YANKEE TROOPS FIRST TO CROSS HINDENBURG LINE

Report of Field Marshal Haig Says Division of Southern Soldiers Broke Famous Defense System.

London, Jan. 8.—American troops were the first to break the Hindenburg line, according to the Daily News in its comment today on the report of Field Marshal Sir Douglas Haig on the operations from the end of April last to the close of hostilities. The News points out that at least the first mention of a break through contained in the field marshal's report was in the course of his description of the day's work on September 29, in which he wrote: "North of Bellengise, the Thirtieth American division, Maj.-Gen. E. M. Lewis, having broken through the deep defenses of the Hindenburg line, stormed Bellengise and seized Nouray. On their left the 27th American division, Major General O'Ryan, met with very heavy enfilading machine gun fire, but pressed on with great gallantry as far as Jouy, where a bitter struggle took place for possession of the village. The fighting on the whole front of the Second American corps was severe, and in Bellengise, Nouray, Gillemont farm and a number of other points, amid the intricate defenses of the Hindenburg line, strong bodies of the enemy held out with great obstinacy for many hours.

"These points of resistance were gradually overcome, either by the support troops of the American divisions or by the Fifth and Third Australian divisions."

Women Torchlight Parade

is Broken Up by Crowds Washington, Jan. 8.—The police put an end to a foot race in Lafayette square last night between angry crowds of men and three torch-bearing sentinels of the National Women's party, by arresting the women. The prisoners would not furnish bond and were moved to the house of detention to await trial today at the police court.

Early in the night the women grew active with torches at Lafayette square, lighting several fires. Crowds quenched each blaze but the torch bearers ran to another part of the park and started another. This kept up for half an hour, when the police interfered.

Presses in New York City Printing Russian Rubles

Bakmeteff Declared to Be Circulating Spurious Bank Notes for Purpose of Discrediting Soviet.

New York, Jan. 8.—Charges that Boris A. Bakmeteff, Russian ambassador to the United States, is helping to foster a counter-revolution designed to restore the old regime, were made here today by Alexander Brailovsky, editor of the Workman and Peasant, at the convention of delegates representing Russian working men in the United States. As proof of his assertion, Brailovsky declared M. Bakmeteff, who is now in Paris to attend a peace conference, has had printed in this city Russian bank notes to the amount of 85,000,000 rubles. "We can prove the authenticity of these statements at any time," Brailovsky declared. "These notes have been printed in denominations of 25 and 100 rubles and have been circulated by Bakmeteff both here and abroad for the purpose of defeating the purposes of the present government in Russia."

RECOGNITION OF UNIONS GRANTED IN SHIP PLANTS

Bethlehem Company Puts Into Effect New Procedure in Treating With Its Employees.

Washington, Jan. 8.—An agreement between the Bethlehem Shipbuilding company and the 13 international unions comprising the metal trades department of the American Federation of Labor, whereby the unions are recognized as representing the employees, was announced today by the metal trades department. Committees of five, representing each side, will consider jointly all matters arising out of the agreement, an arrangement which the department said was a distinct departure from any existing procedure, greatly simplifying relations between employer and employee. It was said to be the first step on any large scale to line up the shop committees with the international unions.

SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns so they lift out.

Local druggists are having a tremendous call for freezone, the drug which is said to shrivel a corn, root and all, without any pain. A few drops applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers. This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once, and does not inflame or even irritate the surrounding tissue or skin. There is no excuse for anyone inviting death by infection or lockjaw from cutting their corns now.—Adv.

WHO NEEDS THIS MEDICINE?

Only One Way to Know, Declares Writer.

Seeks to Educate Public the Value of Good Health.

Recommends Tonic Under Certain Conditions.

A well-known physician is quoted as saying that "Careless habits, evil habits and ignorant habits result in fatalities whenever an epidemic disease appears in a community." It should be well known that excesses and indulgences of whatsoever kind bring about a condition of low vitality. To have low vitality is to be partially sick; to remain so, gives free entry to fatal disease germs. It is duty and common sense to remove low vitality. Do you catch cold too easily? Are you weak, irritable, nervous and worn out before the day is half over? Have you aches and pains of unknown origin? Are you too thin and seemingly "bloodless"? Do you have tremors and unsound fears? Do you lack energy and ambition? Are you despondent without reason? Is your digestion faulty and your appetite fickle? Do you suffer with dreadful pains in the back of head and neck? Do you have shooting pains like neuralgia and rheumatism? If any or all of these symptoms are yours, then a tonic medicine like Cadomene Tablets should bring relief, health and strength if taken regularly with meals. Three grain Cadomene Tablets has often been called the "miracle medicine" because it is so quickly effective in restoring strong, rugged, "happy" vitality. Sold in sealed tubes by druggists everywhere and each package is guaranteed to please the buyer or money refunded.—Adv.

Germans Are Slow in Fulfilling All Terms of the Allied Armistice

Paris, Jan. 8.—(Havas.)—Only ten days remain before the expiration of the time allotted to Germany for meeting the armistice terms of Marshal Foch, and many of the details still remain entirely unfulfilled. This is particularly true as concerns article four of the armistice, regarding the surrender of war materials, especially guns and airplanes. About 5,000 motor trucks have been delivered up, but the number of railroad engines turned over equals only half the number stipulated in the armistice—5,000. A great number of the 150,000 railway cars in good working order called for are still undelivered. In addition naval units, including submarines, remain in German harbors, although under the terms of the armistice they should have been surrendered.
