#### Dr. Syngman Rhee Named Secretary of State of Korean Government, Says Dispatch From Shanghai.

Washington, April 7.—Dr. Syngman Rhee, who, according to cable dispatches from Shanghai, has been named secretary of state of a Korean provisional revolutionary government established in Manchuria, issued a statement today in which he declared it the intention of the leaders of the movement to make a Christian country out of Korea, "once it is free of Japan."

"This," said the statement, "would make Korea the first independent country in Asia to become Christian."

"Koreans will not stand for a heathen autocratic government like that of Japan. They have been trained under American Christian influence, and the leaders are all imbued with American democratic ideas. Seven of the eight members of the Korean provisional government are with American democratic ideas. Seven of the eight members of the cabinet of the provisional government are Christians and our government will naturally follow the American form of government as nearly as it can be done."

"Koreans are united in their demand for democratic Christian government like that of the United States. Hatred of idol worship is at the bottom of the detestation which Koreans feel for Japanese authority, which requires worship of the Mikado's image. Hundreds of times have Christian students in Korean schools, when forced to the

### Yaqui Indians Get Munitions in Raid Across U. S. Border

Nogales, Ariz., April 7.—Yaqui Indians yesterday crossed the boundary from the state of Sonora, Mex., into the United States, obtained a large amount of arms and ammunition and then recrossed into Mexico, headed, it is believed, toward Nogales, Sonora. This information was brought here today by Mexican officials who asked Col. F. C. Carnahan, U. S. A., commander here, for assistance to stand off the Yaquis, who the Mexicans fear, intend to attack Nogales, Sonora.

As a measure of precaution Colonel Carnahan ordered a mounted detachment of the 25th infantry to Lochiel, Ariz., though he stated that he believed the affair had been much exaggerated, in the meantime the streets of Nogales, Sonora, are filled with heavily armed Mexican soldiers and excitement prevails in expectation of Yaqui attack.

public celebration of the Mikado's birthday refused to bow their heads before this image because it is against the teaching of the second commandment and for their consciences' sake suffered arrest and torture.

"America should help our cause for her own sake. Korea is the natural buffer state in the east, situated between Japan, China and Asiatic Russia. Like Belgium, for this reason, she has always been the battlefield of her neighbors. Like Belgium, also, she maintained her independent existence, until ten years ago, when Japan treacherously annexed her in spite of her solemn treaty and pledges to protect Korea's political independence and territorial integrity."

"The Koreans are known as men of the pen, while the Japanese are men of the sword. If only the Koreans are given the opportunity to develop themselves without outside interference, they will produce a new model of Christian civilization in Asia."

### THEFT OF FOUR MILLION RUBLES IS EXPLAINED

#### Astonishing Story of Political Plots in Days Before Allied Troops Landed at Archangel Is Told.

By Associated Press.

Archangel, Saturday, April 7.—The theft of 4,000,000 bolshevik rubles by a band of Cossack officers who also included the arrest of the American consul at Archangel and the kidnapping of the north Russian government, was explained at the trial of the officers today before the supreme judicial authority of northern Russia. The officers, among whom were Captain Bers and Colonel Melia, were convicted and sentenced to imprisonment and deprivation of their rank and decorations. Because of their military valor the court recommended that they be pardoned.

The defendants unfolded an astonishing story of the inner details of the days before the allied troops landed at Archangel and of the political plots that occurred afterward.

Last July, when an allied landing at Archangel seemed imminent, Captain Bers and the other Cossacks were aligned with the bolsheviks. As the allied troops approached the city, the bulk of the bolshevik force fled, but Bers and the Cossacks remained behind, as did Colonel Potapoff, the bolshevik commander, who was arrested later.

Arrest American Consul.

Captain Bers seized the safe containing the bolshevik war fund of 4,000,000 rubles. Then, with Colonel Potapoff, the Cossacks arrested the American consul, Felix Cole; the British and French consuls and the French military mission. The allied officers were taken to a barn and hidden, the Cossacks holding them and the money as hostages until something definite happened.

When the allies landed and the local counter revolution broke out almost simultaneously on August 1-2, the consuls were released, the Cossacks however, after declaring themselves ready to support the new government and claiming that they were secretly against the bolsheviks throughout, kept the 4,000,000 rubles as a Cossack prize of war.

At the trial it was revealed that the money furnished the financial sinews for the attempted coup against the north Russian government early in September when, under the direction of General Krasnov, the Cossacks kidnaped President Tschaikevsky and other members of the provisional government at midnight and spirited them away to a lonely monastery near the White sea.

It was largely through the initiative of American Ambassador Francis that the attempted coup was frustrated and the members of the government released and reinstated in their offices. The defendants said that much money was spent in bribing various officials not to interfere with the kidnapping. Political conditions were pleaded as justification for arresting the members of the provisional government.

From some source the defendants were able to restore all of the 4,000,000 rubles they had taken and they have handed the money over to the present government. The men were tried on a charge of taking funds belonging to the government.

The epidemic of typhus, intensified by famine, likewise is causing great ravages. In the region of Sourmalou people are eating bodies."

### Fifty Berlin Resorts Closed for Violating the Food Regulations

Berlin, April 6.—About 50 resorts in Berlin—cabarets, variety shows, dance halls and the like—have been ordered closed because of the food profiteering and violations of various regulations regarding the sale of food and drink.

It is claimed in some circles that the places were closed because American officers here reported to the food minister that they had found surprisingly varied menus and questioned Germany's alleged foody, less situation.

### LONDON GREETS ANNOUNCEMENT OF \$250 FORDS

#### Though Car Would Sell for About \$450 in England, It Would Be Cheaper Than Motorcycles.

(By Universal Service.)

London, April 7.—A standup passenger on the district railway yesterday morning—a share of a strap in one hand, his newspaper in the other—gave a sudden whoop of excitement. His fellow standers started. They thought he had seen a seat.

He had merely read a cablegram from New York telling about the \$250 Ford car and realized what it meant.

He passed the news around. All the other passengers who had room to move their arms turned, each to the front page of his paper, to read the wonderful announcement. In the motor trade of London and the country the same enthusiastic interest was shown.

"I will take as many of these \$250 Fords as I can get," said a motor dealer to a newspaper representative, "and sell them before I can receive them. There is no end to trade prospects before the car. Picture a fine Sunday with new Fords each yard of the way from London to Brighton. No more tube overcrowding; no more fighting for tram cars, everybody saving money by buying \$50 Fords in place of season tickets."

Now for the bad news. The Ford could not be sold in this country at much less than \$425, owing to the tax on imported cars. It would be, even at that figure, much less than a motorcycle and a sidecar, or any existing light car on the market.

#### Pressure on Odessa Increased.

Paris, April 6.—Bolshevik pressure against Odessa, the great Russian port on the Black sea, is increasing and the evacuation of the city by the allied forces is imminent, the Matin says. The allied forces, it adds, probably will be withdrawn ultimately to the Dniester in order to protect Bessarabia and Rumania. The isthmus of Perekop, which connects European Russia with the Crimea, has been fortified by the allies to protect the Russian naval base of Sebastopol.

Secretary Baker is going abroad to attend meetings of the allied liquidation commission in Paris and Tours for settling payments between England, France and the United States for war material. He will be in France only a week or ten days.

The congressional delegation aboard the big liner was headed by former Chairman S. H. Dent of Alabama, and was accompanied by representatives of the general staff of the United States army. Representative Julius Kahn of California, the new chairman of the committee, is already in France.

### A GOOD WAY TO SAVE

"In times like these when economy is so essential, I know of no better way to save than to have the entire family shod with Neolin Soles," writes B. F. Williams, Rochester, N. Y.

In his letter Mr. Williams tells of a pair of Neolin-soled shoes which he has worn constantly for four months. "The soles still look like new," he says. "You, too, will think there is no better way to save, when once you have tried shoes with these long-wearing, comfortable, and waterproof soles. They come in many styles for every member of the family. And good repair shops carry Neolin Soles for re-soles. They are made scientifically by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels."

### KELLY-SPRINGFIELD CATERPILLAR TIRES

THE tire that delivers the engine's full power to the road. Its side air-pockets give it a leach-like traction grip, break up the tire-wrecking traction wave and enable the resilient rubber segments to expand as the rear edge of each is released from road contact, propelling the truck forward instead of holding it back.

That this means increased mileage, decreased gasoline consumption and general economy of operation is the testimony of some of the biggest fleet-owners in America.
