GRAIN MARKET

Observing Arbor day as a holiday, no session of the Omaha grain exchange was held today. Chicago Grain and Provisions.

Chicago Grain and Provisions.

Chicago, April 22.—Corn climbed just a little higher today than all previous top levels this season. Official announcement that no 5-cent bread was in sight formed the chief basis for the new upturn. The market closed unsettled, %c net lower to 1c advance, with July \$1.58% to \$1.58%, and September \$1.54 to \$1.54%. Oats finished unchanged to %c down, and provisions unchanged to %c down, and provisions unchanged to %c down, and provisions unchanged to foc decline.

Statements made by the federal wheat director touching the probable continuance of world high prices for bread and indicating that European supplies of foodstuffs would be even smaller this year than last year gave the corn market immediate fresh strength. The fact that live hogs had risen in value to the highest point ever reached in Chicago, \$21.00 cwt., tended further to stimulate demand for corn. On the ensuing advance, however, profit taking sales broadened out and hedging operations put additional weight on the market. A break resulted, but then offerings were again quickly absorbed, and the market was rallying at the last, with shorts active bidders and apparently somewhat scarce.

Absence of eastern shipping call made oats incline to sag.

Provisions lacked any aggressive support. Record-breaking high prices on hogs seemed to have put a decided check on demand.

New York, April 22.—The stock market intered upon a new and interesting phase today in the sense that rails, so long relegated to comparative security, assumed a commanding position throughout

sumed a commanding position throughout the busy session. Especial significance attached to the seemingly confident accumulation of these shares, because while the movement comprehended an unusual variety of issues, it converged perceptibly around many of the low-priced transportations which tap the country's richest oil properties.

There was fair dmand also for high grade or investment rails. In most other apects the character of the trading manifested a radical change, distinct irregularity and heaviness being shown by shippings, oil, motors and numerous specialties.

Outstanding features of the railway list included Texas and Pacific, Missouri, Kansas and Texas common and preferred, Kansas City Southern, Missouri Pacific common and preferred, St. Louis and Southwestern, St. Louis and Southwestern, St. Louis and Southwestern, Tallway, Rock Island, Erie, New Haven, Baltimore and Ohio and Chesspeake, and Ohio at gross gains of 1½ to 6 points.

St. Paul common and preferred, South-14 to 5 points.
