Would Inaugurate Plan Similar to That of Pennsylvania \* Watch Bootleggers and Auto Thieves.

From a Staff Correspondent. Lincoln, Feb. 6.-A state constabulary—an active police force of Nebraska—as a substitute for the old National Guard and as a supplement to the prohibition enforce-ment department of the state is suggested by Gov. S. R. McKelvie, who just back from his recent trip to

prohibition enforcement Nebraska could maintain a troop of state po-lice consisting of 60 men to watch for boozerunners and auto thieves -a force, he says, that would be adequate to quell any civil riots that would exceed the power of local police authorities.

The average National Guard appropriation in years past has been \$70,000 for two-year periods, and re-tiring Governor Neville's estimate for prohibition enforcement for the coming blenninm was \$20,000." This department spent \$26,000 the last bi-Governor , McKelvic gave out a

A small bottle of "Danderine" keeps hair thick, strong, beautiful.

Girls! Try this! Doubles beauty of your hair in a few moments.

find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy county are using EATONIC for the purpose of cleaning these post-one after effects right out of the country. Frequent trips to Frequent trips -growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparance of abundance of a parable lustre, softness and luxur-

statement regarding his efforts to secure the early release of Nebraska farmers in the service. Secretary of War Baker's explanation of the inadvisability of occupational dis-charges is told by the governor in

the following statement:

The primary purpose of my going to Washington was to obtain an early release of Netranka men who are needed at home on the farms and in other positions. Secretary Baker advised me that all men in camps in this country, except those who are actually needed to guard the camps and to aid in the demobilization of forces from everneas, would be discharged by March I. For the men overseas the outlook is not so encouraging though the secretary assufed me that a 540,000 will have been returned and discharged during the months of January and February. Those who are not returned at this time will be obliged to remain, except as they are returned in units, and he thought it practically impossible to obtain the release of men either individually or upon an occupational basis. he following statement:

of men either individually or upon an oc-cupational basis.

He called attention to the fact that he could not comply with the recommenda-tion for discharge of men upon an occupa-tional basis for the reason that the sol-diers themselves would not stand for it. He said that an effort to demodifie upon that basis in England had almost pre-cipitated a mutiny in the army.

Washington. The governor also visited at Harrisburg, Pa, where he studied the military police of that state.

Governor McKelvie says that with the money spent for the support of the National Guard and for the matter up again with Secretary Each to see if I cannot obtain some definite information of the intentions regarding demobilisation in that branch of the service. More Difficult in Navy.

ing demobilization in that branch of the service.

I was interested and in the future military policy of the nation and was assured by Secretary Baker that it was too early to make a definite expression of what that might be. If a thought that if the returning national guard units desired to reorganize it would be well to encourage them in doing so. I note, since having talked with him, that congress also will encourage such action.

While in Washington Provost Marshat General Crowdor, at my recommendation, designated Captain Anderson chief draft efficer for Neuraska. This does not after Captain Anderson's service and simply gives him credit for the work which he has been doing in connection with the selective draft.

I called upon the surgeon general in the interests of returned soldiers who are insane. The impression seemed to exist among some that the states would have to take care of these men and it would be recessary to make additional appropriations for extensions at our insane hospitals at that account.

Should Be Separated.

Should Be Separated.

From the surgeon general I gather the impression that such men will be cared for wholly at the expense of the federal government, either through the war risk bureau or by the public health service. For the bresent insane patients are boing treated at St. Elizabeth's heapital in Washington. The surgeon general confirmed my belief that it would be wholly unwise and would be very much opposed by relatives and friends to house insane soldiers at the same heapitals as are now occupied by the civilian insane.

At the Department of Justice, where I called in the interests of further aid in connection with the enforcement of prohibition. I was given every assurance that the fullest co-operation would be furtheoming. I understand that additional men have already been placed in Nebraska as a result of this call, and I am very hopeful that our efforts will be greatly accentuated by the co-operation of such trained men as the Department of Justice will furnish us.

Visit at Harrisburg. Should Be Separated,

Visit at Harrisburg.

I stopped off at Harrisburg, Pa., one day in order that I might better inform myself regarding the military police or state constabulary that is maintained in Ponnsylvania. Among the states that have such police organizations, it appears that Pennsylvania has taken the lead and I was very much impressed with what I learned there. The work that has been done by that organization, not only in apprehending criminals but in preventing crime, is highly commendable and leads me to believe that Nebraska should have such an organization. With the money that has heretofore been appropriated for the support of the National Guard and for the enforcement of prohibition, we could maintain one troop of state police, consisting of 60 msn that would not enable us to more fully enforce prohibition, but would be of very great benefit in controlling the theft of automobiles and would also be sufficient to quell such civil riots or disturbances as would exceed the power of local police authorities. Visit at Harrisburg.

Clean the Acidity and Toxic Poisons Out of the Digestive Tract

Millions are now suffering from the ofter effects of the deadly "flu," a rever or a cold. Their appetites are poor; they are weak, and they are waiting for their strength to come back. If these people could only realize that the return to health and strength would be greatly helped by giving at-tention to the stomach—that is, remov--Two important witnesses in the ing the acidity and toxic poisons from

be saved to humanity. Everyone knows that the disease itself, and the strong medicines that have been taken, upset the storuach, leave it hot and feverish, the mouth dry, the tongue coated, a nasty taste, and no desire to eat. This is a poor

system and they are obtaining wonderful results—so wonderful that the amazingly quick benefits are hardly believable, just as shown in the re-markable letter which is published upon the request of this sturdy old Civil War veteran. He is 77 years old. Read what he says EATONIC did for him:

"I am an old soldler, past seventy-seven years. I had the Spanish in-fluence and it left my stomach in an

awful shape. I tried three different doctors but got no relief. As a last resort I sent and got a bex of EATONIO and to my greatest sur-prise the very first tablet I took helped me. I can now eat anything I want, and feet fine."

C. S. Martin P. S.: If you can make any ase of this letter for suffering humanity, you are at liberty to do so. C.S.M.

This is only one case out of thousands. You should make the EATONIC test in your own case at once. You have everything to gain-not a penny can you lose, for we take all the risk. Your own common sense, your own feelings, tell you that a good appetite, good di-gestion, a good stomach, with the fever poisons and effects of strong medicines out of your system, will put you on the road to strong, robust health again.

You want to enjoy life again after you have battled with the "flu", fever or colds, or any other illness that has taken your strength. You want to get back your old-time vigor, be full of pep and enthusiasm—be able to work with ease, instead of listlessly, half-heartedly dragging out a mere existence.

So besure to take a box of EATONIC home with you today. We cannot urge this too strongly. If EATONIC falls to give you positive beneficial results, it will not cost you a penny. There is no risk-the benefit is surely all for you.

## FOR YOUR ACID-STOMACH

##PNOTE—Over 20,000 drog stores throughout the United States cell and guarantee EATONIO. If you cannot obtain EATONIO quickly at your drug store, do not be without it. Write us and we will mail you a big 50c at ouce and you can send us the 50c after you get it. Address: EATONIO REMEDY OO., 1866 South Wabash Avenue, Chicago, Ill.
