Let us make 1919 the biggest and best year in Omaha's history.

A la carte meals on the dining cars do not mean that the cost of traveling is to be lowered by the change.

It will be a "victory" jubilee in Omaha all right, but some of the "authority" of past years will be missed.

When Montana puts up the bars against hooze the drys have a right to expect to carry New Jersey some day,

Georgia still holds its place at the head of the lynching parade, having double the number of the next highest states.

The new Turkish cabinet is reported to be pro-ally. Even a Turk will learn if the lesson is pounded into him right.

Belgium is satisfied with plans made for the economic restoration of that country, a sign that some progress is to be reported.

At any rate, no one will say that the new city prosecutor did not earn some sort of reward by his efforts to elect the mayor.

American envoys in Paris say Senator "Jimmy" Reed misunderstood them, but it may be he only placed his own interpretation on what they said.

Telephone and telegraph employes get a nice New Year's present from Mr. Burleson in the form of an increase in pay. Trying to equal McAdoo's record.

Bolshevik bombs in the City of Brotherly Love is not a special sign that the republic is failing. It just means we are harboring some langerous criminals.

Iowa, Nebraska and South Dakota are to resist the new express rates, and thereby are in danger of being added to Mr. Burleson's list of "blatherskites."

The county board wound up its year by ripping a bunch of names off its pay roll. It might have saved that money long ago with little or no loss to the service.

THE NEW YEAR AND THE OLD. Most of us will say goodbye to 1918 with mingled emotions, just as we look forward to the days of the coming year with high hope. Right in the Spotlight. The last year was one of the most momentous in human history. It began with a dark cloud of war over all the world; it closes with peace assured and opportunity for all such as never was presented. Its early months were marked by anxiety and peril for free peoples; its later days brought the triumphant victory of right over wrong, of justice prevailing against might. In

all of this is occasion for rejoicing. Industrial and commercial life was subjected to disruption quite as great as that which came to our social life through the war. How extensive was this disturbance scarcely yet can be appreciated. The days of readjustment will afford a better measure of its effect, but just as the problems of war were taken up in a spirit of determined co-operation, so will the lask of rehabilitation be faced with optimistic confidence.

Omaha's progress for 1918 is exhibited in The Bee in tables of figures and otherwise, and makes a most gratifying showing. Some of the compilations are not as impressive as in years past, a fact justly ascribable to the war, but others make an even more noteworthy display of the importance of the city's life. While no great war industry had its headquarters here, Omaha's contributions to the food and other supplies drawn on by the government for the support of its armed forces were notable.

year responded to 195 alarms.

In Omaha 30 Years Ago Today.

The fact that local industries were not especially dislocated by the abnormal conditions of the year will make a resumption of business that much easier. Programs of the coming twelve months, already outlined, hold the prospect of intense activity in all lines of commercial and industrial endeavor. Naturally, with this will go equal growth in the cultural elements of community life. Omaha is awake to its opportunities, and another New Year's day merely means resolve to greater effort.

No Party Lines in Nepotism.

In season and out, The Bee has crusaded against the evil of nepotism in public office. In the legislature of 1913, The Bee spoke out with its usual frankness and courage in behalf of a bill introduced by Representative Ed A. Smith, forbidding any public officer from appointing a relative of the first degree to a place on the public payroll. The 1913 Omaha home rule" charter, modeled by Victor Rosewater in person after the wish of his own heart and the dictates of his own brain, contained a similar provision as to Omaha city commissioners. Unfortunately, The Bee's campaign for legal prohibition of nepotism. like so many other of its campaigns, was not successful.-World-Herald.

Yes, and successful or unsuccessful. The Bee will continue its outspoken opposition to nepotism by public officers no matter what party banner they may fly.

Nepotism is a remnant of the idea that public office is a family snap. It recognizes no party lines. It is just as odious when practiced by a republican as by a democrat.

Nepotism knows no geographical location. It is just as inexcusable in the state house as it is in the city hall, in the capitol at Washington, as it is in the court house here at home.

But whoever heard of this democratic organ denouncing the nepotism of democratic office holders? Its insincerity is self-exposed by the fact that its censure for abuses of official power are deserved only for republicans and never directed at democrats except when a personal object is to be subserved by attacking them, as for example, right now the vicious attacks which Senator Hitchcock is making upon President Wilson and his administration. Nepotism can be stopped but only by concerted action regardless of party. We are ready to welcome every honest- and well-meaning recruit to The Bee's anti-nepotism crusade.

New York Times.

Though only 40 years old today, It is odd that our nation, which faced the William Fox has the distinction of war so unitedly and resolutely, faces peace so having been one of the pioneers in irresolutely and distractedly. We come out of the motion picture industry in Amerthe war so much strengthened in all respects ica and a prominent factor in the that the world recognizes us as a moral and development of this popular form of financial leader. Yet few among ourselves see entertainment to its present colossal it, and there are prophets of woe who may proportions. Mr. Fox is a product convince the weak-spirited. This division of opinions where there should be but one is illus-New York City. The cloth examining and shrinking business first trated in the joint debate in which the president engaged his attention. With a small capital thus acquired he opened the of the City bank joined issues with a professor of the New York university. The practitioner irst picture house in Brooklyn, and of finance saw new problems, but he and his In a institution proposed to rise to them and find new was successful from the start. opportunities of service and profit. The profesurprisingly short time he had essor saw "in the not distant future, crisis and tablished a chain of motion picture theaters and had become one of the panic, idle labor, bread lines and riot."

This contrast between the theorist and the magnates in the business. Then he branched out as a producer on his practical man does not stand alone. A profesown account, forming a corporation sor whose writings on finance have secured for of world-wide dimensions. At the him a banking connection sees nothing which age of 40. Mr. Fox is credited with can prevent a general fall in prices, and his the possession of a fortune of sevtheory prevents trying to alleviate it. But the eral million dollars, all of which has president of a large industrial concern, long prominent in the Manufacturers' association, been made in the magical motion finds that demobilization of the army presents

no factor in this so-called problem. The soldiers were all employed before they went away, and they are all needed back again. "The Ikraines, Siberia, Bessarabia, and shifting of labor from the work of war to the work of peace will be accomplished with scarcely a ripple." He knew of one employer who wanted 10,000 men. The Pennsylvania railway wants 8,500. The local utilities need thousands, so shorthanded are their services, to the point of danger.

The much-heralded Solar eclipse Other couples could be made of differences was a failure in Omaha so far as opinion between practical and theoretical men, with the advantage on the side of the defenders of things as they are and will be rather than of the propounders of theories and precedents as to what they have been and ought to be. No precedent fits this case. If the facts and theories collide, so much the worse for the theories. No doubt inflation is bad, and no doubt we are experiencing so much of inflation that there is need of some deflation. But there are other ways of deflating than by panic and ruin. The admission of inflation does not smoked glass observers were conconvict our bankers of error beyond under-At the Creighton observastanding and excuse. Our industries had to detory Father Rigge managed to lovelop both the speed of the greyhound and the cate it long enough to verify the strength of an ox. Open ventilators are all right in street cars luring our normal weather, but when the Medicine Hat variety arrives, folks would as soon ake a chance on flu as on freezing.

Admitting all that Senator Chamberlain said about the secretary of war, congress can not lodge all the blame for the situation. Delay has been as notable under the dome of the capitol as anywhere in Washington.

Josephus Daniels is no longer to be listed is a "little navy" man, his requests to congress for men and moneey being bigger now than ever. It is comforting to note that at least one democrat has awakened to the need of readiiess in some department.

Mr. Wilson would better hurry home, if he | the people of the city. wants to preserve his cabinet from the furious newed their warfare. Burleson is showing signs of distress, and Baker has been so completely gassed it will take more than Creel to resuscitate him.

The record of lynchings for the United States in 1918 is a disgrace, even in war time. That we were making such effort to establish a rule of law and justice throughout the world and yet paid so little attention to it at home is small credit to a people who pretend to enlightenment.

Von Hindenburg would welcome British occupation of Berlin. So, it might help the crushed and defeated junkers to rehabilitate themselves to have a foreign army holding back the bolsheviki. If allied troops are sent to the Prussian capital, it will be to protect life and property and not to prop up a broken aristocracy.

Of all the survivors of the war lord and junker period the man who is in the most helpless, undignified and embarrassing situation is Heinrich von Eckhardt. He has been holding on by the skin of his teeth to his place as German envoy at Mexico City. The new govern-ment at Berlin has been calling for his return with growing insistence, and so, after long delay, his pinchbeck excellency, with deep regret and growing apprehension, has decided to make the best of a bad business and start for home at an early date.

As he is persona non grata in Mexico, that country will probably let him go begging to the United States or Great Britain for a passage and for safe conduct.

It was Von Eckhardt who tried to bring about an understanding between Mexico and Japan, with a view to frightening America into continued neutrality. His activities were merely ludicrous, as far as this country was concerned, but were a real insult to our far eastern ally and deeply resented by her as such.

The envoy's position is very like that of certain generals who were ordered back to Paris by the committee of public safety in the early period of the great French revolution, for the very good and sufficient reason that they had committed blunders which could not be forgiven or condoned. Some refused to go, while others obeyed with results fatal to themselves.

But how will Von Eckhardt get there? It looks as if there would be nothing for him to do but turn up his coat collar and proceed to the fatherland under an assumed name. Then let his enemies and former friends do their worst .- New York Herald.

Co-Operative Thrift.

In round numbers two million dollars was earned and disbursed among the 42,000 nonborrowing members of nine saving and loan associations of Omaha during 1918. Viewed in the light of bygone war conditions the record is a notable one and attests the strength and pulling power of co-operative thrift among

For the greater part of the time our counonslaughts of democratic senators, who have re- try was in the war, the business of associations remained at a standstill. Normal increases in assets were diverted to Liberty bonds and War Savings stamps and the sale of both federal saving securities encouraged in every possible way. In spite of this drain on all sources of saving, the associations as a whole advanced materially beyond the peace-time record and now represent in the aggregate 64 per cent of the total resources of the co-operative associations of Nebraska.

> The importance of the growth of co-operative thrift is not limited to the profits and disbursements. It reaches deeper than the pocket into the well being of the people. It grips the promptings of the human heart, links the hope of a home with the reality and adds to the immortal song of Paine the dignity and independence of ownership. The gospel of association work has its roots in home ownership. Savings members and home getters co-operate for their respective aims. One is essential to the other. Together they accomplish good for themselves and do good for the city as a whole. No other instrumentality approaches the record of savings and loan associations in making Omaha a city of homeowners.

Never before has the savings habit been so thoroughly exploited and its value brought home to all the people. Hitherto the voice of saving was heard in spots only almost submerged in a wilderness of spenders. Uncle Sam's calls for money changed all this and drove home the necessity as well as the duty of saving. Millions of people heeded and practiced habits of self-denial never thought of before. Herein lies the most attractive opportunity that ever knocked at the gates of savings institutions. The field is nation-wide, plowed deep and ready for the seeding. The harvest is for those who buckle down to work intelligently and energetically, ever mindful of safety.

Most folks will wonder why the war bill for December, after the war is over, is the highest of all. Mr. Baker will perhaps have an elaborate explanation for this, but it will be hard to convince the public that the figures should not have been less rather than greater than when we actually were fighting, and when it stated from the army office that almost 600,000 men have been discharged from the service. If January shows a similar increase, the country will do well to go back to a basis of actual hostilities. statecraft

and good profits by serving the world. We are facing an opportunity rather than a crisis, and have only to choose between listening to the counsels of our practical men or to those

I have watched thine eyes streaming: I have seen the stop upon thy way To stanch some bleeding thing Smiling, wisely, bending tenderly, But thou art weary now-Bent and weary. Thy steps Are stepped most faiteringly. Adleu! With these upon thy path, Oh, wilt thou take the memory of my hand's clasp—the touch of one brother upon the other's flesh? Oh, wilt thou then turn And smile me back one smile of fellow ship?

I see thy aged form sink low, I would burden thee not, save of my love; Nor would I hang upon the brow A garland of slistening green That flasheth scarlet bud. Nay, 'would be as a skull Wreathed of victor's laurel---A folly-crown upon thy most venerable

brow. Adley, oh comrade! Upon thy path! The years that come are beckoning me; But I shall recall thy burdens. Thy sorrows, thy tendernesses. Aye, and oh, wilt thou turn upon thy path And smile a smile of fellowship,

Oh, parting year? --PATIENCE WORTH.

SOMETHING NEW **COLUMBIA LIFE INSURANCE CO.** Fremont, Neb.
