FINANCIAL

New York, March 5.—The brief session of the stock market today was characterized by extraordinary activity and furties bullish enthusiasm which lifted many issues to top levels of the year, with here and there some actual new high records.

Among the influences which gave fresh attinuis to the advance was the report that the administration had ordered another postponement in the pending antitrust litigation. Indications that the railing to coats would soon be provided with funds was another hopeful factor.

There was a noliceable increase of outside interest in the market which centered argely in steels, equipments and ship pions, rails failing to futfill their early promise of strength.

United States Steel contributed almost

side interest in the series of argely in steels, equipments and same of alreagit.

United States Steel contributed almost one-fifth to the day's business at an extreme advance of 1% points to 37, but affiliated stocks, particularly Midvale.

Bethishem, Crucible and Lackawanna Steels and Baldwin Locomotive gained 2 to 5 points.

Marine preferred yielded part of its 3-point rise, but ofher shippings, including american International, Atlantic Guif and United Fruit, were less susceptible to realizing Sugars, fertilizers, coppers, and utilities helped to swell the advance, but motors, oils and tobacces were irregular.

Last week's large actual loan expansion of clearing house banks was materially close feducy, excess resorves showing 2.582 a further moderate gain.

Liberty house banks was materially Cons.
