what Beatrice Fairfax said of them

By HENRIETTA M. REES. H ENRY G. COX is the new president of the Nebraska Music Teachers' association, which held its third annual con-vention Monday, Tuesday and Wednesday of last week at Lincoln. Mr. Cox succeeds Sidney Silber, head of the piano department of the University School of Music, Lincoln, in this office. Other officers elected for the ensuing year are Mrs. Grace B. Hopper of Hastings, vice president, and Miss Edith Miller of Omaha, secretary-treas-

Behind the cloud the starlight lurks. Through showers the sunbeams fall, For God, who loweth all his works. Has left His hope with all -- Whittler.

This organization of music teach-ers was formed in Lincoln three years ago, and this year has a total membership of nearly 400 members, the roll having more than doubled during the past year.

The outstanding features of the convention at Lincoln were the Josef Hoffman recital (which was a number of the All Star Concert course held in Lincoln during the winter, and which the members attended in a body); the program of Indian music, presented Tuesday evening by Thurlow Lieurance, Mrs. Lieurance and assisting flutists, and the co-operation with the state uniin assisting in the furtherversity ance of high school credits for applied music study in the high schools of the state. The round table conferences of

such departments as voice, violin and piano, are of great interest, and although the association is still young, there is a possibility of these being of the greatest value to the teachers of various departments of music, in uniting to solve common problems.

A proposal to invite teachers of ments included an annual member-Music Teachers' association, the ad- will be filled upon receipt. vance of dues from \$1.50 to \$2, and the combination of the offices of secretary and treasurer.

OUR THIRD WELL-BETWEEN 5,000 AND 13,000 BARREL GUSHER

\$15,000 FOR EACH \$100 IVESTED

Rooms, \$1.00 and Up.

Inspection requested.

Our third well will start immediately on the Sue lease located near the heart of this Wonderful Oil Field. The Norwood gusher, reported now flowing 13,000 barrels of high-grade oil daily, is one mile north of us; the Connellee gusher, reported flowing 8,000 barrels daily is less than one mile in another direction-the Harris gusher which is now drilling itself in and reported flowing 5,000 barrels is less than three-fourths of a mile in another direction from us. We are nestled among and almost surrounded by the largest high-grade oil wells in the world. We are only 900 feet from Magnolia tank farm and pipe line. One well on this lease, as good as either of these wells would be worth Millions.

YOU WANT QUICK ACTION-2 WELLS ALREADY DRILLLING

Our first well on our 100-acre Fritts lease is now down 2.825 feet. This well will soon come in It is midway between the Tippett and Downing wells and right in line with the great Duke and Knowles gushers in Comanche County, Texas. The Duke gusher came in reported making 2,500 barrels each and the Knowles gusher 3,500 barrels, which has just been drilled three feet deeper and is rported now flowing 10,000 barrels of high-grade oil daily.

Our second well on our 168-acre Montgomery lease is now down 1,200 feet and going deeper night and day. We also own four splendid 40-acre tracts in close proximity to this lease in Comanche County, Texas-We own 428 acres of leases in this County.

We also own over 1,000 acres of well selected and splendidly located leases in Hamilton and McCulloch Counties, Texas, which are increasing rapidly in value as development is getting closer to these properties.

KNOWLES WELL IN COMANCHE COUNTY FLOWING 10,000 BARRELS DAILY Comanche County is rapidly coming to the front and already has several big gushers to her credit.

We picked that county for big production-we were right. There is not a dry hole in the County. We believed in Comanche County so strongly that the officers of our Company spent \$75.000.00 of their own money in shipping engines, boilers, tools, pipes, casing and other equipment from our Oklahoma Supply Yards BEFORE WE OFFERED A SINGLE SHARE OF STOCK FOR SALE.

We spent \$5,000.00 IN FREIGHT BILLS alone to get our equipment onto our Comanche County leases—over 200 wagon loads.

We didn't ask our stockholders to put up money to buy this equipment. We went right at itmud or no mud. That's the way we do things.

SEE WHO OUR NEIGHBORS ARE !!

The largest and most successful Oil Companies in America have purchased leases immediately adjoining and surrounding our two drilling wells-around our 100-acre Fritts lease are the Humble Oil & Refining Co., Texas Company, Sun, Gulf, Atlantic, Empire, Cosden, Prairie, Sinclair and Invader Oil & Refining Co.

Around our 168-acre Montgomery lease are the Humble Oil & Refining Company, Texas Company, Ohio Cities Gas, South Penn., Sun, Cosden, Empire, Gulf, Atlantic and Invader Oil & Refin-

We also own four additional leases of 40 acres each close to the Montgomery lease and located among the leases owned by these giant Oil Companies.

See what the big Companies THINK of our Fritts and Montgomery leases !!!

We are now offering only \$35,000 of our stock for sale-out of our authorized capital of \$250,-000. If either of our wells come in good, this will be sufficient. We reserve the right to advance the price or withdraw it from the market entirely without notice. You can buy our stock today at par value-\$1 per share.

BANKERS AND OIL MEN ARE BUYING OUR STOCK - WHY?

Because they know that Mr. A. M. Donnelly, our President, has drilled or supervised the drilling of over 4,000 wells in Texas, Oklahoma, Kansas and the eastern oil fields-because they know that we have been in the oil business for many years-they know that we know how to get production and how to take care of producing wells after we get them. They know we are reliable. Don't you forget that. We are Producers-not promoters.

Mr. Donnelly is also President of Invader Oil Company, which has over 40 producing wells and has paid 28 cash dividends to its stockholders. Mr. O. A. Wood, our Vice President, drilled the discovery well in the famous Bixby field. Mr. Garrett Donnelly, who superintends all of our drilling, is second vice president of our company. He's been supervising the drilling of oil wells for the last 15 vears.

We GUARANTEE that you will be given a square deal-that you will share in all the wells we drill-in all the properties we own-in the properties that we hereafter buy-in all the profits of our Company.

If either of these wells come in big, the shareholders of the Tulsa Producing & Refining Company will cash in strong-and do it quickly.
