

DANDRUFF MAKES HAIR FALL OUT

A small bottle of "Danderine" keeps hair thick, strong, beautiful. Girls! Try this! Doubles beauty of your hair in a few moments.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance. Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

"TWO THOUSAND DOLLARS GONE," SAYS VESPERMAN

Spent Small Fortune on Treatments Before Finding Relief by Taking Tanlac.

"I spent at least two thousand dollars on medicines and treatments before I finally got relief by taking Tanlac," said Wiley Vesperman, of 4418 Bowser avenue, Dallas, Tex. "I suffered with rheumatism in my left arm and shoulder for several years," he continued, "and at times I was so badly crippled up that I would just have to give up and go to bed. I also suffered terribly with indigestion, and what little I ate formed so much gas that I would belch up my sour, undigested food and would become faint from dizziness. I could hardly sleep at night for the misery I was in and in the morning I would get up feeling so awful that I could hardly get around. "But Tanlac has driven away every bit of the pain and misery. I never suffer from indigestion and can eat anything I want. My condition has improved so wonderfully since I started on Tanlac that I am able now to give all my time to my business, just like I did before that awful rheumatism got its hold on me. My wife is taking Tanlac, too, and she is just as enthusiastic about it as I am."

Tanlac is sold in Omaha by all Sherman & McConnell Drug Company's stores, Harvard Pharmacy and West End Pharmacy. Also Forrest and Meaney Drug Company in South Omaha and the leading druggist in each city and town throughout the state of Nebraska.—Adv.

INSANE MEN IN JURISDICTION OF WAR BUREAU

Baker Replies to Inquiry of Governor Regarding Unbalanced Soldiers; No Special Hospitals Necessary.

From a Staff Correspondent. Lincoln, April 3.—Discharged insane soldiers are in the custody of the war risk bureau, under the jurisdiction of the United States Treasury department, says Secretary of War Newton D. Baker, in a telegraphic reply to an urgent query from Governor McKelvie calling the War department's attention to the fact that discharged soldiers are committed to Nebraska institutions without any attempt on the part of the government to provide special care or separate institutions for them.

The governor asked for a definite statement so he could go before the Nebraska legislature for special appropriations if the War department did not contemplate taking any action.

Asks For Information. Baker asks for specific information in regard to discharged insane soldiers in Nebraska institutions. The governor immediately asked the Board of Control for data on the subject, which will be compiled by Friday.

While they did not have the exact information available, Commissioners Gerdes and Mayfield said they believed a dozen Nebraska soldiers, after having been declared insane by army camp officials while in training in America, had been discharged, with a request from camp officials to the board that the state take over the care of them.

Baker says it is the policy of the War department to keep at military institutions those soldiers "who have become insane as a result of military service," until they are able to be discharged into the custody of the war bureau.

He adds that "no special hospital construction in your state is necessary, so far as concerns the War department."

No Opposition to Good Roads Found in State Senate

By a Staff Correspondent. Lincoln, April 3.—The Nebraska state senate Thursday morning passed the three big good roads bills, which incorporate Nebraska's highway program during the coming biennium.

There was no opposition to any of the bills in the upper branch of the legislature. A few amendments of a minor nature were tacked to the bills in the senate, but they were passed substantially in the same form as approved in the house, and undoubtedly the changes will meet the approval of the lower branch.

Under the provisions of the three bills, which are companion measures, a system of state highways will be constructed, comprising 4,200 miles of roads, with a fund to be provided by an increased automobile tax, a one mill levy by the state to match a similar appropriation by the federal government. The entire fund, it is estimated, will be between \$9,000,000 and \$10,000,000 in the next two years.

DISMISS CASE TO STOP CHANGE IN PHONE RATES

Federal Court Dismisses Application for Injunction to Prevent Charge for Telephone Connections.

Lincoln, Neb., April 3.—Application by the Nebraska railway commission for permanent injunction to restrain enforcement in this state of the postmaster general's schedule of telephone installation and service connection charges was dismissed in United States district court here today by Federal Judge T. S. Munger, who held no federal question had been raised. According to counsel for the postmaster general, the case was the first of its kind to be argued in federal court in the United States. Judge Munger's opinion was concurred in by Federal Judge Martin J. Wade of Iowa.

E. M. Morsman, jr., of the Nebraska Telephone company's legal department stated that the case in question was brought against the Lincoln Telephone company and involved the installation charge which has been in effect since the postmaster general took charge of the telephone lines.

"I would have to see the opinion before I could give an intelligent comment on this decision," said Mr. Morsman.

In effect, however, the decision sustains the installation and service connection charges now being made by telephone companies in this state.

He said he was a supporter of Governor McKelvie and would be two years hence.
