DAVID H. MERCER, EX-LAW MAKER, DIES IN HOSPITAL

Representative of This District for Ten Years and Was Active in State Politics.

David H. Mercer, congressman from this district for five consecutive terms, from 1892 to 1902, died at 5:45 o'clock Tuesday morning in Birchmont hospital, following an attack of heart disease.

The body is at Burket's undertaking parlors. Funeral plans will be announced later.

Mr. Mercer resided at 2811 Hickory street with a sister, Mrs. C. M. Fowler. His wife, who obtained a divorce a year ago, resides in Washington, D. C., with a daughter.

Born in Iowa. Mr. Mercer was born in Benton City, Iowa, July 9, 1857. His father was the late Capt. J. J. Mercer, who settled in Brownville, Neb., in 1866, where he was a blacksmith.

Mr. Mercer was graduated from the Brownville High school and from the University of Nebraska. He took a law course at the University of Michigan and started his legal work in Brownville, where he was elected city clerk, which was his first public service.

Mr. Mercer was elected justice of the peace in Brownville. He served as chairman of the republican city and county central committees.

During the first year of his residence in Omaha he was nominated for county judge, but was defeated. He was assistant United States marshal for Nebraska during the Harrison presidential regime.

Mr. Mercer made a trip around the world in 1899 and has been to Europe several times. In recent years he maintained a law office in Washington, D. C., and last year was engaged in special work in the national chamber of commerce.

Mr. Mercer was a member of the Masonic fraternity. His father, the late Captain Mercer, was connected with the United States quartermaster's department for a period of years after his removal from Brownville to Omaha.

A singular mistake occurred at the hospital early yesterday when an attendant called a telephone number, intending to summon Mrs. C. M. Fowler, Mr. Mercer's sister.

The number which had been given by Mr. Mercer was "Harney 1446," and the number which responded to 1466 was the home of Edson Rich, a life-long acquaintance of the deceased.

Mr. Mercer was a member of the Masonic fraternity. His father, the late Captain Mercer, was connected with the United States quartermaster's department for a period of years after his removal from Brownville to Omaha.

COL. HAYWARD WRITES LETTER FROM THE RHINE

Tells of the Bravery Displayed by Members of His Regiment While Under Fire.

"I think we are the top of the list on number of killed and wounded." Col. William H. Hayward of Omaha, and commander of a New York negro regiment, writes from Blodiere, on the Rhine, to a friend here.

Nothing to Drink but Water. Again from letter of December 12 from Ungesheim.

We didn't celebrate much over the armistice today. Official movie men from the whole outfit were very busy taking in German soldiers who came over, preferring to take a chance with us, and then we started in a few days to lead the "Marche Triumphant" to the Rhine, and down here there has been nothing to celebrate with except Rhine water.

I don't know when I have been happier than today. Official movie men from the American expeditionary forces have been and taken movies of my regiment on the Rhine with the funny machine carts the French use, drawn by mules, oxen and tanks, our broad carts, three horse and tandem wagons, and teams, our rolling kitchens; in fact, all the funny manent record could be made of the future.

We have turned in everything to the French except our rifles, the letter, which is under date of December 4, reads, and in one hour we pass back under control of the American army. Colonel Hayward, when writing again December 12, expected to arrive in America before the first of the year. He says they did not celebrate much over the armistice, for the reason they were busy taking German prisoners.

The letter follows: No change with us, our wounded streaming back from hospitals now. We hear we are starting home soon, but no one knows for sure. The French are to pin the Croix de Guerre on our flag, on me, and on about 150 officers and men of this regiment.

It is getting pretty cold down here. We had one snowstorm the day after we beat the world to the Rhine, but pretty decent weather since, though coolish. We have put on our second service stripes, and so many of us, including myself, have a wound chevron, you would think it a part of the regimental insignia. I think we are the top of the list on number of killed and wounded.

I am still lame, but otherwise very much better, and picking up like a steer that has been put on corn after being "roughed through." I lost 30 pounds from operations, gas, battles, aneurism, and went through as much as we did, and went through as much as we did, and went through as much as we did.

Are You Observing? It has been observed that people who take Chamberlain's Cough Remedy when needed soon get rid of their coughs and colds, and many of them recommend that remedy to others similarly afflicted.

LOOKING BACKWARD 60 YEARS An Interesting Bit of History Everybody Should Know

One of the interesting places in Lowell, Mass. is the old apothecary shop on Merrimack street established in 1827. This location is still a drug store, although of course modernized in many departments.

The Old Prescription Book

calling for the medicine, they always asked for Father John's Medicine, and in this way the medicine got its name and was advertised.

TERMINAL LACK CHIEF HANDICAP UPON RAILROADS

Carriers Able to Transport All Freight Offerings Provided Unloading Facilities Are Sufficient.

Washington, Jan. 7.—Inadequate terminals constitute the principal limitation on railroads' traffic capacities, said Carl R. Gray, director of the railroad administration's divisions of operations in his report for 1912, made public today by Director General McAdoo.

More Honors for Hayward. Another thing that makes me proud and happy. In addition to the Croix de Guerre water cart with the funny machine carts the French use, drawn by mules, oxen and tanks, our broad carts, three horse and tandem wagons, and teams, our rolling kitchens; in fact, all the funny manent record could be made of the future.
