We Extend Greetings and Congratulations To Nebraska's Newest Institution

The Omaha Athletic Club

The completion of the Omaha Athletic Club marks the opening of another exceptionally creditable institution in Omaha.

Because of its having the undivided support of all of Omaha's largest institutions its success is assured from the outset.

However, it has been brought to a reality by hard and industrious work along lines which have been wholly constructive from the start.

It was by these same methods that the Woodmen of the World was built and now is one of the largest institutions in the middle west. It was by hard and constant efforts that the Woodmen of the World was built up to a point where today it is the largest Life Insurance Company in the middle west, with assets over forty-three million dollars, having on deposit in the banks of Omaha more money than any other single establishment in the city.

The Woodmen of the World is world-wide in scope and has over 900,000 policy-holders composed of honorable men from all walks in life. Men who are proud that they have affiliated with an institution whose cause is so worthy.

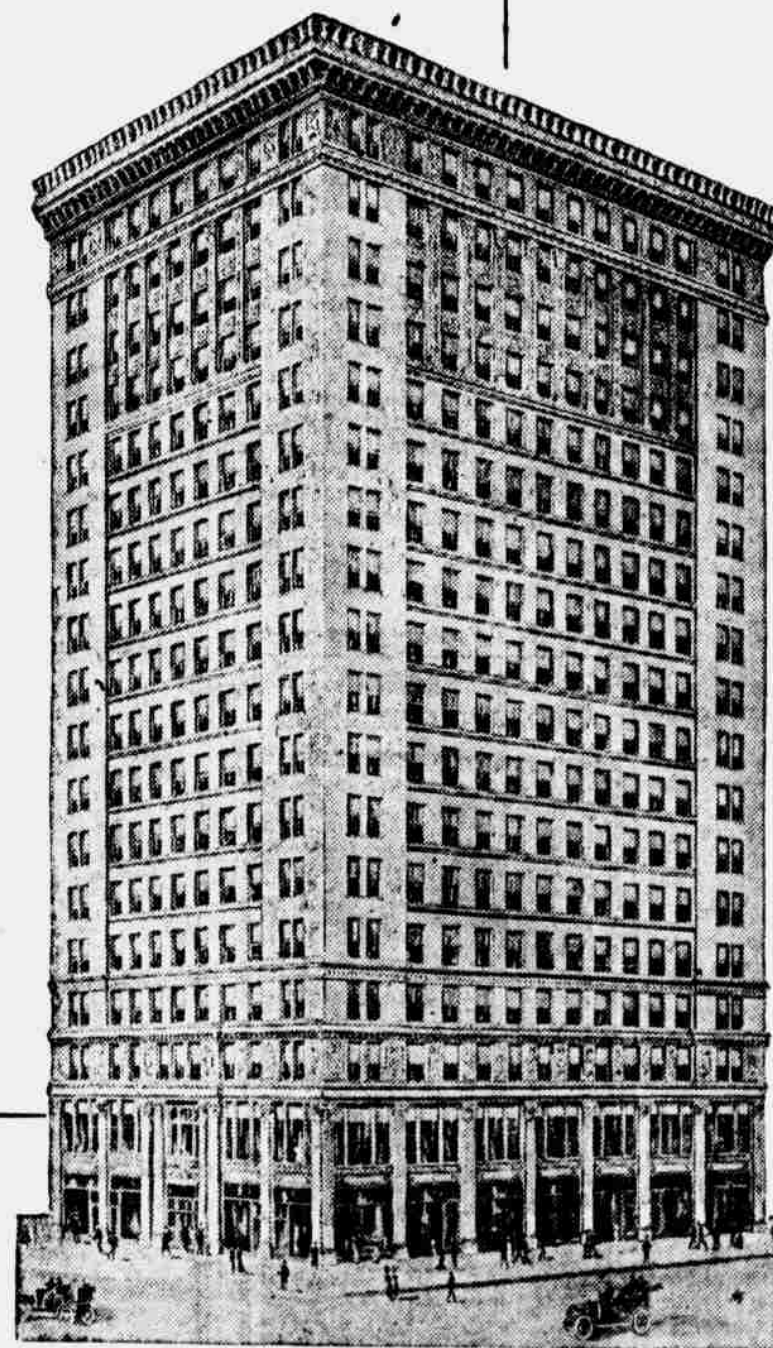

Institutions like the Omaha Athletic Club and the Woodmen of the World are truly ones of which Omaha can well feel proud as they are representative of honesty, integrity and stability.

Never fail to boost those institutions which have greatly helped Omaha grow. Always say a good word for those so greatly deserving as the Omaha Athletic Club and the Woodmen of the World, and if you have not already affiliated with both do so without delay.

WOODMEN OF THE WORLD

Hon. W. A. Fraser, Sovereign Commander

OMAHA, NEB., U. S. A.
