

BUSHNELL GIVES RULE TO GOVERN BUTTER DEALER

Cost to Be Controlled by Price of Butterfat; Defines Margins for Manufacturers.

A meeting of creamery men of Omaha was held in the Chamber of Commerce Tuesday evening at which Secretary Bushnell of the federal food administration of Nebraska explained the rules of the administration governing the sale of butter. The price is governed by the cost of a pound of butter fat. He defined the manufacturer's margins, defined the cost of butter fat, and explained that dealers in butter fat are to receive no more than the producer under the same circumstances.

The rules, as set forth by him, are as follows:

Manufacturers' Margins.
The manufacturer of butter shall not sell butter at an advance over the cost of butter fat necessary to produce a pound of butter, of more than 2 cents per pound of butter, except on sales through branch houses or sales to retailers in less than car lots as hereinafter provided.

Cost of Butter Fat Defined.
The cost of butter fat necessary to produce a pound of butter shall include:

1. The actual price paid to the producer of butter fat.
2. The actual cost of station buying labor, or commission, and all other buying expenses, but not more than 2 1/2 cents per pound of butter fat for such labor, commissions and all other buying expenses, except that the manufacturer is permitted to exceed said 2 1/2 cents maximum provided that the amount by which the maximum is exceeded shall be deducted from the manufacturer's margins.
3. The actual transportation expenses for carrying cream to the factory door.

Dealer and Producer.
The dealer in butter fat is to receive no more than the producer under the same circumstances.

The manufacturer shall not pay to any dealer in butter fat a greater price than he pays to the producer who is a direct shipper, performing similar services, and in no case shall the price paid by the manufacturer to the dealer exceed 2 cents per pound of butter fat above the price paid by the dealer to the producer of the butter fat.

MONEY CAN'T BUY GOOD TANLAC DID, SAYS E. KUSTER
Omaha Man Wants Everybody to Know How Tanlac Restored His Health.

"I actually believe that I tried about every preparation there is on the market for my kidneys, and Tanlac was the only medicine that relieved me," said Ernest Kuster, of 8718 North Fifty-second street, Omaha, the other day.

"I was always a strong and healthy man up to two years ago," continued Mr. Kuster, "when my kidneys began to trouble me. They worried me so much, especially at night, that I couldn't half sleep for being up and down so constantly all through the night. Last summer, too, I had a good deal of hard work to do, and although from outward appearances I looked like a healthy man I was anything but well, for not only did my kidneys worry me but I suffered from a bowel complaint, too, and both together were dragging me down and making me miserable.

"I had heard so much about Tanlac that I determined to give it a trial, and before I had used up half a bottle I was actually feeling better and in a short time I was in as good shape as ever. My kidneys and bowels don't worry me now but are acting normally again and I haven't the slightest trace left of my old troubles. I wouldn't take any amount of money for the relief I have gotten through the use of Tanlac and want all my friends to know what a wonderful medicine Tanlac is."

Tanlac is sold in Omaha by all Sherman & McConnell Drug Company stores, Harvard Pharmacy and West End Pharmacy under the personal direction of a special Tanlac representative. Also Forrest and Meany Drug Company in South Omaha and the leading druggist in each city and town throughout the state of Nebraska.—Adv.

THE CHENEY PHONOGRAPH

An Artistic Triumph

Rosa Raisa, the famous dramatic soprano of the Chicago Opera Association, has this to say of the Cheney Phonograph:

"Never before have I heard an instrument which so perfectly reproduces the artist's voice; it produces a true interpretation of the world's masterpieces."

The Cheney is a constant source of entertainment and delight, ever changing, ever new. Its repertoire includes the selections of all disk records, for it is equipped with the jewel point needles as well as the ordinary steel needles. The squeak and squawk, that has been so objectionable in other makes of phonographs, has been eliminated and that disagreeable scratching sound from the needle has been practically done away with.

The Cheney endows your home with an inexhaustible fund of musical entertainment. It places the rich resources of all the world's libraries right at your disposal.

Each type of cabinet is a distinctive art production, complete in every detail. The price is less than you would expect—\$75.00 upward—other phonographs of the portable styles for as little as \$15.00.

Terms to Suit Your Convenience.
