POULTRY AND PET STOCK HEALTHY HENS are producers and profit payers. Weak, sickly birds are a constant source of loss. Pratt's Poultry Regulator, the natural tonic and conditioner, makes and keeps poultry healthy, makes hen lay. It is especially helpful during this trying season of the year. Prevents roup and colds by oc-casionally using Pratt's Roup Remedy. These troubles cut down egg production, reduce profits. Both preparations guar-anteed satisfactory or money refunded. Sold by first-class dealers everywhere.

GOLDEN EGGS; GET THEM! Egg prices were never so high. Make your hens, every one, lay steadily now Have pienty of eggs to eat and sell. Get your share of the golden harvest Prait's Poultry Regulator 'makes hens lay," Guaranteed satisfactory or money refunded. Not a severe stimu-lant, but a natural tonic and general conditioner. Begin using it today. Speed up your hens and get the profits while conditions are favorable, Sold by first-class dealers everywhere. Chicago, Dec. 14.—(Grain Review).— Corn has gone soaring this week as a re-sult mainly of official announcement that the 1918 crop would not be sufficient for home consumption, to say nothing of exhome consumption, to say nothing of export demand. Prices this morning, compared with a week ago, were 6%c to 7%c up for corn; oats showed gains of 1%c to 2@2%c, and provisions were varying from 65c decline to 40c advance.

Notwithstanding that the government crop report had been expected to show a material shrinkage in the estimated yield of corn the magnitude of the reduction came to the trade as an unmistakable joit. A wild stampede to buy followed and bullsh sentiment graw even after over-night

Oats made relatively slightly response to the flurried action of corn. The huge yield of oats officially confirmed seemed piles kept the provision market average of prices about even, despite record-break-ing shipments to the seaboard. Minneapolis Grain.

Chicago, Dec. 14.—Pronounced weakness developed in the corn market today owing largely to the outlook for an increase of receipts. The close was heavy, 2½c to 3½c lower, and with January and May both \$1.35\% to \$1.36\. Oats finished 1\% to 2c off and provisions down 50c to \$1.

Forecasts of cold, dry weather tended to stimulate selling, inasmuch as continued mild temperature and excessive dampness, have been seriously retarding the crop movement. Reports that congestion abroad would compel a readjustment of the food administration shipping program were also influential toward making sentiment more boarish. There was an integration of the food administration shipping program were also influential toward making sentiment more boarish.
