Mrs. Carrie Chapman Catt.

Mrs. Carrie Chapman Catt of New York, president of the National American Woman Suffrage association, in a recent address at the convention of the association in St. Louis, urged the organization of a league of woman voters to fight the fight for woman suffrage and to aid in reconstruction work in the country, according to a report from St. Louis. New Y. W. Maps Will Show Status of Women Working

A set of 12 maps which will show the industrial status of women workers in the United States at a glance, will be one feature of the handbook on industrial information soon to be distributed by the women in industry section of the Y. W.

Each map will show one thing which bears upon the entire question such as in what states there are minimum wage laws and whether they are good or poor; the number of women industrial workers in each state; the per cent of women in industry in the state; the hours of labor, whether the minimum is an 8, 9, or 10-hour day; night work; minimum age for workers; mining legislation; suffrage; states where seats are required for women workers and states where women are allowed to be members of legislative committees or of administrative bureaus.

The maps are built upon a central color scheme, blue indicating the best laws or highest percentage in each case, red taking second place and green third. White is always the negative status.

In addition to the maps and charts the handbook will contain nine other sections, among them one devoted to resumes of labor platforms and programs of reconstruction. One section will be devoted to studies of certain industries with a short historical setting brought up to date of the most recent legislation. State laws relating to women workers will be listed and industrial information classified according to states. A reference section will give a complete bibliography of books published on the subject and of all magazine stories published on subjects pertaining to women workers during the past month.

GIRLS! LOTS OF BEAUTIFUL HAIR

A small bottle of "Danderine" makes hair thick, glossy and wavy. Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now—it costs but a few cents—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp.—Danderine, we believe, is the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.
