FINANCIAL

New York, Jan. 18.-Trading in today's

tock market was of restricted and pro-

essional character. The market was

stagnant after the first hour, prices re-

acting at the slightest suggestion of pres-

acting at the slightest suggestion of pressure.

Events over the weak-end seemed to exert little influence upon market values. Ralls were again little moved by the appointment of the new director general, and utilities made feeble response to the supreme court decision uphelding the right of the Detroit Street Rallway company to increase its fares.

Western railroad tonage tables disclosed another decrease, compared with the corresponding period of 1918, but other advices from western and southwestern sections indicated general gains in business for the first fortnight of the new year.

western sections indicated general sizes in business for the first fortnight of the new year.

The chb and flow of the market may be spitomized in the statement that shippings, equipments, coppers and various "peace" industrials were heavy, reacting I to 4 points, whereas olle, motors and their subsidiaries, also fertilizers and non-descript specialities were variably firm to strong. Sales amounted to \$25,000 shares. Call money was in free supply, but failed to get down to last Friday's low rate, the minimum of the day being a per cent and the ruling quotation 5 per cent. Deslings in bonds expanded very materially, but the increase was largely at the expense of quoted values, most issues, foreign and domestic, making variable concessions. Two of the Liberty group made new low records, the first 4s at \$92.50 and the second 4s at \$92.10. Total sales, par value, aggregated \$25,000,000.

Old United States bonds were unchanged on call.
