Oil News of Texas Are You Aware

1614 Harney Street.

That Texas has the largest oil fields in the country? That some parts of this vast field has the largest producing wells in the country?

That some parts of the field are much less productive than others?

That some of the field is treacherous and some practically certain, and

That nothing but a personal acquaintance with the field can eliminate danger of loss?

I will tell you the truth about the field, and I know the truth. I was raised on the field, and have been on the field ever since its discovery. I have promoted companies, bought and sold leases, drilled wells and in fact went all the rounds.

Now write me, and I will tell you the truth, about how I and many others have made money and avoided loss, and how you may do the same.
