Odessa Wants Help of All Allied Nations Against Bolshevik

London, Jan. 17.—Odessa is alive with allied activities. Reuter's limited special correspondent in South Russia telegraphed from Odessa under date of January 7.

"Poliss and Zouaves and strings of tanks lurched through the streets today," the correspondent writes.

The speeches of Premier Clemenceau and Stephen Pichon, the French foreign minister, have been warmly welcomed in Odessa.

"The congress of the southern municipal Zemstvos, held at Simferopol, adopted resolutions equally opposing bolshevik dictatorship and the restoration of the monarchy."

Ebert Still Holds to Dream of World Conquest by Teutons

London, Jan. 17.—(British Wireless Service).—Germans have determined to seize all provinces in the hands of Poles in Prussia, if the Polish provinces of Germany are to be restored to Poland.

Poland is regarded as even more important to Germany than the left bank of the Rhine. If Germany can keep these Polish provinces, Chancellor Ebert has declared, she can increase her influence to the south and east and one day reconquer in the west what she has now lost.

At a secret session of the budget commission just before the signing of the armistice, the reports published today say, it was agreed that the Polish provinces were not economically necessary to Germany.

To Welcome Troops. New York, Jan. 16.—The Rocky Mountain club of New York has been designated as the official reception board to receive and entertain western troops returning from over seas.
