#### A Homemade Mop.

A Kansas City woman has made a dustless mop that she declares is satisfactory than the high priced boughten ones. Like many inventions, it is mothered by necessity

The old mop broke, and wishing to use one immediately, this clever woman saturated a number of stockings in coal oil, then hung them on the clothes line till they no longer dripped. They were then put into an ordinary scrub mopstick and worked

This mop can be washed when needed, or renewed with little ex-pense and trouble.

Many wives of British premiers have played a considerable part in politics, and added much to the social reputations of their husbands. Probably the most notable example was Lady Palmerston, who was as indefagitable a politician as her husband, and used all her social prestige in his political service.

Lustrous, fluffy, wavy hair plays an important part in the scheme of beauty. A heated from sheuld not be used to give the desired wavy effect, for it destroys the life, lustre and fluffiness of the hair. It is far better to use pinis liquid silmerine, which curis the hair more effectually, more lastingly, and at the same time keeps it beautifully soft, "light" and glossy. It is beneficial instead of harmful, and it is such a simple thing to apply the liquid before retiring, using a clean tooth brush for the purpose and drawing this down the hair from root to fip.
