Sheep—Receipts today amounted to 35 tonds, estimated at 8.300 head. The market today was very slow to open being fully 10:30 o'clock before anything had changed hands. Receipts of grain today were about the same as last Monday, with a total of 180 cars. There were 30 cars of wheat, \$1 cars of corn, \$5\$ cars of oats and 7 cars each of rye and barley.

Corn prices ranged from unchanged to 3c or 4c higher. The bulk sold at about 2c to 3c advance. The demand was good at the opening and sales brisk, but the inquiry slowed down some toward the close and a few cars were carried over. Oats advanced 1c to 1½c and sold very readily at the higher figure. Rye was about 4c higher. Barley was unchanged to 1c higher. Wheat was lower, prices reclining close to these of the governous. Chicago Grain.

Chicago, March 17.—Highest prices yet this season resulted in the corn market today, chiefly from wet weather hindrances to farm work an dto the crop movement. The close was strong at 2½c to 5¾c net advance, with May \$1.42 to \$1.42\%, and July \$1.35\% to \$1.35\%.

series strength, as heavy rains throughout the belt had rendered country roads impassable in most sections. Under such circumstances the outlook was that there would be no adequate supply of corn available for delivery on May contracts. At the same time, the meagerness of the stocks on hand was greatly emphasized by the prospect of large purchases of foodstuffs for Germany. A broad demand ensued, but owing to profit-taking sales the top prices reached were not held. Additional buying of Argentine corn that was reported did not lead apparently to any reselling of domestic corn.

Unfavorable weather for plowing and seeding had a buillish effect on oats. Besides, eastern stocks were said to light.

Provisions scored maximum gains all around. The impetus came from grain strength and from likelihood of increased European orders. The market, however, was only moderately active.
