### NEGROES ASSAIL CHIEF OF POLICE FOR STATEMENT

### Condemn Police Head for Making Statements Which May Lead to Race Riots.

Chief of Police Eberstein was strongly condemned at a mass meeting of negroes held Sunday under the auspices of the local representatives of the National Association for the Advancement of Colored People at the Zion Baptist church, Twenty-second and Grant streets, for a published statement in which the chief of police was quoted as casting a reflection on the negroes of Omaha.

Chief Eberstein was credited with saying that if the good colored people did not take the matter in hand and assist in eliminating a criminal element among the negroes responsible for the numerous recent assaults on white women in this city and Council Bluffs the East St. Louis riots possibly would be repeated in Omaha.

### Let Chief Do Duty.

Resolutions were adopted and a committee waited on Chief Eberstein to protest against his statement. "We hold that if Chief Eberstein, with his crops of officers, does his whole and sworn duty it will not be any more necessary for negroes to hunt down their criminals than it will be for white people to hunt down theirs," the resolutions read.

Chief Eberstein received the committee in his office, listened to the reading of the resolutions and asked them to co-operate with him in hunting down the members of their race, who have been terrorizing the community with their depredations. The meeting was presided over by Rev. William F. Botts, pastor of the Zion Baptist church. The committee which drew up the resolutions and waited on the chief of police were Rev. W. C. Williams, pastor of St. John's M. E. church; Rev. M. H. Wilkinson, pastor of Mt. Mariah church; Rev. William F. Botts, Mrs. James G. Jewell, A. P. Scruggs and A. W. Lewis.

### WRIGLEY BUYS BIG CALIFORNIA ISLAND GROUP

### Owner of Big Chewing Gum Factory and Chicago Cubs Plans Pacific Coast Resort.

Los Angeles, Cal., March 17.—(Special.)—William Wrigley, jr., manufacturer of "Wrigley's Spearmint," one of the chief stockholders in the Chicago "Cubs" ball team and an officer and director in a total of 15 enterprises in various parts of the United States, is the head and controlling interest in a company which has taken over Santa Catalina Island. The purchase price is close to \$4,000,000 and several millions more will be spent to make the island the great show place of the Pacific coast.

### Shipyards Director the Manager.

The officers and directors in the new Santa Catalina Island company are some of the most enterprising business men in Los Angeles county. The general manager is Evert H. Seaver, who directed the Fulton shipyards at San Pedro during the war and who last year built successful wooden ships at astonishing speed for the government. Mr. Seaver's record as a builder of ships is equalled by his fame as an employer of labor, for in all his period of service at San Pedro there was no rumor of labor trouble.

David Blankenhorn, a well known Los Angeles business man, is president of the new company. He recently received his honorable discharge from the United States army, where he ranked as captain.

"We intend to make Santa Catalina Island the greatest summer and winter resort in America," said Mr. Wrigley. "Development will progress as rapidly as possible and when business warrants we will put on more steamers. There is room for a half million new cottages on the island and a second new hotel is projected for early completion. It is my plan to make this gem of the Pacific a resort of such attractiveness that it will be a mecca for

visitors from all parts of the country.

There are many unique features found at "Catalina," as the island is called locally. In one vast expanse are the frames of 650 tent cottages which in summer are covered with canvas, furnished completely and rented by the day or week, just as hotel rooms are rented. This is the famous Island Villa. Another summer settlement is made up of hundreds of tents completely furnished for housekeeping.

### Glass-Bottomed Powerboats.

The glass-bottomed power boats, already mentioned, make daily trips over the Marine Gardens—through these boats the visitor gets such sights of a great ocean world of vegetation and fish as can be had nowhere else. Here is a realm peopled with brilliantly colored inhabitants swimming through forests of feathery verdure. Huge tree-like ferns wave and bend with the motion of the water. Great stalks of kelp touch the bottom of the boat. From the strange "sea-cucumber" that clings to the ocean floor and is said to be one of the lowest forms of animal life, to giant tuna fish and sea bass, which are the delight of sportmen, the range of species, size and appearance of these creatures of the deep is utterly astounding.

Above water are scores of seal, some of them weighing a ton, sunning themselves and their young on the rocks. The bald-headed eagle perches himself on a crag and haughtily surveys the scene while a flock of stormy petrel scurry away before the boat's advance. Yonder on a cliff some mountain goats enjoy the scenery and herbage. Over and above all are the bluest of skies, reflected in the depths of the deep blue sea.

Mr. Wrigley, as the world's greatest chewing gum manufacturer, has been said to be one of the largest contributors to men's lasting enjoyment among all who make for creature comfort.

His plans for the development of Santa Catalina Island for the tourists and pleasure seekers who flock to California's sun-kissed shores are being carried out in double measure to all the credit he has thus far attained as the most extensive purveyor of America's own famous confection—the stick with the flavor that lasts.

### Hair Often Ruined By Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulsumed cocoanut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.
