

BERLIN NESTS OF SPARTACANS ARE DISSOLVED

Government Troops With Artillery and Bomb Throwers Drive Reds from Positions in Lichtenberg.

Copenhagen, March 13.—German government forces, after lively fighting, have succeeded in driving the Spartacans out of the east end section of Berlin, including Lichtenberg, according to a Berlin dispatch filed Wednesday.

The occupation of the district, the message states, was systematically carried out by the government troops. Considerable quantities of arms were captured, the losses on the government side are declared not to have been heavy.

The heaviest acts of cruelty by the Spartacans have been fully confirmed. The government troops entered Lichtenberg this morning. The government forces took a large number of prisoners, many of whom were executed summarily.

Lichtenberg after bombarding the main Spartacan nests. The Spartacans fled. The only chance the Spartacans have of escape is by concealing their identity by mingling with the peaceable inhabitants.

One group of 30 prisoners captured included 10 women.

In one Spartacan nest, it is reported, 20 Poles were captured. Government soldiers report further details of the torture and murder of government soldiers and policemen by the Spartacans.

The government has issued a notice that the seven depots of the republican soldier guards have been abolished and that any former members of these depots caught with weapons will be executed.

The Lichtenberg soldiers' and workmen's council, which was composed wholly of independent socialists and Spartacans, has been dissolved.

German Press Opposed to Giving Danzig to Poland
Berlin, March 13.—(By Associated Press.)—Reports from Paris that the peace treaty will provide that Poland shall have Danzig and that a buffer state shall be formed along the Rhine have stirred the German press, both conservative and radical.

Former German Emperor Planned Asylum in Sweden
Washington, March 13.—(By Associated Press.)—William Hohenzollern, two months before the armistice was signed, planned an asylum in Sweden, but was prevented from going to that country by the Swedish government, diplomatic advices made public today disclosed.

New Jersey Car Strike Now Up to War Labor Board
Washington, March 13.—Hearings on the controversy between the New Jersey Public Service corporation and its striking street car employees will begin here tomorrow morning before the war labor board.

ENGLAND PLANS LICENSING OF IMPORTATIONS

American Business Men View With Alarm After the War Economic Adjustment on Manufactured Articles.

London, March 13.—Free trade newspapers are sharply criticizing the government's policy regarding importations as disclosed by Sir Auckland Geddes, minister for national service and reconstruction in the House of Commons, Monday.

The newspapers denounce this proposal as an attempt to introduce protection without any mandate from the voters and insist that a great majority of the voters are opposed to a protective system.

From the viewpoint of importers, the license system handicaps them with all the disadvantages of a protective tariff without the stabilizing virtue of certainty.

England is swarming with American business men, who came over fully expecting to re-establish their old connections as soon as the vital factor of tonnage permitted.

Each case is dealt with on its merits, as the controller judges it from the importer's standpoint and the board of trade's first consideration is whether the goods in question can be obtained from English firms.

Consistent among the American products which find themselves against what virtually amounts to a stone wall, are motors, boots and typewriters.

The self-governing dominions of Great Britain are exempt from the difficulties the government's policy imposes on foreign merchants.

cause it is a subject of greatest interest to business men everywhere and a source of controversy between different schools of British economists.

The arguments of the free traders have been roughly summarized by the Morning Post, which is the strongest protectionist paper in Great Britain.

Rogers' Illness Postpones Plans for Free Concerts
The war camp community service meeting planned for Wednesday at the Chamber of Commerce to report progress on plans for free Sunday afternoon concerts, was postponed on account of the illness of Herbert Rogers, who had the arrangement with local business men in charge.

"Gets-It" Peels My Corns Off!
Any Corn or Callus Comes Off Peacefully, Painlessly. Never Fails.

Use "Gets-It," peel off corn this way. Your feet "gets-It" does away forever with "contractions," "wrappy" plasters, greasy ointments that rub off, blood-letting knives, and scissors that slip into the "quick." "Gets-It" eases pain. Your "jumpy" corn shrinks, dies, loosens from the toe. You peel the corn painlessly from your toe in one complete piece. That's where the picnic comes in—you peel it off as you would a banana peel. Nothing else but "Gets-It" can do it. Get peaceful, common-sense "Gets-It."

Corsets at Way Below Regular Prices
Here's an opportunity quite out of the ordinary to buy a splendid Corset at a price that means a good, substantial saving.

REPUBLIC MOTOR TRUCKS
ANDREW MURPHY & SON
The Distinctive Feature of the Truck That Serves So Well.
14th & Jackson Sts. 621 Sixth St., Sioux City, Ia.

Easily Maneuvered!

ONE of the big advantages of Grant Trucks is their handiness in tight quarters. We know of no other trucks built that have so large a pay-load space as compared with the length of the truck, yet in the standard models the body extends only 16 inches beyond the rear springs.

In the model 12 there is full seven feet, in Models 10 and 15 full nine feet, and in Models 11 and 16 full eleven feet of payload space back of the driver's seat.

Grant Trucks are built to give maximum loading space without sacrificing convenience in getting into and out of narrow alleys and driveways, badly placed loading platforms, crowded yards, wharfs and warehouses.

Electric starting and lighting saves time and fuel, makes a more serviceable, smarter and more efficient truck, and by enabling you to get and keep a better class of drivers is valuable insurance against accidents and carelessness.

Complete equipment means that first cost is the final cost—no extras to buy afterward.
