

WOMAN'S SECTION OF THE BEE

Spirits when they please Can either sex assume, or both; so soft And uncompounded is their essence pure.

I can call spirits from the vasty deep Why, so can I, or so can any man. But will they come, when you do call for them? —Shakespeare.

How Women of Today Are Able To Guard Against Anaemia--- Lack of Iron in The Blood The Greatest Curse To Health and Beauty

Relia-Je Method of Hair Care Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment.

PE-RU-NA FOR CATARRH AND CATARRHAL CONDITIONS Just get a bottle of the Dr. Hartman's famous remedy, PE-RU-NA, and take as directed.

How Women of Today Are Able To Guard Against Anaemia--- Lack of Iron in The Blood The Greatest Curse To Health and Beauty

Physician Explains Why Red Blood - Rich in Iron - Keeps Women Strong and Well While Lack of Iron Makes Them Weak, Nervous, Fretful and Run-down - Says:

Introduction of Organic Iron - Nuxated Iron - Solves Problem of Supplying Iron Deficiency. Thereby increasing the Strength and Endurance of Delicate, Careless Women in Two Weeks' Time in Many Instances.

If you tire easily, if you are nervous or irritable or look pale, haggard and worn—your blood may be starving for the want of iron, according to physicians who explain below why they regard anaemia as the greatest curse to the health, strength and beauty of the modern American woman.

That women may become stronger, healthier and better able to meet the cares of home and family by increasing the supply of iron in their blood is the opinion expressed, yet it would appear that there are thousands of delicate, run-down women who need something to build up their red blood corpuscles and increase their strength, but often do not know what to take.

What women need to put roses in their cheeks and the springtime of life into their step is not a stimulant, but plenty of rich red blood. Without iron, no woman can do credit to herself or to her work. Iron deficiency is the greatest curse to the health, strength, vitality, and beauty of the modern American woman.

You can tell the women with plenty of iron in their blood - beautiful, healthy, rosy women - that they will find your medicine. You can tell the women with plenty of iron in their blood - beautiful, healthy, rosy women - that they will find your medicine.
