## The Japanese Way to Remove Corns Doesn't Hurt a Bit-Easy and Simple

The Magic Touch of Ice-Mint Does It. Just a Touch Stops Soreness, Then the Corn or Callous Shrivels and Lifts Off. Try It. Your Feet Will Feel Cool and Fine.

Just a touch of Ice-Mint and "Oh!" he will shrivel right up and you can pick what relief. Corns and callouses vanish, soreness disappears and you can dance all night or walk all day and your corns won't hurt a bit. No matter what you have tried or how many times you have been disappointed here is a real help for you at last. From the very second that Ice-Mint touches that sore, tender corn your poor tired, aching feet will feel so cool, easy and comfortable that you will just sigh with relief. Think of it; just a little touch of that delightful, cooling Ice-Mint and give your poor suffering, tired feet the treat of their lives. There is nothing better, nor nothing "just as good."
