

REGULATION OF WHEAT PRICE TO 1920 IS ASKED

Congress Asked to Pass Law Which Will Protect Government Against Loss by Imports.

Washington, Dec. 26.—Legislation to make effective the wheat price guarantee for the 1919 crop and at the same time to safeguard the government against losses was recommended to congress today by the Department of Agriculture and the food administration.

First—Extension by congress beyond June 1, 1920, of the date for the government purchase of the 1919 crop.

Second—Continuance of the food administration's grain corporation, or creation of a new agency to buy, store and sell 1919 wheat that may be offered to the government and.

Third—Possible legislative provisions to protect the government against wheat or flour brought in from other countries during the period of effectiveness of the guaranteed price and also to protect buyers of such wheat as long as the wheat is in this country and not consumed.

Approved by President. The memorandum was compiled with the approval of President Wilson, and Secretary Houston in submitting it said, "the government has made a guarantee and it goes without saying that it must be made effective."

Regarding extension of the date of government purchase, the memorandum said: "It will be impossible to carry out the guarantee as it is intended by June 1, 1920, and if producers cannot sell their wheat to the United States before that date and are left with wheat on hand, it will be felt that the obligation of the United States has not been carried out in good faith."

"The government purchasing agency," the memorandum set forth, "have ample funds to at all times purchase throughout the United States at the guaranteed price such wheat of the 1919 crop as may be offered to it, and to provide storage facilities to take care of the surplus wheat, and to provide additional facilities, or both.

"The appropriation will have to be on a basis which enable the guarantee price to be maintained at all times by purchase of wheat with funds provided by the government and without relying on outside credit."

Large Stocks on Farms. The food administration grain corporation is maintaining the price for the 1918 crop with its capital of \$150,000,000 and its credits, combined with the export demand for wheat. The 1918 crop is estimated at 917,100,000 bushels and on November 29, last, the movement from the farms amounted to 888,000,000 of which 254,000,000 was in storage.

"It will be observed," said the memorandum, "that there is a very large amount of the 1918 crop yet to be moved from the farms, and it will take all the resources of the grain corporation and the most careful attention to every detail to carry out the guaranteed price for the crop of 1918. In fact, if the export demand should diminish, it may be necessary that there be a further appropriation by congress."

The carrying out of the guaranteed price for the 1919 crop presents a much more difficult situation, it was pointed out, because the winter wheat acreage is about 9,000,000 acres larger than that of 1918, and if an increase in spring wheat is planted, the harvest of 1919 may be in excess of that of 1918.

Basis for Action. Export of 1918 wheat is estimated at about 310,000,000, a large figure than can be expected for the 1919 crop, because of shipments from Canada, Australia, India and Argentina. Domestic consumption of the 1919 crop, including the seed wheat reserve, the memorandum stated, cannot exceed 640,000,000 bushels as a minimum. The possible 1919 crop was fixed at 1,114,500,000 bushels, of which 90,000,000 would be for seed requirements, 550,000,000 for domestic consumption, leaving 474,500,000 for export.

The 1919 crop for export, it was pointed out, might sell in competition with that from other countries at a price considerably lower than the guaranteed price, which probably would result in similar reductions at home.

Germans Have Lean Fare For Christmas Dinner As For All Other Meals

Supplies of Foodstuffs So Short in Larger Cities That Illegitimate Traffic in Them Ceases; Dinner Without Coffee in Restaurant on Under den Linden Costs 62 Marks.

By Associated Press. Berlin, Dec. 26.—The Germans, particularly those living in the larger cities, had lean fare for their Christmas dinners.

So much has been said about the food situation that it is understandable if there is an impression that the situation has been exaggerated. Here, however, there is one excellent barometer of the situation namely, "schlechthandel," as illegitimate trafficking in foodstuffs is termed, and this is beginning to diminish markedly.

A month ago it was possible to buy butter, sausages and some other articles from these dealers at high prices. During the last fortnight, however, it has become increasingly difficult to find these things and even the best "connections and sources" are now unable to produce more than occasional small portions at greatly increased prices.

Ham Sold for 540 Marks. When the craft dealers in this business cannot longer secure articles, there can hardly be a doubt that it is because they do not exist. Wealthy people, it is true, can still obtain limited quantities of what used to be considered luxuries, but are now considered luxuries, though at terrifying prices. In one particular case a man in Berlin paid 540 marks for a ham, the eggs to go with it costing three marks apiece.

Hunger Never Appeased. It is the normal state of every German, at least in the larger cities, to be continuously hungry. A keen political observer said to the Associated Press: "I had 60,000 tons of fat I could exultingly squelch bolshevism in Germany, and if I had some condensed milk, too, I could set up almost any kind of government except the one we used to have."

It is not only the food that is so dear as to be out of reach of the poorer classes almost completely, but all articles of clothing are correspondingly dear. The correspondent was offered 600 marks for an overcoat, which was purchased in Berlin in 1916 for 178 marks.

2 DEATHS DRIVE CHRISTMAS JOY FROM LANG HOME

Father and Son Die Within a Week and Mother is in Serious State of Health.

Plans for a merry Christmas in the home of Frederick O. Lang, 2614 Emmet street, were rudely shattered. Mr. and Mrs. Lang, their son, Donald, and Mrs. Snyder, Mrs. Lang's mother, had great plans for a joyful holiday season. Mr. Lang was employed by the Ford Motor company as a mechanic and since the closing of the local assembling plant has been building a house on his farm near Florence. Six-year-old Donald has been making the house merry with his laughter.

Last Friday, after a few days' sickness, Donald died from the influenza. The little boy was buried Sunday. Christmas morning the father died, and now the mother, the only member of the little family left, is on death's threshold with double pneumonia. She is at the Lord Lister hospital.

Mr. Lang has no relatives in this country. The funeral will be from the home Friday at 2 o'clock. Burial will be in the Forest Lawn cemetery. He was 35 years old and had been married eight years.

Packers Pinch Odd Pennies on Wages, Says Kansas City Witness. Chicago, Dec. 26.—At the hearing of packing house employes for wage increases before Federal Judge Alschuler today, Miss Ethel Kelly of Kansas City testified that a woman's coat that cost \$14.75 a year ago now costs \$35. She also said that when working on piece work the packing houses withheld the odd pennies from the employes. If a worker earned \$2.87 a day on piece work, they only got \$2.85, she said.

Mrs. Edna Wheeler, of Kansas City, working on piece work in the Morris & Co. plant in Kansas City said she averaged \$15 weekly and worked 10 hours daily. This sum was insufficient, the witness said, and her board cost her \$8.50 a week and her room \$4.50.

Judge Alschuler authorized Miss Kelly to visit Chicago department stores to ascertain the differences, if any, in the cost of food and clothing in Kansas City and Chicago.

New Ordinance Orders Gas Mains from Streets. An ordinance, prepared by Corporation Counsel Lambert, ordering the Omaha Gas company to remove its mains, pipes, etc., from streets alleys and other city property, was introduced in city council Thursday morning. The purpose of the ordinance is to put on record the fact that the gas company's franchise has expired and that any further action of the gas company while condemnation proceedings are going on shall not be construed as admission that the company still has franchise rights.

"Booze Hounds" Seize Large Amount of Christmas Cheer. Officials of the department of justice had a busy day Tuesday with 11th hour bootleggers wishing to fill the Christmas demand. Most of the arrests were made on the Iowa side of the river, but an immense quantity of liquor in suitcases, trunks and other containers were confiscated around the Omaha depots, the merchandise having been despoiled by its owners.

Omaha Ticket Clerk Twice Wins Way from Ranks to Commission. Hawthorne Daniel, an Omaha boy holds the distinction of earning two commissions in different branches of the United States service during the recent war with Germany. Enlisting as a petty officer seaman and being assigned to a torpedo destroyer, he worked up to the rank of ensign. Then his health failed and he resigned. After treatment in a hospital for several months Daniel enlisted as a private in the infantry and was sent overseas. His naval training stood him in hand and it was not long until he was commissioned as a lieutenant. He has been recommended for a captaincy.

For several years Hawthorne Daniel was a ticket clerk in the Burlington city office in Omaha. He was among the first of the Omaha boys to enlist after the United States entered the war. He has had naval training in Annapolis. This placed him in the front and it was not long until he was a petty officer on a destroyer. Torpedo promotions came rapidly. RED CROSS WILL TURN EFFORTS TO PEACE LABOR

To Center Activities in Public Nursing, Canteen and Civilian Relief, Says Frank Judson.

In public nursing, canteen and civilian relief departments, all Red Cross efforts of the next six months are to be centered. The surgical dressings and hospital garments are practically finished, according to Frank W. Judson, Nebraska director, who returned from Chicago to pass Christmas with his family. Mr. Judson was called there to direct the Christmas roll call for central division and will return to Chicago in a few days to complete the work.

"World policies of the American Red Cross are now occupying head officials. Henry P. Davidson, national chairman, made a second trip to Europe to settle plans for peace efforts. The outlook is Italy, France and Great Britain will assume their own Red Cross work. The American Red Cross probably will go into Russia, Siberia, Armenia, Syria, Rumania and Serbia."

Central division leads the country in a few days of increases in new memberships and per capita as a whole, according to Mr. Judson. Nebraska and Iowa are a tie in per capita memberships, with Michigan close behind.

Frank Persons, director for civilian relief, who was in Omaha a month ago, has resigned. A temporary successor has been named.

Railroad Travel Heavy; Expect Rush to Resorts. Trains going out of Omaha Thursday were loaded to capacity, most of them carrying extra equipment to handle the rush of business. INFLUENZA STILL CLAIMING VICTIMS by THE THOUSANDS. Epidemic Breaking Out Anew from One End of Country to the Other.

Warning to the country that the Influenza epidemic is by no means ended, and that all possible precautions against the disease should be taken has just been issued by the public health authorities at Washington.

Late reports show that the disease is breaking out anew in its very worst form from practically one end of the country to the other. Already there have been over 300,000 deaths from the disease and one prominent health official predicts that there will possibly be 750,000 deaths in this country next year from Influenza and the ailments which follow it. The disease has been very baffling to the medical profession and health authorities frankly admit that ordinary preventive measures such as wearing of masks and closing public places seem of little avail.

Persons who are weak and run-down, and who have not the strength to throw off the Influenza germ, are the earliest victims. Those who catch colds easily or who are suffering from catarrhal troubles are also early victims, as the inflamed mucous membrane linings of the nose and throat are an open door to the germs. If you are suffering from any of these symptoms, nothing will build you up and fortify your system against attack like Tanlac, which contains the most powerful tonic properties known to science. This statement is easily proven by the fact that this celebrated medicine is now having the greatest sale of any system tonic in the history of medicine. It has been accomplishing remarkable results during the present epidemic and hundreds of thousands who have used it are enjoying the best of health. One prominent physician in Texas frankly stated that he had found Tanlac to be the finest tonic to be had for building up his patients who had had Influenza.

Actual experience has shown that the best way to keep from taking Influenza is to keep the system in good shape, as it is a well known fact that the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish Influenza, which is one of the most contagious diseases known.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and makes you strong, vigorous and well, and in this way fortifies you against deadly disease germs. In connection with the Tanlac treatment, be sure to keep thin bowels open by taking Tanlac Laxative Tablets.

Tanlac is sold in Omaha by all Sherman & McConnell Drug Company's stores. Harvard Pharmacy and West End Pharmacy under the personal direction of a special Tanlac representative. Also Forrest and Meany Drug Company in South Omaha and the leading druggist in each city and town throughout the state of Nebraska.—Adv.
