

### CIVILIANS RUSH TO PROTECTION OF U. S. TROOPS

#### American Authorities in Germany Forced to Tighten Permit Privileges; Few Allowed in Occupied Area.

Coblenz, March 7.—(By Associated Press.)—The disturbances in Berlin and other parts of unoccupied Germany have resulted in such an increase in the number of civilians eager to reach the bridgehead area where conditions are more normal that the American forces of occupation have been compelled to take steps to prevent Germans from all parts of the country overrunning the occupied one along the Rhine.

#### Plan for Withdrawal.

The Germans within the occupied zone are already laying their plans for the days after the Americans have withdrawn. Applications were made recently for the privilege of holding public meetings to urge the organization of volunteer forces to take over affairs when the Americans left the district.

These applications, however, were denied today by the Third army officials on the ground that meetings of this kind were prohibited by the orders forbidding any organized enemy forces within the bridgehead limits.

All indebtedness contracted by Americans within the occupied territories of Germany will be paid immediately. Authorization to this effect was obtained by the Third army today and from this date on the Americans will pay their way as they go. The money to pay the back bills or bills of the future will be requisitioned from Berlin, the army thus relieving the civilians of the occupied territory from taking the chances of collecting from the German government.

When the Americans eventually start homeward not one penny will be owing to civilians who have claims of any kind in connection with the upkeep of the United States troops, so far as the army records are concerned.

#### Will Get Receipts.

Before the departure of the forces the commanders of the various units will confer with the burgomasters of the respective villages and cities in the district and as a final finality will receive from the burgomasters receipts in full, showing all debts cleared up under this plan.

### Increase in Postal Revenue Indicates Prosperity in Trade

Washington, March 7.—Postmaster General Burleson today declared that increasing postal revenues, "one of the most accurate barometers of present business conditions," forecast a period of pronounced industrial prosperity.

"I concur in the opinion of the executive head of one of the greatest corporations of the world who prophesies large business prosperity ahead," Mr. Burleson said. "Admittedly, the revenue of the postal service is one of the most accurate barometers of present business conditions, because the postal revenue comes from every community in the United States."

"During November there was a pronounced decline in postal revenues due to the nation-wide prevalence of influenza and the signing of the armistice. Revenues in Denver showed a returning movement toward normal conditions, while during January and February the revenues greatly exceeded for those months the average annual increase during the last 30 years."

### German Owned Ships Held Finance Strike; to Frame New Demands

Buenos Aires, March 7.—The strike of port workers, which has caused a serious tie-up to shipping business here, took another turn tonight, when representatives of the port workers approved the action of the maritime federation in deciding no longer to adopt a conciliatory attitude toward the shipowners. The strikers also decided to frame new demands.

German-owned vessels in Argentine harbors have not been affected by the strike. The ship owners claim that half of the money earned by these vessels goes to the support of the strikers.

### Railroad Traffic in Cuba Held Up by General Strike

Washington, March 7.—The general strike in Cuba has spread, according to advices to the State department today, until transportation in fully half of the country is tied up. Practically all industries are at a standstill.

## Hindu Philosopher to Take Omaha Girl As His Bride to Home in Holy City of India

### Romance Which Started Here Two Years Ago Shatters Kipling's "East Is East, Etc." Theory.

A wedding trip around the world before they settle down in their magnificent home in Benares, holy city of India—this is what Dr. Kesava Deva Shastri, Hindu philosopher, has planned for himself and Miss Minnie Jensen, Omaha girl, who will become his bride in the near future. The marriage license was issued in Omaha.

The story of the American-Hindu romance reads like a page from Kipling. But it shatters Kipling's contention that "East is East, and West is West and never the twain shall meet."

#### Is an Adopted Daughter.

Miss Jensen is an adopted daughter of Isaac Kalin, president of the Megeath Stationary company, and has been a member of the family 15 years. The home is at 2015 Sherman avenue.

About two years ago the Hindu philosopher came to Omaha and gave a series of lectures under the auspices of the Theosophical society.

It was here that the romance started. Dr. Shastri, native of India, graduate of three universities, profound thinker, international lecturer, found his mate in the little Omaha girl.

#### Love at First Sight.

It may have been what we call "love at first sight" or it may have been that mysterious mating of souls. At any rate, Miss Jensen wears a beautiful platinum ring presented to her by Dr. Shastri.

It is elaborately engraved and inscribed with both English and Hindu characters and the workmanship is that of a master craftsman. The date of the wedding has not been definitely set, depending upon Dr. Shastri's busy lecturing career. But the license is issued and all that remains is the ceremony.

#### They are going on a wedding trip that any girl would love to take," said Miss Mabel Kahn, Miss Jensen's sister. "After the wedding in Omaha they will travel south and then to California. There they will take a ship for the Hawaiian islands; then on to the Philippine islands. Next they will visit Japan and then China.

"Then they are going to Persia and to Egypt. They do not intend to go on to Europe on that trip but will come back from Egypt to India where they will make their permanent home.

#### Such Romantic Names.

"Dr. Shastri has his principal residence in Benares. He also has a summer home in the vale of Kashmir."

"Oh, it's just like out of a story book. And Dr. Shastri is such a splendid man. The Hindus are of the white race and he is a man of the highest education. He has degrees from three universities and he presided over the great international congress of religious philosophies at the Panama-Pacific exposition in San Francisco."

Benares, where the home of this Omaha girl will be, is the holy city of the Hindus, situated on the Ganges river. As the center of Hinduism it attracts immense crowds of pilgrims on festival occasions. They come from all over India to the number of 100,000 frequently.

### Won't You Have Pity on Two "Good" Homeless Bachelors

#### They Want a Room, in Fact Two Rooms, Sans Jazz, Sans Poker Chips and With a Lot of Quietness—And Reporter Wants Part of a Steak Dinner.

If you have "two well-furnished rooms within five blocks of Farnam between Twenty-fourth and Fortieth streets," will you take pity on two homeless and roomless bachelors in search of a place to sleep?

One is Charles E. Foster, one of the Omaha police judges, and the other is Frank C. Buita, ex-newspaper man now with the Nebraska Telephone company.

The lone bachelors have trod many a weary step in search of pleasant, home-like surroundings, where it is quiet enough so they can read their newspaper evenings without the sound of tin-panning piano, jazz music or the rattle of chips on bare tables to disturb them.

But they have searched in vain. Advertise in The Bee.

Now they are going to let a little Bee want ad do the work of locating eligible quarters. Then they are going to jump into a taxi Sunday and make the rounds.

"What qualifications can we offer as good roomers?" "Well, we have always kept out of jail and we don't stay out nights and we don't smoke, chew or swear—much—and we can't get anything to drink—and so—"

They think they will make good roomers. One of the requirements mentioned by Buita was "pleasant surroundings."

### \$50,000 in Liberty Bonds Stolen From N. Y. Messenger

New York, March 7.—Robbers, operating in a brightly-lighted corridor of the Adams Express company building on Lower Broadway, robbed a broker's messenger of \$50,000 worth of Liberty bonds and other securities today. The messenger, a boy, was said to have been severely beaten.

### Clemenceau Receives Queen Marie of Roumania

Paris, March 7.—Premier Clemenceau this forenoon received privately at the war ministry Queen Marie of Roumania. The queen, who was accompanied by M. Antonescu and a lady in honor, was received with full military honors in the courtyard of the ministry. The premier and the queen conversed together for half an hour.

Miss Jensen and Dr. Shastri Who Will Take Honeymoon Trip Around the World.

river Ganges have been famous from time immemorial. Benares is now a city of 250,000 people and has its modern as well as its ancient section.

It will be a big change from Omaha, U. S. A., to Benares, India, but Miss Jensen says she knows she is going to love it and, certainly, there are thousands of girls who will envy her the prospect.

#### Speaks Perfect English.

Dr. Shastri's lectures have taken him all over the civilized world. He speaks perfect English, as well as several other languages.

The titles of the lectures which he delivered in Omaha two years ago were, "The World's Great Religions," "Picturesque India," "Landmarks of Hindu Culture" and "Philosophy of Life."

president arose and escorted Mrs. Wilson to their boat. He adjusted Mrs. Wilson's and his own life belt and stood quietly by until the drill was completed.

The president today sent a wireless message to William J. Bryan, who has been ill.

The weather cleared today and the sea was smooth.

### Don't Change Your Husband—Adv

But he does admit if he gets good returns on the ad he placed, he will follow it up with another advertising for "the girl."

"I'm sure we'd get enough proposals if we advertised in The Bee, but you'd have to help us sort them out."

Before the war a party of bachelors, including these two, Yale Hailand, Al Munger, Ray Horning, John Gleason, Charles McLaughlin and a few more had quarters in a large house at 424 Park avenue. All but one or two went to war, so the club disbanded. On his return from the army, Buita went to live at the Conant, while Foster has been living at the Winona.

But the bachelors are not built for speed and noise, but for comfort and quiet, so they want some kindly disposed person to take them into their homes.

If they had rooms by Sunday Foster buys Buita a steak dinner. A certain newspaper person has a lien or attachment or some legal "whatchamacallit" on one portion of the steak.

A few smoked-to-day will convince you that Flor de MELBA is the cigar supreme.
