Plan to Crush Militarism;
Terms of Peace Treaty
Near Completion.

Paris, March 11.—Military Germany will go out of existence as the result of the adoption by the supreme council of the military terms of German disarmament as

**GIRLS! BEAUTIFY
YOUR HAIR AND
STOP DANDRUFF**

Hair becomes charming,
wavy, lustrous and thick
in few moments.

Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Adv.

they will go into the peace treaty. These terms provide for a sweeping reduction of the German military establishment down to 100,000 men, with 4,000 officers, the army to be recruited by the voluntary system for the period of 12 years. The effect of this is to limit Germany's military strength to less than the number of men Switzerland has in its army.

Other provisions in the military terms limit the arms and munitions Germany may possess to a quantity sufficient for 100,000 men and all the remainder must be delivered over or destroyed. The German forts along the Rhine also must be destroyed. The imperial general staff is abolished as the result of reducing the force.

Foch Makes Report.
Discussion of the subject was resumed by the supreme council following Marshal Foch's report on Premier Lloyd George's proposal to reduce Germany's armed force from 200,000, as had been suggested, to 140,000 men and to substitute voluntary for compulsory service.

Marshal Foch favored the change, as the conscription plan providing for 200,000 men serving one-year terms would have given Germany a trained army of 2,000,000 men in 10 years.

As against this Mr. Lloyd George proposed to fix the enlistment term at 12 years. Marshal Foch embodied this in his report, which proposed an army of 140,000 men, but the council finally adopted an amendment further reducing this figure to 100,000.

Prevent Conscription.
One of Premier Lloyd George's main purposes in substituting voluntary service for the conscription system was to pave the way for the disappearance of the conscription system throughout Europe, as it was believed that the effect of the abolition of the system in Germany would be that the other European countries would generally follow it, thus ending the menace of large standing armies and their provocation to warfare.

The council has already adopted the naval terms of the treaty, except for a few reserved provisions, which will be discussed tomorrow. The progress that has been made with the work of framing the peace treaty insures the completion of the task by March 20. The first rough draft will be in readiness when President Wilson arrives in France Thursday, and the revision will be concluded before the twentieth. It is the present purpose of the peace conferees to call the Germans to Versailles soon after March 20, probably from March 22 to March 25. The document then will be delivered to the German delegates and in case they are not prepared to sign at once they will be given the opportunity to return to Germany to consider it and return for the formal signing at Versailles. This plan obviates the necessity

**NEW RECORD FOR
RADIO PHONE IS
MADE BY NAVY**

Secretary Daniels Talks to
Airplane Pilot 150 Miles
from Washington Flying
at High Altitude.

Washington, March 11.—Secretary Daniels talked today by radio telephone with Ensign Harry Fagenvater in a navy flying boat en route from Washington to Hampton Roads. Communication was established at a distance of more than 150 miles, by far the longest transmission of radio telephone signals with an airplane in flight ever achieved.

The secretary used the ordinary desk telephone on his desk at the Navy department. Officers in charge of the development of radio signaling, including Rear Admiral Griffin, chief of the bureau of steam engineering, were grouped around the desk.

Mr. Daniels spoke of his pleasure in making a test of the constantly improving navy apparatus and asked the ensign how far away his machine was. After a moment's delay, the officer replied that he was then more than 150 miles from Washington and flying at a high altitude.

The officer's voice came very distinctly toward the end of the conversation as the distance increased. The expert at the department said the 150 miles was practically the extreme range of radio telephonic communication with an aircraft with present equipment and more than double any previous distance covered in a similar test.

**Massachusetts Towns Vote
"Wet" on Liquor Question**

Boston, March 11.—Returns from 11 towns that voted yesterday on the question of issuing liquor licenses show that eight changed from dry to wet. Two of the towns, Weymouth and Hingham, have been no-license places for more than a quarter of a century.

of holding sessions for debate at Versailles and restricts the functions to be conducted with the Germans for the delivery of the document and the return for its signature or such other action as they desire to take.

Wait for Wilson.
It is known definitely that Count von Bernstorff, former German ambassador to the United States, will not be one of the German delegates at Versailles.

**Denver Captain Urges
Great Ovations for
the 89th Division**

New York, March 11.—That the 89th division, which will arrive in this country in June, should receive a great ovation from the middle west as a whole, is the opinion of officers formerly with the midwestern unit, but who were transferred to the 27th division, which arrived here this week.

Capt. John Newman of Denver, who was with the 353d infantry unit about three weeks ago, gives the men of the 89th the highest praise. "The 89th was a great division and its men were wonderful," says Captain Newman. "Whenever the 'Fighting Farmers' got into action both the other American divisions and the boches knew that the middle west was tearing right through Nebraska, Colorado, Kansas, Mis-

souri and South Dakota should all be proud of the boys who put them on the fighting map and should welcome them accordingly."

The suggestion is made here that the grandstands erected for the home-coming of the 35th division might be used again when the 89th passes through Kansas City, relatives and friends coming there to meet the men. Camp Funston is also mentioned as a possible point for an official welcome. Wherever it is to be, officers here say, the formation of a representative committee and the planning of a big reception to the boys who are now in Germany is but what they deserve.

**Double Censorship of
Cablegrams Is Abolished**

Washington, March 11.—Double censorship of cablegrams is abolished under the terms of an agreement between the United States and Great Britain made public today.

**There Is So Much Satisfaction
in Choosing Your Suit With So Many
Distinctive Styles Before You
Each With a "Specialty Shop Exclusiveness"**

IT IS said there are some 5,000 suit manufacturers in New York City alone. Yet it is a fact that the majority of ready-to-wear retailers buy from one or two manufacturers to simplify ordering, to secure quantity price concessions and to take up less time in the assembling of their stocks when in the market.

The great objection to this, of course, is that their customers are offered the Fashion trend as it is seen through the eyes of one or two Designers, many other fashions being overlooked entirely.

Our buyers on their Spring trips inspected the full lines of a hundred or more of the most representative suit manufacturers and selected only those modes certain, through their own smartness and individuality, to attain a permanent success. Only such as have passed the experimental stage are now on exhibit.

Dashing little box coated suits with waistcoats for the tall willow girls and misses; belted suits, more conservative and safe for all figures; becoming blouse back suits and the semi-tailleur suits are shown, faultlessly tailored of serge, tricotine, poirot twill, sude velour and gabardine. All sizes from 16 to 52½.

Show Visitors Invited to Ride
The most interesting car of the year
In the Only New Car--the Essex \$1395

There is just one new car to be seen at shows this year.

It is the Essex, which combines the economy advantages of the light, cheap car with the endurance, performance, stability and rich detail of appointment of the costly and large car. It sells at the moderate price of \$1,395.

Essex qualities have been claimed for other cars and for that reason we rely upon demonstrations to prove its attractions. All show visitors are urged to ride in the Essex.

The Essex wins all who see and ride in it.

Note what men are saying about its beauty as they compare it with other cars of its class. They speak of the pride its ownership inspires. They talk of its performance in terms that are used to describe large and costly cars. Its freedom from squeaks and rattles and the way in which it retains its newness is a point that owners of light and low priced cars make much of.

**Not Only Stop to See the Essex
Arrange to Ride In It**

Then you will know it as thousands don't fail to see the only new car there. You will know how You will be asked if you saw the Essex. Men will tell you how it rides over rough roads, how it goes up hills and how smoothly it responds to every call. You should be informed concerning this new type car that combines the advantages of both the light cheap car and that of the large and costly one.
