Is not high time to consider that new opportunities bring also new privileges, new opportunities, new resources, new spiritual unfoldings and therefore new life.—Charles Gordon Ames.

Nothing exists, subsists, is acted upon or moved by itself, but is acted upon by others, and it follows that everything exists, subsists, is acted upon and moved by the First Being, who is Himself the living force, life.

SPANISH INFLUENZA MORE DEADLY THAN WAR

Sold That Epidemic Cost More Lives Than American Loss in Battle. Danger Not Over, Great Care Necessary to Prevent Further Outbreak.

The appalling ravages of Spanish influenza in this country are perhaps best realized by the statement recently made that more deaths have resulted in little more than a month from this disease than through our whole eighteen months participation in the battles of the European War.

Our greatest danger now, declare authorities, is the great American tendency to forget easily and to believe the peril is over. Competent authorities claim the coming of cold weather is very apt to bring a return of this disease and there should be no let-up throughout the winter months of the following easily observed precautions...

Remember, no safe precaution against influenza can be employed in this manner than to get from the nearest drug store a complete Hygienic Outfit consisting of a bottle of the Pure Oil of Eucalypti and a little red-velvet handkerchief.

All these suggestions about Spanish influenza are written for the purpose of preventing cold, catarrh of nose and throat, bronchitis and even pneumonia. Don't become careless. Do your part. Keep the germs away. You may save yourself a serious illness and the loss of several weeks' work. Sherman & McConnell Drug Co.—Advertisement.

Don't Be Bald

How to Make Hair Grow Strong, Thick and Lustrous. Few of us get bald in a day and we all have ample warning when our hair is thinning out.

Parian sage is a most efficient hair invigorator, but to immediately stop any further loss of hair and quickly start a new growth it must be rubbed into the scalp so the starved hair roots can really absorb it and get the vital stimulation so badly needed.

Good looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, thin, lifeless hair and finally baldness, while a little attention now insures thick and lustrous hair for years to come.

The Casualty List ELIA W. PEATTIE.

EACH morning when the paper comes, After a look at the headings Which shout of our victories in France, And tell of our men on the Murman coast And in Damascus and Bagdad, I turn to the casualty list And slowly read the names in it. I note each name—the name of each boy Who has gone out from his home And died that homes might be safe. No matter how crowded my day, I take time for this tribute, As one stands silent in the street While a funeral procession passes. Only this is a more loving tribute, For these boys who have done their work Do not seem in the least like strangers, But trusted friends whose names are new, Men of the breed I love, staunch, eager and swift. Standing, I read their names and salute them, Crying across the space that divides us: "Fare on, bright comrades, speed to your reward, You who went swiftly to face danger, You whom nothing could hold back And no thing fill with terror. There is nothing to face today But God's white mercy. The barrage and the gas, the shells and the shrapnel Will no longer torment you; There will be no more lying out at night In the shell holes, watching for stretcher bearers; You'll not know the sickening swing of the ambulance

Home-Sick Books Are in Great Demand by Our Soldier Boys

What might be described as home-sick books are greatly in demand at the army camp libraries established by the American Library association. A home-sick book means a novel usually the scenes of which are laid in the neighborhood of a soldier's home. "I certainly enjoyed 'Perch of the Devil,'" said one strapping westerner. "You know my home isn't 20 miles from the scene of that story." Part of Zane Gray's immense popularity in the camps is because so many western men know the country he describes so vividly.

Georgia, was a little puzzled to know how to please a tall, taciturn American of the original brand, Joe Yellowunder by name, until she suddenly thought of "Ramona."

An Idea for an Afternoon Gown

Advice to the Lovelorn

Dear Miss Fairfax, Omaha Bee: I am 18, have a jolly disposition which makes me popular with the boys. Three months ago I became acquainted with a young man and went with him a month before he enlisted and left for camp. I then started keeping company with a young man, and Christmas he gave me a watch bracelet, and now the soldier has returned. I like both of the boys as companions, nothing more; so when the soldier came home I went with him to the show. Now the boy who gave me the watch is mad and won't have anything to do with me. Shall I return the watch or wait until he asks for it? But if you are not engaged to either, and they cannot both consider your friendship in the proper light, then follow the dictates of your heart and choose between them. If your friend continues to be angry return his watch and thank him for the pleasure you have had while wearing it.

Dear Miss Fairfax, Omaha Bee: I am a girl 17 and I have come to you for advice. My parents and sisters snub me and everything that happens they all look toward me and say it is me. Then young people all say I am good looking and counted very pretty. I always try to look on the bright side of everything but that time is over, and I would like very well if you would tell me as to what work I could get as I would like very much to earn my own money, as all I get I depend on my parents. Please tell me as to what work would be all right, as I do not care for housework. I would love to be a missionary as I am real interested in that kind of work. Could you give me some information of where I could find out about it? I love church work and would love to get into something of that kind. Or some kind of war work. And I would like to see my answer in the paper this week if this does not find its way to the waste basket.

WOMAN'S FITNESS FOR WAR WORK

There's no question of women's right to enter war activities—to take the place of the men now at the front. Indeed they would seem to have many points of superiority over men in some of the industrial fields which they are now entering. But to take men's burdens the women must be strong—must have iron nerves and good blood. So many women these days are frail, nervous, borne down by the pains and aches peculiar to their sex. A sex tonic and nerve builder is needed, such as Dr. Pierce's Favorite Prescription. An affection confined to women must have its cause in the womanly nature. There is no doubt that a diseased condition of the delicate womanly organs, is in general responsible for feminine nervousness and an undermined constitution. The use of Dr. Pierce's Favorite Prescription makes women happy by making them healthy. There are no more crying spells. "Favorite Prescription" is an herbal tonic for female weakness. It makes weak women strong. Dr. Pierce's Favorite Prescription has been for nearly 50 years the most favorably known herbal tonic for women. Ask your neighbors! The "Prescription" is sold in tablet or liquid form. Send ten cents to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large trial package. Druggists sell the tablets in 60-cent packages. Men and women are many times tempted to ask their family physician questions on delicate matters. Such questions of sex are answered by the "Medical Adviser." The nursing of the sick, first aid to the injured, accidents and emergencies, anatomy, physiology, hygiene, the human temperament, the brain and transmission of life, the brain and mind, are treated of in an original and comprehensive manner, in harmony with the latest scientific discoveries. This book formerly sold for \$1.50.
