Boston, April 11.—The Commercial Bulletin tomorrow will say:
Fine staple wools have strengthened a bit during the week where mills were demanded to secure a selection of the best grades. Medium wools have remained fairly steady, except that quarter bloods and below are slightly lower. The demand is still chiefly for fine wools. The London sales have held firm and for fine wools have ruled a very little dearer. Trading has been resumed at Buenos Aires. Prices are firm at the cape.
California: Northern, \$1.38@1.42; middle county, \$1.33@1.40; southern, \$1.30@1.32.
Oregon: Eastern No. 1 staple, \$1.65@1.70; eastern clothing, \$1.35@1.40; valley No. 1, \$1.45@1.50.
Territory: Fine staple, \$1.65@1.70; ¼ blood combing, \$1.05@1.10; fine clothing, \$1.40@1.42; fine medium clothing, \$1.35@1.83.
London, April 10.—Nine thousand bales were offered at the wool suction sales. It was a fine selection and the demand was keen at firm prices. New South Wales scoured brought 5s 7d and Victorian greasy ranged from 3s \$¼d to 4s 6¼d. Boston, April 11.—The Commercial

New York, April 11.—A more general readjustment of prices on a declining scale marked today's seasion of the stock market, leaders, particularly investment rails and United States Steel, denoting further liquidation, attributed in part to conservative interests.

In its hesitant course the market frequently indicated an over extension and consequent weakening of the sustained buil account which has controlled movements for almost two months past.

Technical conditions proved more potent than actual developments, although over night dispatches from eastern Europe invited fresh bear aggressions. Continued firmness of call loans and paucity of time funds also served as a restraint, despite the removal of all restrictions on brokers' loans.

Oans. United States Steel was under incessan

United States Steel was under incessant pressure, breaking up to 37%, its low price of the week, but closing unchanged at 38%, Steel's heaviness was the more conspicuous because of the strength of related shares, notably Bethlehem.

Sinclair Cil was strongest and most active of the petroleums, holding most of its four point gain. Atlantic Gulf led the shippings at a gross gain of three points, but American International added almost four points to the decline which followed yesterday's announcement of the coming \$40 payment on the stock.

Reversals among rails mostly affected St. Paul common and preferred, Union Pacific and Norfolk and Western at recessions of one to two points. Equipments, metals and tobaccos were unsteady, but food shares and secondary mining issues made variable gains. Sales amounted to 1,300,000 shares.

Chicago, April 11.—Fresh strength developed in the corn market today chiefly as a result of word that the United States is shipping board would not assign any more vessels to the Argentine trade. Prices closed unsettled, %c to 1%c net higher; with May \$1.57 to \$1.58% and July, \$1.49% to \$1.50. Oats finished at %c decline to a like advance. In provisions there was a rise of \$2c.

Inasmuch as pressure of Argentine of erings had been to a large degree responsible for the last setbacks in the value of corn, the outlook that imports from Argentina would not broaden out as much as had been looked for led to a general rush this morning to buy corn here. Wet weather and the scantiness of domestic rural offerings tended also to emphasize buillish sentiment. After midday, however, a material reaction took place, owing somewhat to likelihood of more liberal arrivals next week and to eastern messages asking on what basis exporters could cancel purchases. Besides, hedging sales were reported as having been made for Tennessee and Kentucky.

Oats followed corn, advancing early and weskening later.

Jumps in provisions were ascribed in the main to an improved outlook for export husiness. Big shipments from here continued.
