# PEACE MEASURE OF AMERICANS

Armed Force May Be Replaced by Economic Principles in Enforcing Decrees of League of Nations.

Washington, Feb. 16.-American financial and trade representatives now in Europe have devised extensive plans for using the economic boycott as a weapon against nations failing to abide by decrees of the proposed league of nations. According to official information here today they will urge upon the peace con ference measures making possible close international co-operation in the application of economic princi-ples to replace use of armed force a great extent.

No specific machinery for putting into effect measures of economic boycott, pending further development of the plan for a league of na-

Officials of the Treasury, Department of Commerce and War Trade board familiar with the plans of the American representatives at Paris said an international trade commis sion to investigate unfair trade practices, which might easily develop nto international dispute and war, as well as to set into motion the economical forces against nations transgressing international agreements

may be named.

Under American plan the manipulation of the supply of raw materials and of the purchase of manufactured products and of financial arrangements between countries would be the principal means of effecting a boycott. If these meaeffecting a boycott. If these mea-sures could be made thoroughly effective American representatives be-lieve they would often eliminate

ne necessity of using armed force. Officials said the American plan would necessitate continued cooperation between the government and business in this country.
