San Francisco, April 22.—A bril-liantly lighted, laughing and dancing San Francisco was turned over to the heroes of the 363d infantry and the 347th field artiflery tonight following the breaking up of their pa rade here today by a shouting mass of relatives and friends, who defied rope barriers and police to welcome them hand to hand.

The thousands of welcomers broke their packing ranks when an aged woman, spying her son in the line, ran out to kiss him. The military formation was shattered by the host that followed her, the crowds finally forming a human trench through which the khaki-clad

host marched single file.

By police order the "lid" was lifted from the cases and the city was told to rejoice until dawn. There were 2,600 arrivals, the majority of them San Francisco and California

### Italian Delegates Bitter Over Rejection of Their Claims But Seek Basis of Adjustment.

**JUGO-SLAV** 

THE WEATHER:

Paris, April 22.—(By the Association ciated Press)-The Italian situstion remains unchanged, according to the authoritative announcement after the meeting of the council of four today.

The Italian premier, Vittorio Orlando, while not attending the session of the council, had a series of private conferences and arranged a meeting with Premier Lloyd George, with a view to seeking a plan of adjustment.

One compromise proposed to the Italians, making provision for the recognition of their claim to Fiume in exchange for the abandonment of their claim to the Dalmatian coast, was rejected.

There are indications of weakening on the part of the Italian delegation and a disposition to withdraw heir demands for the Dalmatian hinterland if permitted to have the, coast, the coastal watershed and

The Italian delegates are not preparing to leave Paris, apparently believing that the allies will approach them with a compromise before peace is signed with Germany, However, the French, British and American delegates show no signs of weakening and continue to advise the Italians of the meetings as if the Italian delegates had not
