Representative Purdy Asks Investigation of Methods Used in Administration of "Blue Sky" Law.

From a Staff Correspondent. Lincoln, Jan. 27 .- A thorough inrestigation of the methods employed in regard to the administration of the "blue sky" law by the board of railway commissioners of Nebraska, is proposed in a resolution introduced in the house by Representative Purdy, in the opening ses-sion today, and which will be con-sidered under the rules Tuesday. The resolution recites that there

appears to have been the expenditure of a large sum of money by the railroad commission for salaries and expenses of traveling, court and other costs, in the application of the provisions of the "blue sky" law without authority of law, and calls for the appointment of a committee of three in the house and a similar committee from the senate to conduct an exhaustive inquiry. The resolution relates that the

ights of citizens and interests of Nebraska have not been properly conserved nor protected; that they have been denied the right of ex-imption and that arrests have been ordered and made by representatives of the commission for alleged niractions of the law which have had the tendency to injure and ruin the credit of operating legitimate ousiness concerns within the state.

Law No Protection.

Allegations are made in the resolution that the law as now adminstered is no protection to the people of the state against concerns selling fraudulent securities and i highly injurious and a menace to the business interests of Nebraska and to the development of legiti-mate business and industry. It also tends to give a monopoly to strong financial institutions, trust compan-ies and brokers, of the sale of se-curities, the resolution contends, and tends to retard the development of the natural resources of the state.

An itemized statement of all of the activities of the commission in the administration of the law in ev-

the administration of the law in ev-ery phase is called for at once. The uniform right-of-way bill, which affects the Union Pacific Railread company particularly, passed third reading without a dis-senting vote, as did House Roll No. 95, appropriating \$3,000 to the State Board of Health to cover a deficiency: House Roll No. 42 to No. 42 to company and the second to break rocks the rest of his life." deficiency; House Roll No. 42, to refund expenses of committing an nsane person to an asylum where the expense had been incurred by a county in which the insane person was not a resident, and House Roll No. 40, providing for the distribution of the residue of an estate.

THE BEE: OMAHA, TUESDAY, JANUARY 28, 1919.

Probably no man in Nebraska was more affected by the historic act of the legislature of Nebraska, when it ratified the amendment to the constitution and, as the 36th state of the union so to do, made the nation dry, than J. S. Hunter, Omaha.

Seized with the divine affatus, his muse broke into the the following swan song, in which he characterized the average Nebraska legislator as "The Modern Saint:"

> From the earliest dawn of history And the earliest days of man, They drank the juice of the luscious grape.

Deny this fact, who can? The founder of our Christian faith Considered it no crime, For did He not, at the wedding feast, Produce the sparkling wine?

But if the Savior of the world Should do the same thing here They would fine Him to the limit And jail Him for a year. Our modern saint so far excells The saint of the Bible times That the halo around his saintly head With added luster shines.

He claims the human race is weak, That we are frail by nature, And his only hope to save our souls Is through the legislature. He hopes to pass more stringent laws; On one thing he seems bent, To drive the devil from his throne

And so have hell to rent.

For thirteen hundred arid years, Where the human race was born, That land has never once been cursed By old John Barley Corn; And if it is true, as we are told, To judge men by their works,

The greatest blessings of mankind Should come from the temperate Turks.

No Turk would dare to take a drink Of brandy, beer or wine, For their prophet has laid down the law That to do so is a crime. But is that land a happy land, A laud that's free from tears? Go read the history of the world For the last twelve hundred years.

TO eliminate misunderstanding, The Pierce-Arrow Motor Car Company herewith announces its policy with respect to passenger car and motor truck prices.

The prospective buyer who defers his purchase of a Pierce-Arrow car in the expectation of lower prices is denying himself the use of this vehicle without any ultimate benefit. The business man delaying the purchase of a Pierce-Arrow truck in the hope of a better price is meantime losing all the earning or economies of the vehicle without eventual compensating advantage to himself.

Present Pierce-Arrow prices are based on material and labor costs plus a moderate profit. There can be no change in price till these factors are reduced.

Material for cars and trucks must be ordered months in advance of delivery dates. These material prices have not been reduced. Nor has there been any lessening of wages. These, fixed by the cost of living, remain on a wartime basis.

# **Our Free Service Checks Your Truck Costs**

N

As a Goodyear Truck Tire Service Station, we will study your trucks, loads and routes to ascertain which type of Goodyear Truck Tire -Solid, Cushion or Pneumatic Cord-will serve you at the lowest cost per mile.

The selection of the right type of truck tire frequently means substantial reductions in tire costs and therefore in truck costs-particularly in truck repair bills.

Then we will submit a report containing our tireequipment recommendations and detailing the various steps of the moneysaving attention which we are prepared to give to your tires and trucks while tires are being applied and after.

For example, it will explain how we inspect tires regularly and report on their condition, suggesting any treatment needed by injuries such as cuts, cracks and bruises.

The submitting of this report will help you to find and stop leaks in your cartage expense account. It involves no obligation.

Therefore, we are prepared to announce that until material now in production or on order has been manufactured and sold, present prices on cars and trucks will stand.

Our expectation is that we will have disposed of such product by October 1st, 1919, and we will maintain our prices until that time. The subsequent course to be followed will be dictated by conditions obtaining then, and will be announced at that time.

Quality must be maintained, which makes present prices inevitable until there is a reduction of the fundamentals on which they are based.
