

Here Is the

Opportunity of a Lifetime

DOUBTLESS you have heard about the *Perfection Cooker*. May be there is one in use in your own home, anyhow you have seen it advertised in Omaha's leading dailies and know it is a household article of real merit; an article of household use wanted, yes, absolutely needed, in every kitchen in the country, in every home where true economy is practiced, and the best tasting, most easily digested food is desired.

The recent advertising campaign conducted to sell *Perfection Cookers* has been an overwhelming success, forcing the present factory facilities to the limit to even meet the demand. Now it becomes absolutely necessary to increase production and install more machinery and equipment in order not only to meet the present demand but to reach out for larger markets---waiting markets. Advertising has proven that thrifty housewives want *Perfection Cookers* in their kitchens, it has also proven that there is a big latent demand for *Perfection Cookers* of a size larger than the present size. A size for hotel, restaurant and camp use. To take advantage of this demand more machinery and equipment is absolutely needed.

There are actual buyers waiting for the new-sized *Perfection Cooker* as well as thousands of homes waiting for the family size *Perfection Cooker*. Will you be one of those far seeing enough to appreciate what this means to the man or woman looking for a safe investment, yet one that has more opportunities for real profit than almost any known form of security?

Since time immorial the old style wasteful boiling kettle has been in use. No improvement was ever made on it until the birth of the *Perfection Cooker*. Fortunes have been made manufacturing old style kettles, pots and pans, and housewives have always been looking for a kettle that would not boil over, boil dry or waste fuel, food or flavor. All welcome the *Perfection Cooker* whenever they hear about it. To be able to share in the earnings of a company manufacturing a household utility of such proven worth and for which there is such a ready demand, is indeed the opportunity of a life time.

Are You Going to Take Advantage of It?

Are you going to be part owner in an industry that will be to Omaha and the middle west what the Ford Auto Co. is to Detroit and the east. The *Perfection Cooker Corporation* is indorsed by business men and bankers.
