This makes a about 50 years old and had a wife full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the 'top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dan-druff, excess oil and dirt. After rinsing, the hair dries quickly with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure .- Adv.
