

GOVERNMENT OF GERMANY NOW IN HANDS OF ARMY

Monarchist Reaction Reported Growing in Berlin and Military Controlling the New Government.

London, March 17.—Special dispatches from Berlin report that the suppression of the recent Spartacan outbreak there has shown that a military and monarchist reaction is growing and overshadowing the new government.

The Berlin correspondent of the Mail, who on February 27 sent a dispatch, outlining plans for a monarchist uprising in Germany, has arrived in London, having left Berlin on March 14, after a residence there of three months. He reiterates the statements made in his dispatch, saying that President Ebert, Chancellor Scheidemann and Minister of War Noske are merely puppets. He declares that for the purpose of retaining power they have allowed members of the military caste to reappear as organizers of the new republican armies.

"These men are the real governors of Germany," he says. "They make the edicts and Chancellor Scheidemann and his colleagues willingly sign them."

Army Rules Again.

Similar testimony is given by other correspondents in telegraphing from Berlin, some stating that the capture of the suburb of Lichtenberg has been intentionally prolonged with a view to exterminating the Spartacans, whose treatment at the hands of government troops is said to be sharply condemned. While alleged atrocities are attributed to the Spartacans, details which have been given are doubted or denied. Even the Vorwaerts admits them to be much exaggerated. The corre-

spondents concur in the statement that extreme bitterness has been created against the government troops and that further trouble is inevitable.

According to a dispatch to the Mail, the Spartacan revolt will certainly recur in ever increasing forces unless a miracle happens. It adds that Herr Noske's forces have been recruited by bribes and promise of big pay and that to this may be attributed some of the food shortage in Berlin.

Little Importance Attached to Tien Tsin Trouble by Minister

Washington, March 17.—Minister Reisch at Peking advised the State department today that all was quiet at Tien Tsin, where there was trouble last week, between American soldiers and Japanese, and that he was sending a full report of the incident by mail. The department instructed him to report all important facts by cable immediately.

The minister has made no mention of the nature of the difficulty. The fact that Minister Reisch thought it unnecessary to send his report by cable is regarded here as indicating that he did not attach great importance to the matter.

Original Members of "Princess Pats" Land in Halifax, N. S.

Halifax, N. S., March 17.—Port officials were notified last night by radio that the Cunard line steamship Carmania with 3,000 Canadian troops and many civilians, enroute to the United States, on board, will dock here today. It was originally intended that the vessel would go to New York. On board is Canada's famous fighting battalion, the "Princess Pats." Of the original battalion that left here shortly after war was declared, only eight men and one officer, Lt. Hamilton Gaut, of Montreal, are returning.

THREE MILLIONS MORE ASKED FOR WAR INSURANCE

Forty Million Dollars Now Being Paid Out Monthly, Says Secretary Glass of Bureau.

Washington, March 17.—Secretary Glass has asked President Wilson to set aside more than \$3,000,000 from the presidential war emergency fund to cover the cost of continued operation of the war risk insurance bureau for the next few months until congress can remedy its recent failure to appropriate funds for the bureau. The president has not yet given an answer and if he does not make the money available, the activities of the war risk bureau may be greatly curtailed.

It was officially stated today that the bureau has funds to cover allotment and allowance checks to be sent out during the remainder of March and during April. This really means March allowances, since the checks are distributed one month late. Unless some available funds are found by early in May, allotment and allowances may be delayed.

The funds asked of President Wilson will be sent only for administrative expenses of physical operations of the bureau and not for actual covering of allotment and allowance checks. With approximately 15,000 employees the bureau's payroll now is more than \$1,000,000 a month. About 1,200,000 checks for allotments, allowances, insurance and compensation now are mailed monthly, amounting in the aggregate to more than \$40,000,000. Nearly half of this sum comes from the War department and represents soldiers' allotments. There is no shortage in the funds for allotments since this is deducted from soldiers' pay, but the funds available for allowances added to the allotments are limited.

Wears Corner of \$50 Bill in Coat Lapel for Saint

The verdant decoration worn by City Treasurer Frank T. True, a corner of a \$50 bill pinned on the lapel of his coat attracted much attention by those honoring St. Patrick's day. The valuable bit of green was not the result of the conscious mutilation of any of Uncle Samuel's currency, but it was found several years ago after the heavy receipts of the day's cash had been sent to the bank lying on Treasurer True's office table. Efforts to find the bill from which it had been detached failed, and the bit of paper has remained undisturbed in his possession. Each year he religiously pins it to his coat and "points with pride" to its devotion to the memory of Ireland's patron saint.

IRELAND STANDS OUTSIDE DOORS OF BIG COUNCIL

"If you deny the people of Ireland what you have sacrificed to give the other stricken nations, your claims of reverence for the spirit of liberty and freedom are a sham." The land of the shamrock and harp is standing at the door of the world's council. They are knocking and they are supplicating. Will they be forced to insist in order to obtain recognition? "Though she has been insulted and betrayed, Ireland went into the fight with the splendid strength and flower of her manhood against a common enemy, side by side with the nation which smote her." "We hope, we pray, yes, we demand the application of the principles of democracy, for which the greatest war of all ages was waged, to the conditions in the Emerald Isle." History Written in Blood. "The history of Ireland has been written in blood and tears. She has been fighting the battles of others for centuries. She has always played the right part in the development of civilization and has ever stood like a bright star in the heavens to guide and light the way of down-trodden nations. Ireland's history is more than the history of a single nation. It is the world's history. Her spirit has been crushed, but she never has failed to come back. Mr. Dunn asserted that the United States did not enter the war to free Belgium, France or any of the other nations. "It was only when the black eagles of imperial Germany threatened the world," he said, "that the United States told the beast of Berlin to stop. President Wilson expressed it when he declared that the small and weak nations should receive the protection of the strong. This is justice and democracy, and Ireland cannot be denied her rights. The strong nations of the world cannot be un-mindful of her claims in the light of her sacrifices and deeds in the great world struggle which has just come to a close."

Food Administration Has No Authority to Fix Prices Paid for Hogs

Chicago, March 17.—The food administration has not authority to fix hog prices but may and does limit profits on pork food products, according to a telegram received tonight by Everett C. Brown, chairman of the hog prices committee in Chicago from F. S. Snyder, chairman of the meat division of the Food administration in Washington. The telegram was in reply to one sent last Friday by Brown, following a conference here between packers and representatives of the Food administration regarding fixing of a maximum price for hogs. Brown said he was confident the farmers would be pleased if a maximum price of \$17.50 to \$18 would be set. These were the sums suggested at the conference and an official announcement was expected from Washington soon, Brown said.

Lightweight and Easy Move Some of Holmes Features

The Holmes automobile features embodies several engineering features brought about by the aeroplane motor, was one of the centers of attraction at the show. Thousands of the show visitors inspected this car very closely and paid particular attention to the extreme light weight of the Holmes and the ease with which it can be rolled. Light weight and ease of movement are vital factors in the alteration of an automobile and have a direct bearing on the tire cost, gasoline consumption, and mechanical adjustments. Mr. Holmes, manufacturer of the Holmes automobile, in addition to several other individual features, paid a great deal of attention to the things that mean much to the operating cost. One visitor made a remark to the effect that he had put in nearly an entire morning trying to find out how easy each car could be moved and found that the Holmes moved easier than any other car at the show.

Henry Starr, Bandit and Bank Robber, Out After Serving 5 Years

Oklahoma City, Okl., March 17.—Henry Starr, 48 years old, bank robber and bandit, arrived in Oklahoma City today, paroled from the state penitentiary at McAlester by Governor Robertson. Starr had been in prison since 1915, when he was captured after a series of bank robberies in Oklahoma, Kansas and Arkansas that were marked by extreme boldness.

The capture of Starr was effected at St. Cloud, Okl., March, 1915. Paul Garry, 16 years old, shot Starr in one hip while the bank robber and his men were escaping after robbing a bank.

Starr pleaded guilty and was sentenced to 25 years in prison, with the agreement, Governor Robertson said today that he would be paroled within five years. The parole, the governor explained today, is merely carrying out the terms of the agreement entered into by the prosecution at the time of the trial.

Many Killed; Heavy Losses in Hun Riots

Berlin, Saturday, March 17.—(By the Associated Press.)—Fifty-five persons have been killed and 170 wounded in the riots at Halle. Two hundred and eighty persons have been arrested for pillaging. The value of the stolen property is estimated at 18,000,000 marks.

As a result of the plundering in the sections of the country outside of Halle, a state of siege has been proclaimed over Ditterfeld, Delitzsch, Muencheln, Merseburg and Koennern.

Rioting on the part of peasants in Windschlag, near Offenburg, Bavaria, forced the visiting food commission to seek the protection of the military authorities. The rural producers refused to make declarations of their food stores and drove off the officials with pitchforks and clubs.

St. Joseph Citizens Score Reed for Attacking Wilson

St. Joseph, Mo., March 17.—(Special Telegram.)—A resolution denouncing Senator Reed's fight on the league of nations was adopted at a large mass meeting of citizens of Maryville, Mo., last night. The resolution declared, "We believe that the sentiment of Senator Reed's constituents is overwhelmingly with President Wilson in his struggle and we urge him to cease his unpatriotic activities and truly represent the thought of loyal Missourians to the administration of the government affairs by the president."

To Use Canned Goods.

Washington, March 17.—Surplus canned goods now in the hands of the War department will be used up instead of being turned back into the trade, Frank E. Gorrell, secretary of the National Canners' Association announced.

Look inside the lid!

If it hasn't this trademark, it isn't a Victrola

You can readily identify the Victrola by the famous Victor trademark "His Master's Voice." It is not a Victrola without the Victor dog. This trademark is on every Victrola. It guarantees the quality and protects you from inferior substitutes.

The word "Victrola" is also a registered trademark of the Victor Talking Machine Company. It is derived from the word "Victor" and designates the products of the Victor Company only.

As applied to sound-reproducing instruments, "Victrola" refers only to the instruments made by the Victor Company—the choice of the world's greatest artists.

Look inside the lid—insist upon seeing the famous Victor trademarks. On the portable styles which have no lid, the Victor trademark appears on the side of the cabinet.

Your Other Brain

Down in the abdominal cavity lies a great "plexus" or network of nerve centres, that has been called the "abdominal-brain." It cannot think. Its functions are to superintend and keep in operation various mechanical processes, such as the proper secretion of moisture by intestinal glands and adequate action of intestinal muscles in the walls of the bowels.

It receives messages from nerves in various regions of the body, but being unable to reason, it often acts blindly, imperfectly, or improperly. It may stop secretion, lessen muscular action—and the result is constipation.

Castor oil, pills, salts, mineral waters, etc., do not reason with the abdominal brain, they force it to temporary action, to unnatural effort, until the bowels move. But this is followed by a sulky attitude or even a "strike" by your other brain, and the constipation is increased not cured.
