WOMAN'S SECTION OF THE

Busy Days in Music World

FOR many months the musical nothing but the most glowing encomiums about Jascha Heifetz, the 17-year-old violinist, who last season took all New York and the east by storm. Blase critics and public alike acclaimed him after his first recital, and everywhere he has awakened unbounded enthusiasm. Now that the Tuesday Musical club will present this brilliant young artist before an Omaha audience on March 10, everyone with musical tendencies is on the qui vive to hear him, and interest has been rife as to what sort of a program he will play

William J. Henderson, of the New York Sun, in a recent two-colamn article devoted entirely to Jascha Heifetz, declares that this young man, hardly more than a boy years, is at present at the top of his profession, the first of living violin-

Mr. Henderson speaks of Heifetz' gifts as manifold. First of all, a "violin genius," which "means a special facility in learning, that exquisite delicacy of muscular sense which enables the left hand always to direct its fingers to the exact position demanded, and the right hand to move and to press the bow so as to get the perfect tone.

"Bowing," continues Mr. Henderson, "is to the violinist what touch is to the pianist. It is the life of his technic, It is the means with which he makes the tonal lights and shadows play through the instru-mental song. It is the force behind every dynamic gradation, the secret of those infinite varieties of sound figuratively called "tone color!" But it is more than this. It is the determining factor in what is called Here it is akin to the brush work of the painter, sweeping and

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness. If we all would practice inside-

bathing, what a gratifying change

would take place. Instead of thousands of half-sick, anaemie-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people every-where. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which

are absorbed into the blood. Men and women, whether sick or well, are advised to drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour
