COMMERCIAL LEAGUE STANDINGS.

The first game between Commerce

High and the Central Furniture

teams was a tight battle from start

to finish. The High team was lead-

ing by one point at the end of the

first half and could only increase

their lead three points during the

final period, the score being 24 to 20.

of the evening, making 16 counters

The team from the fort was com-

posed of substitutes, the real team

being in Lincoln, where they had a game with the University of Ne-

braska. The team put up a stiff

game, however, their opponents scoring but 6 points during the first half. The Beddeos bucked up dur-

ing the final period, and managed to

pile up a score of 31 to 4 by the end

FINANCIAL

New York, Jan. 3.—Specialities whose in-trinsic values for the most part are yet to be determined were the conspicuous features of today's stock market, standard shares lapsing in lethargy or yielding to

pressure.

The session as a whole offered cumu lative proof of the dominance of pools and of cliques on one hand and the indifference of public interest, or outside, support on the other.

the other.

For example, dealings in rails were restricted to less than half a dosen of the active or representative shares and most of these were quoted at comparatively rare intervals.

The one striking incident of that division was a further advance of 90 points for Texas Pacific Land Trust certificates to 320, a gain of 170 points thus far this year. Texas Land is an offshoot of the Texas and Pacific railway, whose shares have been stronger and most active of the low-priced rails.

today the majority of dealers had been relying on official statements that no such licenses were contemplated the notices to the contrary took the trade by surprise. The reason for the acute consequent depression in prices here was the possibility that large amounts of Argentine corn would be imported in view of its great relative cheapness.
