The men of today are scarcely, my kind. I don't want a man of flashy socks and ties, sporty clothes and for good times, but a man who loves home, a wife and children. I could make some mend man benut. Have been going with fellows ever since I was about 15 years old and always had lots of suitors, but this is the only one I have really and truly cared for. He tells his boy friends that he cares for me, but if he does why don't he ask to take me out oftener? Now, Miss Fairfax, my letter is getting pretty long, so I just want to ask you how or what I can possi-bly do to win this young man's love and keep it? I try not to get sen-timental when he does take me out or take me home from places, be-cause they say when you let him sleep.
