Look your local business situation square in the face and deal with it from the angle of perfect understanding and confidence.

The farms of Nebraska have produced more revenue for owners during 1918 than during any other year and therein lies the basis for the prosperity of the community.

Other lines of business and the wage earner have prospered too, with few exceptions.

So-why hesitate? Never has your territory been in better financial shape for buying automobiles. If you are not getting ready for a big year you will find that you have overlooked opportunity's warning.
