

HUN SURRENDER TO POLES DOES NOT PLEASE

Berlin Paper Bitterly Attacks "Chinese Apathy" of Leaders in Permitting Invasion; Asks of Future.

Berlin, Jan. 3.—(By Associated Press.)—A protest against the "abject surrender to the Poles," which is advocated by Herr Ernst, of the Prussian ministry, is printed by the Zeitung Am Mittag today. The minister, who has just returned from the border, declares that while the invasion by the Poles could have been prevented a fortnight ago, the situation is now hopeless and that Germany could not regain the territory occupied by the Poles even with the division ordered to the district—a division, he declared, which it now was impossible to assemble.

The Zeitung Am Mittag declares that these statements cannot be true and it asks why the government has done nothing in the matter. It characterizes the attitude of the government as "Chinese apathy."

Fears Bolsheviks.

The Zeitung Am Mittag also expresses disquiet over the evacuation of Riga by the Germans and the danger of a bolshevik invasion of Germany.

The government members are in session today and are reported to be considering what action to take for the protection of German cities from the Poles.

Munich newspapers of this morning's date received here, publish reports of shooting in the streets of that city New Year's eve. Nine persons are declared to have been wounded. The accounts state that the rioters used hand grenades against the police and threw similar missiles at the front of the Catholic society building.

The newspapers declare that great numbers of weapons are in the possession of the lawless element.

Petrograd People Are Threatened by Famine Under Bolshevik Rule

London, Jan. 3.—(British Wireless Service.)—Dissatisfaction and desperation in Petrograd, caused by the almost complete disappearance of the necessities of life and the system of government in effect under bolshevik rule, are so widespread that the population is on the verge of an outbreak, according to a Danish business man who has returned from Russia.

"Conditions in Petrograd are exceedingly depressing," he says. "Except for the red guard and its agents, the whole population is in direct need. Petrograd is face to face with complete starvation. The prices of ordinary articles of food have risen enormously and it is difficult to buy anything, even at these prices."

"All the big establishments and the factories have been nationalized and are either closed or in half working order. The banks have been nationalized and money circulation has therefore stopped. A recent decree prohibits the carrying of parcels in the streets without special permission from the Red Guards agents and, consequently, one is held up when one tries to go out shopping. No fuel is to be had."

"The present system of government is creating general stagnation and the misery in which the majority of the populace is living has fostered dissatisfaction and desperation, which are gradually spreading and which need only a spark to break out into flames. On all sides it is hoped that the entente will be able to find means to supply Petrograd and save the population from starvation. During the day it is comparatively quiet in the streets, but after dark no one who does not belong to the ranks of the red army dares to go out."

Car Service Resumed in Denver After Delay Caused by Rioting

Denver, Jan. 3.—After street car service had been completely suspended for six and a half hours here last night because of damages by crowds of men and boys who objected to the collection of a seven cent fare, service was resumed early today on regular schedules. Whether it would continue depended, company officials said, on whether adequate police protection was furnished if the demonstrations were resumed.

Dewey C. Baker, city manager of public safety, said the police had been instructed to prevent destruction of property or injury to trainmen, but could not and would not undertake to assist the company to collect the increased fare.

At 1 o'clock this morning regular "owl" car service was begun and the cars passed through the downtown district without disturbance, the crowds which interfered with the operation of the cars last night having dispersed.

The seven cent fare which was approved by the state utilities commission although opposed by city officials was put into effect December 26, the company contending the increase was necessary to meet a wage award recently granted by the federal war labor board. For several weeks a six cent fare has been in effect with the approval of both the state utilities commission and the city council but the company complained that this was inadequate to meet the increased operating expenses.

This was decided upon at a meeting of the congregation last evening.
