FINANCIAL

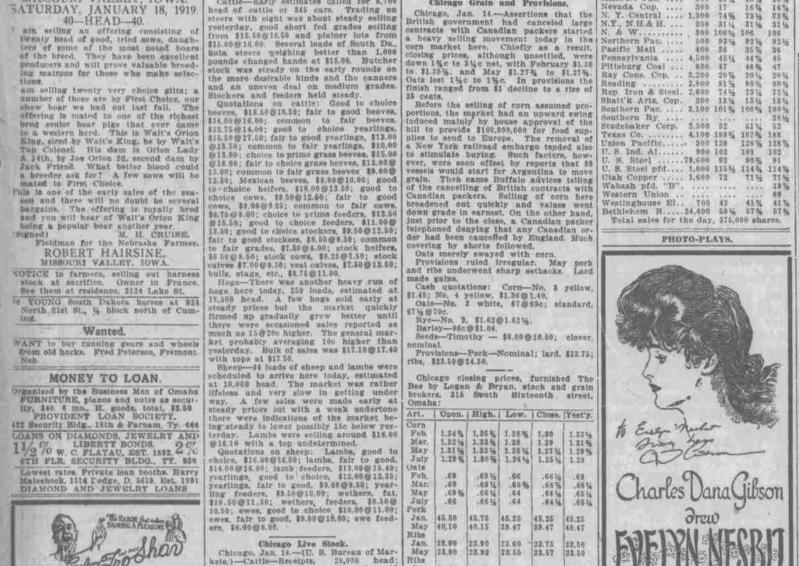

New York, Jan. 14.—The same tack of leadership or initiative which has influenced operations in the securities market since the signing of the armistice and the more uncertain status of the rali-roads was again in evidence today.

Pools held undisputed sway, devoting their attention almost exclusively to the various speculative groups of the stock list at the expense or utter neglect of standard shares, especially transportations.

at the expense or utter neglect of standard shares, especially transportations.

Half of the day's meager transactions, apart from the United States Steel, which relained its commanding position, consisted of oils, shipping, moters and sundry specialties having little claim as investment issues.

United States Steel registered an extreme advance of 1% to 82, that quotation coinciding with the price at which the stock is to be offered to employes this year, but all of this gain was lost in the final hour, when Bathlehem Stoel and Baidwin Locomotive were under pressure. The issues that reflected more than casual support included tobaccos, Great North, sen Ore and several of the inactive high-priced rails.
