ields, where the farm hands were harrowing the red soil for the early planting. In the paddock to the left Allan Bracken was giving the first lessons to Bob, aged 8, balanced on the back of a fat pony, while the three younger children, perched on the fence, were watching with tense admiration. Above them, in the arbor, the first clusters of wistaria were swelling in the bud. A weeping willow and a grove of maple trees in full leaf caught the slight impulse of the young breeze,
