

Release 34 Reservists Who Mutinied on Toloa Halifax, N. S., March 13.—Thirty-four British reservists, whose homes are in the United States landed today from the transport Toloa, the captain of which reported yesterday that 300 of the soldiers on board had threatened to sink the ship unless they were put ashore and given transportation to their destinations. The men who came off the transport this morning left for the United States. The homes of most of them are in Massachusetts and New York.

Rheumatic Pain? Kick Hole in Sky!

The Greatest Pain Soother in All the World, "Ulypto Ointment."

A touch or two of wonderful "Ulypto Ointment" and glory—you feel as though you would go right "over the top." If you ever felt heavenly relief, you'll feel it there. "Ulypto Ointment" is a blessing to all rheumatics, reducing inflammation, easing pain instantly. There's no mustard odor or ingredient. "Ulypto Ointment" is a scientific surface, containing the essence of the eucalyptus tree. Try it for your muscles, stiff joints, back pains, neuralgia, earache, piles, nose-stoppage, sore throat, pain in the chest—in fact, for any inflammation or congestion. "Ulypto Ointment" is sold at all drug stores at 25c and 50c a jar, or sent on receipt of price by the MacMillan Chemical Co., Falls City, Neb. A few "Ulypto Cough Drops" work magic on any cough or bronchitis. Be everywhere. For sale and recommended in Omaha by Sherman & McConnell's drug stores, Merritt Drug Stores, Boston Drug Co., Dundee Pharmacy, Green's Pharmacy.—Adv.

HOW TO AVOID INFLUENZA

Keep away from persons having colds, avoid crowds, public drinking cups, towels used by other people, etc. Take plenty of exercise daily, and breathe lots of fresh air.

At the first sign of a cold, secure some good gargle recommended by your druggist and use as directed, also purchase from him a jar of Mac Laren's Mustard Cerate, termed "The Little Doctor." Rub this in freely on the throat and chest. It will not blister and will give almost immediate relief by attracting the blood to the surface and drawing out the congestion. There is no remedy on the market that has been used with greater success than "The Little Doctor"—the right hand assistant to big doctors and nurses all over the country.

For Rheumatism, Sore Throat, Croup, Cold on Chest, Lumbago, Neuralgia, Sore Joints and Muscles—There is nothing better—Being used externally, MacLaren's Mustard Cerate can be used freely without the least danger of harmful after effects.

Ask your druggist and get what you ask for. Be sure that you obtain the package with "The Little Doctor" on the top. In 25c and 50c jars at drug stores or sent prepaid to any part of the U. S.

Mac Laren Drug Co. TRINIDAD, COLO.

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister. As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest. (It often prevents pneumonia.) 30c and 60c jars; hospital size \$2.50.

U. S. TROOPS CALLED HOME FROM BRITAIN

Training Camps of American Soldiers Will All Be Evacuated by April 15 Under Present Plan.

By ROBERT WELLES RITCHIE, Staff Correspondent of Universal Service.

(Special Wireless Dispatch.) London, March 13.—Evacuation of the American base No. 5, which is in England, is progressing so rapidly, Universal Service learns from General Biddle's headquarters, that by the middle of April less than 1,500 soldiers will remain in England.

General Biddle expects to return to America some time in May, leaving only a skeleton executive organization in London and Liverpool. The Winchester camp, once jammed by 25,000 soldiers, is now emptying so rapidly that within two weeks no soldier will remain at the scene of this mighty American training effort last summer. At present only 400 or 500 cases are left at the two remaining hospitals—in London and Liverpool—both of which are expected to be closed in mid-April if not earlier.

Keep London Headquarters.

These hospitals offer a base of evacuation for the wounded from the Archangel front, and definite word of their imminent closing was given me today, which confirms reports of the prospective withdrawal of American troops from northern Russia.

American headquarters will remain in London for eight months more for purpose of completing the enormous task of settling the bill and squaring accounts, but the staff will be greatly reduced.

A large amount of equipment including ambulances, army trucks and equipment from the camps will have to be sold and the rentals of buildings in London and elsewhere must be settled—a monumental task, but small compared to the similar necessity in France.

Demobilization of the Red Cross organization in Britain is keeping pace with that of the army and hundreds of nurses and war workers are struggling for bookings homeward.

As long as leaves to England are granted to American soldiers the Y. M. C. A., the Salvation Army and the Knights of Columbus will maintain huts, and headquarters here. There is no indication at present when leaves to England will be withdrawn.

Irish Parliament Said to Be Necessary to Prevent Labor Trouble

London, March 13.—Dublin dispatches to the Daily Mail represent the situation in Ireland as extremely bad and maintain that the need of effective self-government is more urgent than ever.

"Now that the Sinn Fein members of the House of Commons have been released," the dispatch says, "there will be a new assembly of the Irish parliament, which will probably be a very troublesome affair without an authoritative administration to balance its activities. Labor troubles of great import are growing apace and it is impossible for the British government to handle them. The well-intentioned schemes of General Viscount French, lord lieutenant, for social and industrial improvement, have gone by the board and there is a dangerous situation which has been handled only by an Irish Parliament."

Anti-Aircraft Unit Landed in Newport News

Newport News, Va., March 13.—Three ships, the transports Aolus and Zealandia and the battleship Ohio, arrived here today from France with 5,867 soldiers.

The Aolus landed 3,029 men of the 13th field artillery (Texas national guard). There also were on board a number of casual officers, and several civilians, including Mrs. Plessant M. Stovall, wife of the American minister to Switzerland.

On board the Zealandia were 1,000 men and 43 officers of the 48th coast artillery.

Enemy companies numbering 360 men and the first anti-aircraft sector complete, 416 officers and men, were on the Ohio. The anti-aircraft unit has 11 German planes to its credit in its operations near Verdun.

Galloway Will Resign from Civil Service Board Soon

Washington, March 13.—Charles M. Galloway, member of the civil service commission, whose resignation has been called for by President Wilson, announced today that he would resign within a few days.

"At the proper time," he added, "I shall probably make a statement of the real reasons for the request for my resignation."

The appointment of a successor to Mr. Galloway has been withheld pending receipt of his resignation.

Soviet Government Plans World-Wide Revolution

London, March 13.—The Russian soviet government, with a view to promoting a plan for a world-wide communist revolution, has appointed a new minister to be known as "international commissary," according to a Helsingfors dispatch to the Mail, quoting advice from Moscow.

Spanish Cabinet Grants Building Trades' Demands

Madrid, March 13.—The Spanish cabinet decided today to grant an eight-hour working day to the building trades throughout Spain, wages to be fixed by committees of employers and workmen in each district. The cabinet also approved a bill to insure workers against unemployment.

France Must Have Sarre Basin, Now in Prussian Hands, Declares Viviani

Former French Premier Says Biggest Coal Basin in World Was Stolen From France by Prussia in 1815—French Coal Production Less Than Half of Consumption.

By RENE VIVIANI, Former Premier of France. (Written Expressly for the Universal Service.)

Paris, March 13.—In my previous article I showed in its true light the execrable robbery of which France was the victim not only in 1870 but also in 1815. We explained that on the morrow of the congress of Vienna which imprisoned European anarchy, the dismemberment of France remained the principal purpose and that Bismarck finished or at least continued the 1870 work of Blucher. I explained that from a military viewpoint it now remains to prove it from an economic standpoint.

Indeed, we would know Germany very inadequately if we supposed that she did not foresee even in 1815 the profit of her brutality or did not attempt to gather gold and silver in the bloody track of war.

It was France which after lucky prospecting discovered the mine deposits in the Sarre basin and explored and exploited them—it was thus France that called the world's attention to the startling riches which hitherto lay dormant underground. This was in 1815 when Prussia occupied militarily in the allies name the Sarre region. She summoned the mining expert Docking, who appraised the economic status of this district. This economic expert was closely associated with the diplomatic negotiations which from July to October in 1815 resulted in the amputation to the disadvantage of France of the Sarre region. We shall see what France lost from this blow.

Let us recall briefly that the role which Docking played for Blucher, who after studying the iron mines of Lorraine, furnished the chancellor with the information which permitted the latter to annex the Lorraine villages in the neighborhood of the mineral deposits, scorning the preliminary clauses of the Frankfurt treaty which he had just signed.

We therefore come to examine whether to the military guaranty furnished by territorial security we ought not to join economic recuperation without which the military guarantee would run the chance of leaving us as regards coal not as poor but as we shall see, poorer than in 1914.

What was the mining situation in France in 1913 before the war? France produced 41,000,000 tons of coal. She was obliged to import 22,000,000 for the needs of consumption not met by her inadequate production plus 3,000,000 tons of coke. The Lorraine smelter industry was dependent upon German coal and since the German iron works were the real proprietors of the Westphalian coal mines, it was the German iron masters who fixed the price of coal in eastern France and

consequently the prices of French pig iron. That was why, being short of pig iron and consequently of metal industries, we were obliged to purchase from Germany locomotive and railway material.

The coal question, therefore, is vital to us. It is not necessary to furnish long explanations to show that in time of war a country short of coal is at the mercy of the country which produces the combustible and that victory is dubious despite fortune. But in time of peace such a situation is unacceptable. It is impossible to remain with impunity the perpetual tributary of another country for the things essential to the very life of the nation without falling in the rank of a dependent first and then of a serfdom.

Our liberation would only be apparent if all these things were not modified. That is all the more necessary since, contrary to what might be believed, particularly in America, the return to France of Alsace and Lorraine unless accompanied by a return of the mineral region of Saarre will impoverish us still more, increase our deficit and crush our industry.

Alsace-Lorraine consumes annually nearly 10,000,000 tons of coal and over 4,000,000 tons of coke and a

total of 17,000,000 or 18,000,000 tons of combustible. Now, the mines of Lorraine can not furnish over 4,000,000 tons of coal, making a deficit of 13,000,000 or 14,000,000 tons, which deficit added to the deficit of 22,000,000 tons existing before the war makes our deficit 35,000,000 tons for tomorrow. Furthermore, this hole is still more gaping. Consumption Exceeds Production. Our mines in northern France will be for many years unable to produce, thanks to the ravages of war. Our mining situation might thus be presented for tomorrow for following the balance of production: 41,000,000 tons minus 12,000,000 which the northern mines produced but will produce no more; total, 29,000,000 tons, to which is added the 4,000,000 tons of Lorraine; grand total, 33,000,000 tons. Altogether our consumption requires 70,000,000 tons. We shall have to import about 35,000,000 tons, or one-half. The problem is terrible and we can not but seek a solution. This solution is found in the return to France of the Saar basin. According to the Prussian administration, the basin produces 17,000,000 tons and can produce 45,000,000 tons as a maximum. If the Prussian state, which, as seen, is the proprietor of the mines of the Saar, has not worked the full capacity of those mines it was because it did not want them to compete with the Westphalian mines.

There you have what France has the right to reclaim. Shall we be accused of imperialism? Will the fact that France takes back its property be called annexation and conquest? We must meet this charge.

Millionaire Dies. Winchendon, Mass., March 13.—Joseph Nelson White, aged 68 years, millionaire cotton manufacturer, died suddenly of apoplexy at his home here tonight.

GERMANS STOP CONFERENCE ON POLISH BORDER

Negotiations at Posen Broken by Hun Delegates as Protest Against Allied Treatment.

Paris, March 13.—The negotiations at Posen between the German delegates and members of the inter-allied mission to Poland over the Polish frontier situation have been broken off by the German delegates, according to the Berlin Tagliche Rundschau, as quoted in a dispatch to Le Journal from Zurich. The Germans have already left Posen "as a protest against their treatment by the allies," the newspaper reports.

In a footnote Le Journal adds that according to its information the Germans by no means indulged in a manifestation after the manner of that at Spa over the armistice conditions but simply asked a suspension of the negotiations to enable them to get instructions from their government.

Quits Red Cross Service.

Washington, March 13.—The resignation of Lieut. Col. William Endicott, as Red Cross commissioner to Great Britain, effective March 15, was announced tonight at headquarters here. Colonel Endicott will return to Boston to look after his private interests.

Decide to Hold First Labor Conference at Washington

Paris, March 13.—The labor commission has decided to recommend that the first meeting of the International labor conference be held at Washington in October if the United States government will consent to convene it. The official announcement was made tonight.

Soviet Executes Relatives of Officers Who Mutinied

Stockholm, March 13.—All the relatives of officers of the Eighty-sixth Russian regiment, which went over to the white guards as against the soviet government, have been executed, according to a dispatch from Petrograd. The executions were ordered by the military revolutionary committee of Petrograd.

Evils of Sedentary Habit

Your occupation may keep you indoors a good share of the time and deprive you of outdoor exercise. If that is the case you are likely to be troubled more or less with constipation, and will appreciate the good qualities of Chamberlain's Tablets. These Tablets are easy to take and most agreeable in effect. Give them a trial.—Adv.

Doctor Tells How to Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Do you wear glasses? Are you a victim of strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read the print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. Note: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very reasonable remedy. Its conditions ingredients are well known, no mineral or toxic and widely prescribed by them. The manufacturer guarantees it to strengthen, brighten and clear the eyes in many instances or refund the money. It can be obtained from any good drug store and is one of the very few preparations I feel should be kept on hand for regular use in almost every family. It is sold in Omaha by Sherman & McConnell, C. A. Malabar, and other druggists.—Adv.

You saw this huge body at the show, built by us for the Truck and Tractor Corp. After the "Flu" Fever or Cold

Clean the Acidity and Toxic Poisons Out of the Digestive Tract

Millions are now suffering from the after effects of the deadly "flu," a fever or a cold. Their appetites are poor; they are weak, and they are waiting for their strength to come back. If these people could only realize that the return to health and strength would be greatly helped by giving attention to the stomach—that is, removing the acidity and toxic poisons from the entire digestive tract, making it act naturally, so that the body will receive the strength to come back. Everyone knows that the disease itself, and the strong medicines that have been taken, upset the stomach, leave it hot and feverish, the mouth dry, the tongue coated, a nasty taste, and no desire to eat. This is a poor foundation to build new strength on. Now, tens of thousands of people all over this country are using EATONIC for the purpose of cleaning these poisonous after-effects right out of the system and the strength is coming wonderful results—so wonderful that the amazingly quick benefits are hardly believable, just as shown in the remarkable letter which is published upon the request of this sturdy old Civil War veteran. He is 77 years old. Read what he says EATONIC did for him: "I am an old soldier, past seventy-seven years. I had the Spanish influenza and it left my stomach in an awful shape. I tried three different doctors but got no relief. At last I read I sent and got a box of EATONIC and to my great surprise the very first tablet I took helped me. I can now eat anything I want, and feel fine." Fowler, Indiana, C. B. Martin, Dec. 4, 1918. P. S.: If you can make any use of this letter for suffering humanity, you are at liberty to do so. O. E. M. This is only one case out of thousands. You should make EATONIC in your own case at once. You have everything to gain—not a penny can you lose, for we take all the risk. Your own common sense, your own feelings, tell you that a good appetite, good digestion, a good stomach, with the fever poisons and effects of strong medicines out of your system, will put you on the road to strong, robust health again. You want to enjoy life again after you have battled with the "flu," fever or cold, or any other illness that has taken your strength. You want to get back your old-time vigor, be full of pep and enthusiasm—the able to work with ease, instead of listlessly, half-heartedly dragging out a mere existence. So be sure to take a box of EATONIC home with you today. We cannot urge this too strongly. If EATONIC fails to give you positive beneficial results, it will not cost you a penny. There is no risk—the benefit is surely all for you.

EATONIC FOR YOUR ACID-STOMACH TODAY. Includes a note about drug stores and a list of distributors.
