.

"Tanlac is the only thing that ever did my wife any good during the ten years of her trouble," said William T. Masters of Mondamin, Iowa, while in Omaha a few days ago.

Mr. Masters is one of the best known and most substantial farmers in Harrison county, and no man in that section is more generally liked and respected.

years, was in school at Cozad, Neb., for four years, and was superintendent of schools of Dawson county for two years.

"In 1898 Mr. Cole returned to Pennsylvania where for eight years he was engaged in the creamery and storage business, but at the end of that time returned to Hastings where he has lived ever since. During this last residence in Nebraska, Mr. Allyn has been engaged in the retail coal business. He served on the Hastings city council for two years. In his home town and community he has been active in his service to every good cause, and has always been foremost in promoting matters of general public interest and welfare. He has been a member of the board of directors of the Chamber of Commerce in Hastings for many years and is serving his third term as vice president of that body. His only son entered the officers' training camp early after this country entered the war, was commissioned captain and was killed in service in the last days of the fighting in France.

"In making appointments to the Fish and Game commission, I had in mind not only the propagation of wild game, but the protection of insectivorous birds and other animals that are so valuable to the farmer in combating insect pests.

Been Faithful Employee.  
"George E. Koster, who is reappointed as chief deputy, has been a faithful employee of the present administration. F. E. Mockett formerly lived in Lincoln, but is now a rancher at Pine Camp, Rock county. He was one of the first men to see the need of adequate game laws and was an important part in creating the sentiment for the law that was passed in 1901. He has been both president and secretary of the Nebraska Sportsmen's association and as a farmer will have a deep interest in all phases of law enforcement that come under the supervision of this department.

"Ed W. Varner is a member of one of the old Nebraska families, his father having been state senator and was a newspaper man at Sterling, Neb., for many years. Mr. Varner is publisher of the local paper at Adams, is an exceptionally fine trapshooter, and is recognized by sportsmen throughout the state as a man of unusual fitness for the position to which he has been appointed.

Now Special Warden.  
"Owen Jones, North Platte, is now employed by the North Platte Irrigation company. He is well known by the sportsmen of the state and as a special warden who has served without pay has rendered very commendable service in his community.

"W. J. O'Brien is reappointed to the position which he has held for many years in charge of the state fisheries at South Bend. In that department he is recognized, not only in this state, but in many other states, as one of the most able men engaged in the propagation and protection of fish. Under his management the fisheries at South Bend have been developed into one of the popular state institutions in Nebraska.

"Leo Stuhr, who is appointed deputy commissioner in the food, drugs, dairy and oil commission, received the degree of bachelor of science from the University of Nebraska in 1901. For ten years he was employed by the American Beet Sugar company, four years as chief chemist and balance and time as foreman and assistant superintendent of operation. During the last seven or eight years he has been engaged in farming and stock feeding. He was a member of the legislature from Hall county during the last session.

Old Traveling Man.  
"William M. Widener, Lincoln, receives appointment as assistant hotel commissioner. He is connected with the Lincoln Drug company and is one of the oldest and most respected traveling men in Nebraska.

"E. D. Beach, Lincoln, has been appointed fire commissioner. Until 12 years ago he resided in Fillmore county where he settled, near Fairmont, 40 years ago. He has served in the following capacity: Officer of the Fillmore County Farmers' Mutual Insurance company; three times a member and chairman of the county board of supervisors in Fillmore county; is a stockholder in the Lincoln Trust company; is a member of the board of directors of the Lincoln Joint Stock Land bank and has been connected with the Nebraska National Loan company since its organization 20 years ago, and has been its president for the past 15 years; and is at present chairman of the republican state committee.

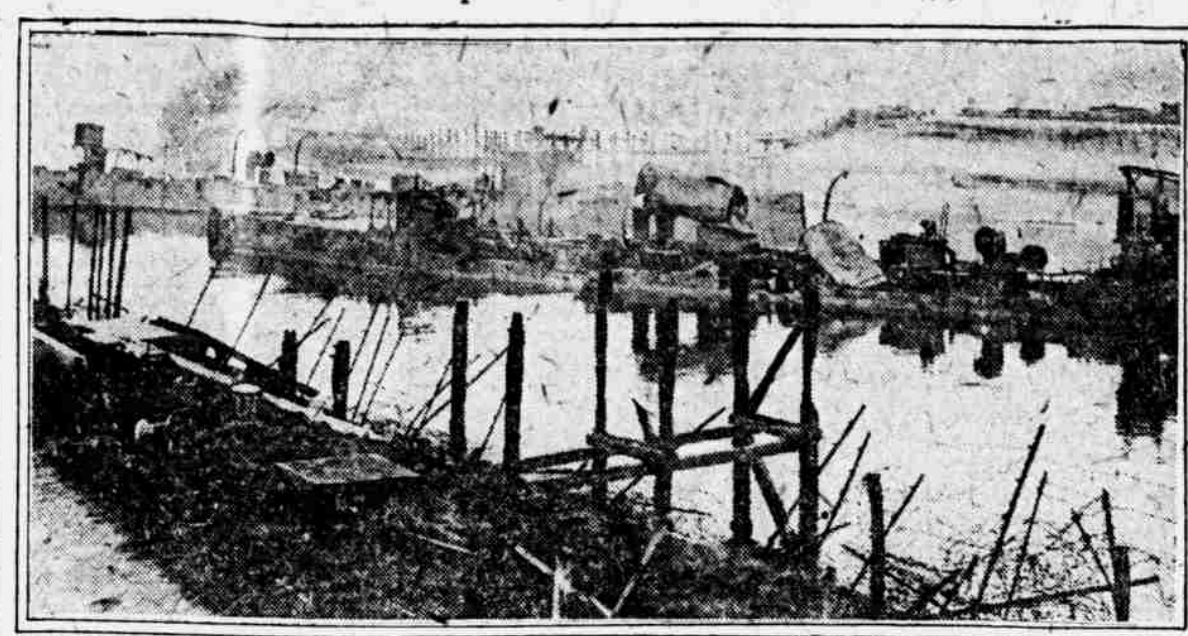

"W. D. Fisher, York, is appointed assistant in the fire commissioner's office. He has been active in the affairs of the Nebraska State Firemen's association for over 28 years and is one of the three life members at the present time. He was a charter member of the National Firemen's association.

Miss Anderson, Secretary.  
"Miss Eva V. Anderson receives the appointment as secretary to the fire commissioner. She is the daughter of E. E. Anderson, vice-president of Farmers and Mechanics bank at Havelock in which city she was born and still lives. She is a graduate of the Havelock High school, and the Lincoln Business college. During the past year she has been employed in the office of the republican state committee.

"Gus Hyers, former sheriff of Lancaster county, is appointed as chief state agent for the enforcement of prohibition. His very successful administration as sheriff, his large acquaintance among police officials of the state, and his untiring fidelity to any task which he undertakes backed by scrupulous integrity, especially fits him for this very important position.

"George E. Johnson, Falls City is reappointed state engineer by the State Board of Irrigation, Highways and Drainage. He has served in this capacity during the past six years and is very popular among all those who have been associated or acquainted with him in his department.

## Position of British Ships which Bottled Up Zeebrugge Channel.

MOCKADE OF ZEEBRUGGE

This British official photograph shows the exact positions of the concrete filled ship, Iphigenia and Intrepid which were sunk by the British in the Zeebrugge Channel, completely bottling up the German submarine base there.

Irrigation Project Being Developed in Scotts Bluff County  
Lincoln, Dec. 8.—(Special Telegram)—Will M. Maupin, publicity commissioner of the state, has this day announced that a new irrigation project being formed in Scotts Bluff county, and the water to be supplied by the Gering-Ft. Laramie unit of the Redrider irrigation project. This unit will irrigate about 80,000 acres in eastern Wyoming and about 75,000 acres in western Nebraska. The government is expending about \$7,000,000 on this unit, and expects to have it fully completed in time to provide water for the 1920 crop. The completion of this unit means a wonderful impetus to the development of the irrigating country and an immense enlargement of the sugar beet industry.

The three sugar factories in the North Platte valley, at Scottsbluff, Gering and Bayard, are manufacturing between 8,000 and 9,000 bags of sugar a day, each bag containing 100 pounds net. Nebraska's total sugar production this campaign will be around 125,000,000 pounds.

The news from Washington that an embargo is to be placed upon German potash means the further development of Nebraska's potash industry. Nebraska sugar and potash will aggregate close to \$40,000,000 a year, and increased irrigated areas and an embargo on German potash means a further enlargement of these giant industries.

Wayne State Normal School  
The opening of the second quarter brings an increase in enrollment of 25. There are almost altogether 600 girls from the country districts. New classes were organized to accommodate the special need. At the same time the chapel service Tuesday morning was rendered notable by the appearance of the S. A. T. C. band. The young men, equipped themselves with brass instruments, and the young ladies, with their master, is greatly interested in this phase of work and is endeavoring to praise for the success of this initial appearance. At the same meeting, President Brooks spoke to the effect that the discipline here was excellent, being far superior to that prevailing in the schools.

A most pleasing event was the reception to the S. A. T. C. boys and their lady friends by Lieutenant and Mrs. J. J. Brooks on Thursday evening. About 8 o'clock the boys assembled at the barracks of the general staff. The young men were temporarily demobilized and relieved from duties there. After all had gathered in the gymnasium the evening of games, contests and dancing, the boys and girls had a ball game from the beginning to the end of the program. Contests by representatives from the various companies brought forth great merit and enthusiasm. After light refreshments had been served the boys and girls, with "captain" Brooks, were presented with a \$2 silver set as a token of high esteem by the S. A. T. C. unit here. The boys acted for the company in presenting the gift. This was followed by a speech by the lieutenant. It is with deep regret, said Lieutenant Brooks, that he must leave the unit here and see it demobilized. On the other hand, the boys are indeed regretful to be discharged from company at the head of which has been such a pleasing and capable officer as Lieutenant Brooks.

Hasings College.  
College was dismissed Friday until Dec. 21, on account of the illness of Prof. A. L. Hill, who will give the S. A. T. C. men, however, until they are about to be discharged, which will be sometime within the next two weeks.

Just before leaving the girls here were given a party by the boys. The time was had by all, the party concluding with refreshments characteristic of the generosity of the S. A. T. C.

A number of men have been commissioned for promotion in the S. A. T. C. unit here. Out of the fifty-five, there were twenty-one recommended for promotion.

The football team having made such a good record, a complimentary banquet was given to them at the Presbyterian church last Monday. Professor Fuhr acted as hostmaster and a number of very good talks. The banquet was attended, though not quite as well attended as usual this year, the enthusiasm was equally great.

Prof. Carl M. Sheer, of Red Cloud, has charge of work in mathematics in Hastings college taking the place of Prof. A. McSweeney who went to an officers' training camp just before the war closed. Professor Sheer has returned from Camp Taylor. Previous to this he taught in the Blair High school following his graduation from the University of Nebraska. First Lieut. Wallace W. Taylor, who was one of the first seven boys to enlist from Hastings college, returned Friday night. He made the college a pleasant visit. Lieutenant Taylor was in France just about a year and was in active service at the front, in the balloon squadron, all but seven weeks of that time. He was credited with the capture of the British and then became a part of the Pershing army, where he was serving up to the day the armistice was signed. He returned without any mishaps. He and Miss Frances Fulton, both of the class of 1915, were married.

Doane College.  
The Women's Glee club of Doane, 44 voices, gave a program at convocation Friday morning. Friday chapel programs are furnished by the Conservatory of Music.

Legislation Urged To Stop Child Labor And Educate Youth  
New York, Dec. 8.—Federal aid in ending employment of child labor and in providing education and physical training for the country's youth was urged at the fourteenth national conference on child labor here.

Among the speakers were Senator Lenroot of Wisconsin; Dr. George D. Strayer, president of the National Education association; Dr. Wright B. Waldo, president of the Western Normal college at Kalamazoo, Mich.; Dr. Willard S. Mall, specialist in school hygiene of the United States bureau of education; and Dr. Lydia A. De Vilbiss of the Kansas state board of health.

Senator Lenroot endorsed the Pomerene child labor amendment to the revenue bill.

Dr. Strayer, president of the National Education association, Dr. Waldo urged passage of the Hoke Smith bill which would provide \$100,000,000 annually from federal funds to aid the states in improving rural education, training teachers, promoting physical education and recreation and Americanizing immigrants.

Messages from Foreign Minister Balfour, Field Marshal Haig, Admirals Beatty and Jellicoe, Premier Clemenceau of France and Ambassador Jusserand, were also read and addressed to by Sir Henry Balfour, Charles E. Hughes, Samuel Gompers, and Dr. George E. Vincent, head of the Rockefeller Foundation.

Washington, Dec. 8.—Exercises held today under arrangements of the Washington Britain's day committee were attended by senators and representatives and government officials, as well as by allied and neutral diplomats. The achievements of the British army and navy were set forth in speeches and tableaux.

Masaryk to Hasten to Prague and Convoke Parliament of Poles  
Paris, Dec. 8.—Prof. Thomas G. Masaryk, president of the Czechoslovak republic, will make only a brief stay in Paris, having received word by courier shortly after his arrival asking him to proceed at once to Prague. Upon his arrival there, he informed an interviewer, he will convoke the parliament and will address to it a message explaining the political situation and setting forth the grave problems confronting the republic in the present circumstances, notably those having to do with its relations with neighboring states.

President Masaryk said that his country was on the best of relations with the Jugos-Slavs and the Galician Poles, the aspirations of all being dependent one upon the other.

Without a strongly organized Russia, he declared, no stable peace would be possible. The Russia of tomorrow, he thought, must supply a counter-balance for Germany.

General Shanks to Direct Debarkation of Troops  
New York, Dec. 8.—Maj. Gen. David C. Shanks, who directed the embarkation of the bulk of America's fighting army of 2,000,000 men, returned today to take command of the port of embarkation here, after two months' absence as the commander of the Sixteenth division, in training at Camp Kearny, Cal. He will superintend debarkation here of the returning expeditionary forces, the majority of whom will land at New York.

Fremont Boy Dies of Wounds  
Fremont, Neb., Dec. 8.—(Special Telegram).—Priv. Ernest G. O. Larson, brother of Light and Water Commissioner B. Harry Larson, died October 21 in France of wounds sustained in battle.

For Coughs and Colds  
Take a tried and tested remedy—one that acts promptly and effectively and contains no opiates. You get that remedy by asking for PISO'S

Telephone Company Denies Jurisdiction of State Commission  
Lincoln, Dec. 8.—(Special).—Telephone companies are not under the jurisdiction of the State Railway commission, according to an answer filed in federal court yesterday by the Lincoln Telephone and Telephone company to the injunction suit started by the commission, prohibiting the government from interfering with the authority of the commission in the control of rates in Nebraska.

While the answer is filed by the Lincoln company, it was prepared under the direction of C. H. Bracelin, Rostmaster Burleson's legal staff chief. The answer simply sets out that the company is no longer a common carrier in this state under the present conditions and is simply acting as agent for the Postoffice department under a contract with the government.

Fremont Takes Steps to Secure Location of Midland College  
Fremont, Neb., Dec. 8.—(Special).—A committee of Fremont business men will go to Atchison, Kan., Tuesday to represent the commercial club when the question of the removal of Midland college and Atchison Normal college to Fremont, Mo., is to be considered by the board of education. At the synod convention it was voted to recommend the purchase of Fremont college for \$85,000 and move the Atchison school here.

Mrs. Dennis Radford, Sr., of Elk-horn township, died at the Radford home, east of Fremont. She was 56 years old. Three sons and three daughters by a former marriage are the surviving relatives.

Notwithstanding a number of towns in this section of the state are under quarantine owing to the influenza epidemic, the situation in Fremont continues to improve.

State Railway Commission Writes Book on its Labors  
Lincoln, Dec. 8.—(Special).—The members of the State Railway commission have written a book. It is entitled "Tenth Annual Report of the Nebraska State Railway Commission," and is a very voluminous piece of literature, covering about 600 pages. There is about everything in it a man would like to know about the transportation facilities of the state, but the title of the book would make it more salable if called "Struggles and Troubles of a Railway Commission." It is under the authorship of such well known writers as Thomas L. Hall, Harry G. Taylor and Victor E. Wilson; and Ulysses Grant Powell.

Bethlehem Company Request Refused by War Labor Board  
New York, Dec. 8.—The national war labor board made public here tonight an order denying the request of the Bethlehem Steel company that the board's examiners be withdrawn from the company's machine shops and that it be permitted to "make the necessary arrangements of our working forces to meet the new peace time conditions."

The order, in the form of a letter to E. G. Grace, president of the Bethlehem Steel company, signed by William H. Taft, and Basil M. Manly, joint chairmen of the board, took sharp issue with Mr. Grace's statement that the company was "unable to adopt" the finding of the examiners in favor of the machine shop employees, "as it was preceded by the cessation of hostilities."

The board characterized his letter as a "refusal to respect the authority of the war labor board," which it was declared would continue until President Wilson proclaimed the signing of the peace treaties, and insisted that its findings be carried out "fully and promptly."

## FARM CONGRESS TO DRAW MANY HERE DEC. 17-19

Reconstruction Program and Needed Legislation Principal Subjects for Discussion.  
John Grinnell of Papillion, secretary of the Nebraska Farmers congress reports an unusually large number of delegates have been appointed from the various farm organizations and county farm business in Nebraska, to the Nebraska Farmers congress, which meets in Omaha, at the Hotel Castle, December 17-19.

The reconstruction program which has been arranged appeals to the farmers who are all wondering what the future has in store for them. Then the farmers have some ideas on needed legislation which they wish formulated and presented to the new legislature. An invitation will be extended to all state senators and representatives-elect to attend.

Principal Addresses.  
The following are the principal addresses:  
"Prices of Farm Products After the War"—Prof. Samuel B. Grover, Farm Economics, University of Missouri.  
"Agriculture and Reconstruction"—Maj. Samuel Avery, chancellor University of Nebraska.  
"Good Roads for Nebraska Farmers"—J. W. Sherhill, vice-chairman Highway Transport committee of Nebraska.  
"The Farmer and the Farmer"—Hon. Dean Morris, president Nebraska State Normal school.  
"Farm Labor Problems After the War"—Prof. H. C. Filly, University of Nebraska.  
"Taxation of Farm Mortgages"—Hon. J. W. Cory, registrar Federal Land bank of Omaha.  
"C. W. Pugsley, editor Nebraska Farmer, Lincoln.  
"George C. Jankin, treasurer Nebraska Farmers congress, Southfield, Mich.  
"C. H. Gustafson, president Farmers Educational and Co-operative union of Nebraska, Omaha.

Chancellor Avery of the state university has just returned from Washington, after a year's work in the chemistry division, and will make his first public appearance since his return at this convention.

Taft Emphasizes Need for League of Nations to Keep Peace in World  
New York, Dec. 8.—If for no other reason than to provide help and guardianship for the new countries which are to be carved out of the old in Europe a league of nations is needed, William H. Taft said in an address here before the League for Political Education.

"It is only through a league of some power that will restrain international friction between these young nations and the countries out of which they have been carved that we can make the experiment of teaching government in 10 or 12 places," Mr. Taft said. "These young nations will need help and guardianship of a stronger power, a kindly father who will speak them when they depart from the rules laid down for them. If we create out of those dominions we have conquered 10 or 12 or 14 new nations, it will not make for peace, but war will be certain, unless we create a league of nations, whose duty it shall be to maintain peace."

Premier Romanze to Expel German Embassy from Spain  
Paris, Dec. 8.—La Liberté today prints a dispatch from Madrid saying that the new Spanish premier, Count Romanze, intends to expel the German ambassador, Prince Natibor, and also several members of the German embassy, who have been notoriously engaged in spying and supporting the anti-dynastic agitation.

Clemenceau's Best Epigram.  
Premier Clemenceau, the "tiger of France" is a newspaper editor, and in L'Homme Libre he says many wise things in an epigrammatic way.  
Clemenceau's best epigram is said to be: "It is easier to go down a hill than up, but the view is from the top."

## Argentina and U. S. Will Try to Settle Peru-Chile Dispute

Buenos Aires, Dec. 8.—Argentina will join with the United States in endeavoring to reach a settlement between Chile and Peru on the question of the provinces of Tacna and Arica.  
President Wilson invited Argentina to undertake this task and President Irigoyen today accepted the invitation and instructed the Argentine diplomatic agents in Chile and Peru to this effect.  
Santiago, Chile, Dec. 8.—Joseph N. Shea, American ambassador, has handed to President Sanfuentes a message from President Wilson offering mediation in the question of the provinces of Tacna and Arica and expressing the wish of the American government for a friendly settlement of the controversy.

President Sanfuentes thanked Ambassador Shea for the offer. He declared that the matter should be settled in strict conformity with the treaty of Ancon and in a manner dictated by justice. At the same time, he said, neither the government nor the people of Chile, wished for war and in his opinion the controversy could be satisfactorily settled.

Denman Declines to Serve at Mooney Grand Jury Inquiry  
San Francisco, Dec. 8.—William Denman, former chairman of the United States shipping board, has declined appointment by Secretary of Labor William B. Wilson as special representative of that department in a county grand jury investigation of alleged irregularities charged in a report published here under signature of John B. Denmore, dealing with the case of Thomas J. Mooney.

Denmore's report charged irregularities in connection with the trials of Mooney, his wife, Rena Mooney, and others indicted for murder as a result of a bomb explosion here July 22, 1916, in which ten persons were killed. It was presented to Secretary Wilson at whose behest Denmore said he made the investigation.

Mr. Denman, in a formal statement, said he declined the appointment because he lacked "experience in criminal law and procedure" and because of the "want of the criminal investigator's temperament."

Property Custodian Accused of Exceeding Authority in Seizure  
New York, Dec. 8.—The charge that A. Mitchell Palmer exceeds his authority as alien property custodian in seizing the Botany Worsted mills of Passaic, N. J., and Steoch and Sons, Inc., of New York was made by Louis Marshall, counsel for the company's stockholders, in federal court here today. His argument was on a writ of prohibition to restrain Mr. Palmer from selling 24,900 of the 36,000 shares of the Botany company's capital stock.

The writ was obtained by Max Steoch, a stockholder in both companies in behalf of all the stockholders. Judge John C. Knox reserved decision.

Mr. Palmer has advertised for sale the assets of the company, placed by Mr. Marshall at \$25,000,000, and the stock. The sale was deferred because of the issuance of the writ.

Is Made Embassy.  
Washington, Dec. 8.—With the approval of President Wilson, Secretary Lansing has asked congress to raise the American legation at Lima, Peru, to the rank of embassy. Peru has signified a desire to appoint an ambassador to the United States, and the administration wishes to agree.

Clemenceau's Best Epigram.  
Premier Clemenceau, the "tiger of France" is a newspaper editor, and in L'Homme Libre he says many wise things in an epigrammatic way.  
Clemenceau's best epigram is said to be: "It is easier to go down a hill than up, but the view is from the top."

## PEOPLE OF EAST MACEDONIA ARE DISSATISFIED

Greeks and Serbians Who Suffered Pillage and Murder Demand Bulgarians Be Crushed.  
Saloniki, Nov. 22.—(Correspondence of The Associated Press).—Greeks and Serbians in eastern Macedonia, who suffered pillage, persecution, deportation and murder at the hands of the former King Ferdinand quit the country under the terms of an armistice, are exhibiting dissatisfaction over what they term the indulgence of the entente powers toward Bulgaria.

With fully 42,000 of their number deported, half of whom, it is believed, died under the hardships imposed upon them, the Macedonian natives are demanding, according to a Reuter correspondent who toured the liberated territory, that the Bulgarians be crushed by traditional Balkan methods. During the period of occupation the Bulgarians proved themselves "brutes and past master in acts of spoliation and violence," said the correspondent, and when appeals for relief were made to the German authorities no attention was paid to them.

Entering Macedonia as friends, under an understanding with former King Constantine of Greece, the Bulgarians established a reign of terror, which has been characterized as a disgrace to civilization. They imposed upon the population a rationing system which resulted in the starvation of many, following with assessments of taxes and seizure of provisions to an extent that impoverished the country. Then followed wholesale executions and crimes against men, women and girls of the most revolting character, the survivors declared. At Seres only 5,000 persons remain of 25,000 living in the city when the Greeks turned it over to the Bulgarians. The population of Demir Hassir fell from 12,000 to 2,300, and in Kavala 8,000 to 9,000 persons died of starvation alone in 1917, while in 1918 deaths numbered 30 a day, largely from malnutrition. In these and smaller cities the Bulgars not only confiscated the bulk of the food stocks, but forced the abled-bodied inhabitants to work for the invaders and carried away vast quantities of agricultural implements and furniture.

Joy in Macedonia over the withdrawal of the Bulgars is exhibited by inscriptions on many street corners reading, "Christor Anesti" (Christ is Risen), while the Hellenic army of liberation is received everywhere with enthusiastic acclaim.

FOR LUMBAGO  
Try Musterole. See How Quickly It Relieves  
You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment made with oil of mustard. Use it instead of mustard plaster. Will not blister.

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from your throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, colds, colds of the chest. Always dependable. 30 and 60c jars; hospital size \$2.50.

For Constipation  
Carter's Little Liver Pills will set you right over night. Purely Vegetable. Small Pill, Small Dose, Small Price.

Carter's Iron Pills  
Will restore color to the faces of those who lack iron in the blood, as most pale-faced people do.

Cuticura the Foot-Sore Soldier's Friend  
After long hours of hiking or guarding, when his feet are swollen, hot, itching or blistered, the soldier will find wonderful relief in a Cuticura Soap bath followed by a gentle anointing with Cuticura Ointment.

Comfort Itching Skin With Cuticura. Bathe with Soap, soothe with Ointment, dust with Talcum. 25 cents each at all dealers.

UNITED STATES RAILROAD ADMINISTRATION
