Vocational Training to Make Disabled Soldiers Independent Civilians

Uncle Sam Will Educate Wounded Soldiers for Return to Civil Life, Paying Them Good Salary While Learning; Will Find Them Employment After Finishing Course.

Washington, D. C., Dec. 28.—Not only will Uncle Sam provide vocational training for his soldiers, sailors and marines, who have been disabled through wounds, sickness and other direct causes of the war, and find employment for them, but he will pay them a liberal monthly salary while they are undergoing this training.

Minimum Wage of \$65. There are 14 branches of the board. Experts in every known occupation will be available to assist these men, and officials of the board are located in the various big army and navy hospitals to apprise the disabled of their opportunity to fit themselves to "go over the top" into the civil life, and to help them choose the occupation which should prove best for them.

Princeton Is to Open in January With Many Service Men Enrolled

Princeton, Dec. 21.—Princeton university will reopen on January 6 with nearly two-thirds of its pre-war enrollment. A thousand students are expected to return, largely former members of the students' army training corps and naval training unit, but already over 200 men are returning from active service.

Athletic schedules are under way already and a long basket ball season is assured, including games with the big eastern colleges. The swimming, water polo, gymnasium and base ball teams will have their usual seasons. Material for strong teams in all these sports will be on hand at the opening of college.

Over 100 Princeton men have lost their lives in the war, according to the war records office of the university. Princeton's honor roll contains about 5,650 names, or 45 per cent of living graduates and undergraduates. Practically every man in recent classes has been in service.

ARE YOU LOSING YOUR GRIP ON HEALTH

Your Blood May Be Starving for Want of Iron—Making You Weak, Nervous, Irritable and Exhausted. Nuxated Iron increases the Red Blood Corpuscles and builds up the strength, energy and endurance of delicate, run-down people in two weeks' time in many instances.

Thousands of men and women are impairing their constitutions, laying themselves open to illness and literally losing their grip on health, simply because their blood is thinning out and possibly starving through lack of iron.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, (Outdoor Dept.), New York, and the Westchester County Hospital, says: "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life."

In fact, weeks and months may elapse before complete good health returns to the victims of this dread malady. It is the part of wisdom not to despise with your physician's services too soon, for in time he will usually advise a good tonic rebuilding strength and full nutrition. Physicians and the public universally recognize the safety, strength-rejuvenating power that lies in the bitter herbs and barks, such as Calasaava bark, Palmetto root, Damiana, Nux Vomica and also in Iron Peptonate and Phosphide.
