The wish is on the lips of everyone this first day of 1919. With gladness and mirth the new year was ushered in, at the hotels and clubs and during the day the celebrations continued. Dan Cupid has been very busy this holiday season and today congratulations are minging with New Year greetings.

Informal receptions were given at many homes and at the Forts. Col. and Mrs. Jacob Wuest received the officers of the command at Colonel Wuest's headquarters between the hours of 12 and 1. This is an old army custom and a most delightful Mrs. E. W. Crockett assisted Mrs. Wuest.

Then she felt the brakes suddenly released and the train sped ahead again. Had the figure leaped aside or had the train struck it. Peggy opened her eyes and looked ahead. She could scarcely believe what she saw. The figure was still there in the glare of the headlight-there just as far ahead of No. 337 as when it had first flashed into view. Are You Open-Minded?

The average American is openminded.

American business is conducted by true Americans of vision, open-minded men who believe in their country and strive to meet their country's needs. The men in the packing industry are no exception to the rule.

The business of Swift & Company has grown as the nation has progressed. Its affairs have been conducted honorably, efficiently, and economically, reducing the margin between the cost of live stock and the selling price of dressed meat, until today the profit is only a fraction of a cent a pound—too small to have any noticeable effect on prices.

The packing industry is a big, vital industry—one of the most important in the country. Do you understand it?

Swift & Company presents facts in the advertisements that appear in this paper. They are addressed to every openminded person in the country.
