## DECISION REACHED ON RUSS QUESTION

### Supreme Council Agrees Upon Policy Which It Hopes to Formulate Today in Concrete Proposal.

By the Associated Press. Paris, Jan. 21.—The supreme council of the great powers hopes to formulate a concrete proposal on Russia at tomorrow's meeting.

This was the definite official announcement of the communique issued tonight after the council had been considering the Russian situation for the last two days. It can be added that while the concrete proposal was not finally decided and reduced to writing, its main features were agreed on in principle. The members came from the session, however, feeling that there was no sovereign remedy insuring a certain cure for the difficult and dangerous situation and that it would be desirable to embody several lines of action in the proposal.

Will Investigate Conditions. The first effect of this proposal will be that neither Sergius Sazonov, the Russian minister of foreign affairs, before the revolution, nor any soviet agents will come to Paris as exponents of Russian affairs, but that some form of inquiry or investigation of political conditions in Russia will be made without considering the presence in Paris of the adherents of either side of the question at the present time. This determination is largely the result of a strong sentiment in some quarters against having any direct dealings with the bolsheviks.

Early indications were that Premier Lloyd George's proposal to Mr. Pichon, the French foreign minister, would again take form in having soviet agents come here and three names of prominent leaders were mentioned as possible emissaries. But this is now said to be definitely superseded by a plan of inquiry or investigation, without involving the presence of soviet agents.

Hear Danish Minister's Views. Harold Scavenius, the Danish minister to Russia, made a statement before the executive session of the council today on conditions in Russia which also had a strong influence in determining that soviet representatives should not come to Paris. He was the last of the ministers to leave Petrograd and today he emphasized the futility of trying to conduct any intercourse with the soviet leaders.

He read an article written by one of the soviet chiefs, declaring that Premier Lloyd George and President Wilson were too conservative and reactionary for the soviets to deal with. He also gave exact data on the bolshevik forces, showing that they did not exceed 90,000 armed men, the remainder being without arms or ammunition, clothing or shoes. He declared also that the red army was largely recruited from the famished peasants, who took to arms to obtain food and that the soviets seemed able to give them.

Polish Question Next. The Polish question will come up at tomorrow's session as well as the matter of Russia. It is understood in this connection that President Wilson has received information concerning the spread of bolshevik movement in Poland, where the bolshevik army is nearing Warsaw. It is expected that proposals will be renewed for the allied armies to help the Polish army with material, but this has not yet been decided.

## ACCUSES STREAM OF BREAKING MARKET

### Sarpy County Farmer Says Chairman of Grain Division Used Influence in Trading Center.

WASHINGTON BUREAU OMAHA BEE. From a Staff Correspondent.

Washington, D. C., Jan. 21.—John J. Stream, chairman of the coarse grain division of the food administration, is accused of breaking the corn market by Jacob Sass, a farmer of Sarpy county and for the past two sessions a member of the Nebraska legislature, in a telegram to Senator Hitchcock and representative Sloan. Mr. Sass says: "That while in Chicago on January 8, Stream gave out an interview to the effect that the war board would remove restrictions on Argentine corn and since that interview the price of corn has gone down 14 cents per bushel. It may not be important that the farmers of Nebraska at the last election deserted the democratic party by thousands because of similar acts by Stream affecting the price of their corn, but now that the war is over the farmers have every just right to expect that the law of supply and demand will be permitted to fix the price on their corn."

## Used Position on Market.

John J. Stream, according to a letter from T. J. Nolan, an attorney of Omaha, to Mr. Sloan before his appointment to his present position, was in the grain business, in Chicago—and, says Mr. Nolan, "it is believed here and elsewhere that he has used his position to raise and lower the corn market during the past two years. Some months ago when corn was down to \$1.10, he publicly stated in a dispatch to the Chicago grain exchange that the government for foreign account would purchase an unlimited amount of corn for export to the allies.
