consequent irregularity of prices marked sluggish trading in stock exchange to-day, the season reflecting none of the previous day's public interest, activity or breadth.

day, the session reflecting none of the bright and some minor or unimportant specialties comprised the firm to strong a lauses and oils were again variably depressed on profit-inking and bearish pressure. The net result represented little more than conflicting views of cliques and pools.

Almost the sole hopeful feature was the relative strength of rails, buying of that group at intervals including most of that group at intervals including most of the representative shares in the granger, transcontinental and coal divisions at 1 to 1½ point gains.

Rails were almost the only shares to retain a fair proportion of their advances in the selling movement of the last hour, which virtually effaced General Motors extreme rise of four points and effected moderate unsettlement elsewhere.

United States Steel closed at a loss of virtually a point after having made a slight gain, other steels and equipments resulted one to three points with Marine preferred and Mexican Petroleum's further heavings made a slight gain, other steels and equipments resulted one to three points with Marine preferred and Mexican Petroleum's further reversal extended to other ella Early gains of one to two points in local transcitions were held and popular tobacces closed at irregular advances.

Recent mixed conditions in the bond market continued, speculative ralls showing further heaviness, while local transcitions leaves responded to the strength of allies. Liberty bonds steadled, but international war issues lacked snap. Old coupon as gained % per cent on sale.
