TWENTY-FIVE  
SOUTH SIDE MEN  
LEAVE SUNDAY**

**Polish Recruits Will be Given  
Reception Before Leaving  
to Join Army  
in France.**

Twenty-five recruits for the Polish army in France will leave the South Side at 4 o'clock Sunday afternoon for Chicago where they will join other recruits and then go to Niagara on the Lake, Canada. The recruits will be entertained by the Polish citizens of the South Side Sunday up to the time of their departure. Father Theobald Kalamaj will hold a special mass in the Immaculate Conception church at 9 o'clock for them, after which he will preach a sermon on "The Polish Army in France and the Future Government of Poland." The future soldiers will then be given a dinner in the Immaculate Conception school prepared by the ladies of the parish. The recruits will visit with their friends after the dinner until they leave for the depot. Frank Madura, a prominent Polish citizen, said that the recruiting in this country would stop the first of the year. Mr. Madura also said that a Polish army of 70,000 would sail from France soon to guard the old city of Danzig on the Baltic sea. A mass meeting was held Friday night in the St. Francis school to raise funds for the entertaining of the soldiers Sunday.

**South Side Brevities**

The funeral of Ileen Berry will be held Sunday afternoon at 3 o'clock in Larkin's chapel with services in St. Mary's church and interment in St. Mary's cemetery.

**O'Connor, When Brought Into  
Court, Says That He Was  
Roughly Handled by  
Police.**

Following charges that "third degree" methods were used by Detectives Danbaum and Van Duesen in trying to extort a confession from Tom O'Connor, alleged automobile thief, at the Central police station Thursday night, O'Connor was given a physical examination Friday morning by Dr. Waters, police surgeon.

O'Connor, when brought into the office showed no marks or abrasions. He denied he had been hurt, but admitted he had been roughly handled by the detectives.

O'Connor was convicted in Judge Redick's court April 16 of the present year for burglary of a grocery store. He was sentenced to serve three years in the penitentiary and is now out on parole.

Thursday night it is alleged he attempted to steal an automobile from in front of the Knights of Columbus hall. With him at the time was T. D. Foley, 2121 Grace avenue. Special Officer Stevens saw the two youths in the car and arrested O'Connor, but Foley managed to make his escape. A few moments later the latter telephoned to the police station to find if O'Connor was under arrest, and by means of the telephone call Foley was located at the U. P. restaurant by Captain Heitfeldt and was arrested.

When Dust Explodes  
on Cruiser in Japan**

Yokohama, Dec. 13.—(By Associated Press.)—Perfect discipline prevailed on board the United States armored cruiser Brooklyn when the explosion which killed six members of the crew and injured some 30 others, occurred today. Captain Althouse said the real cause of the explosion had not been determined, but that it probably was due to coal dust.

A pillar of smoke rose from the vessel after the explosion, but the people on shore were ignorant of the nature of the accident until the victims were landed. Several members of the crew were cut by flying glass. One man was hurled overboard by the force of the explosion, but was rescued.

**TO THE MEN**  
Who have returned from the service "over there" and Cantonments—this message is addressed to you—

To you who wore the khaki and the navy blue and went forth to do your "bit" in the great world-war for democracy—you who so splendidly helped to bring about the glorious victory, and now returned to be among us again—you are possibly tired of wearing the uniform all the time and anxious to get into civilian clothes once more.

It's with this in mind, that we want to suggest to you the benefits of our section of

**Men's Clothing**

Clothes have always had much to do with MAKING A MAN. Smart, tasteful, well-kept clothes indicate CHARACTER—neatness, care, thoughtfulness, ambition. They mean that the wearer will better represent his employer—will do neat, careful, thoughtful work.

**Give Yourself a Chance**  
Here are the winter suits and the smart overcoats that will make you comfortable and well-dressed. They will help you socially, as well as in a business way. They will give you new pride and self-confidence—and THAT is "half of life's battle." Come in and try them on. See how small the investment and how great the satisfaction will be.

**Men's and Young Men's Suits \$20 to \$60**  
**Men's and Young Men's Overcoats \$20 to \$85**

The range of selection is so large that you will have no trouble in choosing a suit that will please and satisfy you. The materials are the best of wool fabrics in both domestic and imported weaves, homespuns, worsteds, flannels and chevits, made up in plain models, double or single-breasted, two or three-button or soft roll lapel.

There's every style favored by the young fellow who gives a thought to his clothes, as well as styles for the conservative dresser. Solid colors, oxford, black and blue, with velvet or self collars, full lined, quarter lined, many silk lined. The materials are plain cloths, mixtures, etc., with single or double-breasted style.

Others have done it in the Potash industry, earning as high as 100% per month. In 9 closely connected lakes alone the most expert authority procurable estimates approximately \$23,000,000 worth of Potash, which shows we have the raw material and which is only a small portion of our tested holdings. A total of 15 lakes are now connected to the plant with a 6-inch pipeline. For full information and details cut coupon and mail

**MARKET FOR POTASH**  
For various purposes this country requires approximately 300,000 tons of potash per year and there is an increasing demand, but up to this time the Potash Producers are only furnishing a small portion of this amount. However, developments of the Nebraska Potash Industry will be carried on along extensive lines following formal action of the War Industries Board in declaring an embargo on foreign potash.  
The refined product is now selling from \$80.00 to \$150.00 per ton and the cost of production averages from \$15.00 to \$28.00 per ton. The Potash produced in Foreign Countries before the war cost from \$7.00 to \$36.00 per ton on the Atlantic Sea Board and to this the price of freight rates to the various parts of the United States and you will readily see that this industry will never be taken away from the American Manufacturers.  
The Foreign countries can never produce potash or in fact anything, as cheap as before the war, and also remember the Potash business of the United States is a new industry and in time science will introduce methods enabling the American Manufacturers to produce potash for at least one-half the cost of production today.
