This feature of the bill drew strong fire from Omaha people. An-

other section contemplated requiring the street railway company to pave all street space between 18 inches from the outer rails. Other features referred to the municipal coal yard, \$500,000 revolving fund for street improvement districts, and \$50,000 annual appropriation for half cost of grading.

Personally, he is of the opinion that those who fought so hard at Lincoln against certain features of Senate Files Nos. 165 and 166, would be able to make a stronger fight on home grounds if those same features should be incorporated into a pro-posed home rule charter.

"The present law al-lows a bond issue of only \$250,000 for this purpose, and I do not think that a substantial structure of this kind could be erected for that amount! On hearing this Bela Kun sprang to a telephone and told the red guard to find quarters elsewhere.

Socialize Clubs.

All the clubs and fashionable exlusive resorts have been socialized, neluding the Park club. The ockey club has been converted into a laborers home and the splendid race course, which cost a year's time and \$5,000,000 to make, is being plowed up for potatoes. There is an organization of wo-men's red guards functioning now,
