(Special Cable Dispatch.)
Paris, Jan. 16.—Woodrow Wilson focs not smoke, drink, or play poker, but nevertheless is an all-round "good fellow" in the best truest sense of the word.

The man best qualified to judge, Admiral Cary T. Grayson, his personal physician and intimate friend, so assured a group of French newspaper men who beseiged him for some "inside tips on the president's personality." In drawing an intimate picture of Mr. Wilson, Admiral Grayson revealed some things that are new to the president's own

BUSY ALL THE TIME

Notwithstanding the Government ban on construction of miscellaneous buildings, Home Builders was awarded building contracts during the war period which taxed its building organization to full capacity the same as in normal times.

Because of the high efficient standard of Home Builders' Construction Department, its long, honorable record for fair dealing and exceptional financial ability, Home Builders obtained contracts during the year 1918 amounting to over half a million dellars including one building for the United States Government, two buildings for the Swift Packing Company, basides other buildings permitted by the Government to be erected, and is now erceting a \$100,000,00 building for the Union Pacific Railroad Company.

Home Builders' Flan is unlike that of any other institution in Nebrasha which may appear to be similar. It never financed the construction of a building outside of Omaha, nor erected a building on its own account to rent or to sell for profit. Is builds only to order for reliable people always taking gilt edge mortgages as security for money advanced.
